2023-2024 STUDENT / PARENT HANDBOOK

INTRODUCTION

This handbook has been prepared to be a source of information for students and parents. Students are responsible for the contents. Parental and student signatures are required to show that a copy of this document has been received. This book reflects the policies of the Board of Trustees as well as regulations set by the Texas Education Agency and will be in effect during this school year unless preempted by law.

The Student Handbook is not a contract between the school and parents or students. It can be amended at any time at the discretion of the school district. If the district makes changes to the handbook during a school year, the administration of the district and the campus will communicate those changes in ways that are designed to inform parents and students of the new or revised information.

Please understand that this Handbook is intended to serve as a reference and guide for your use. However, during the course of the school year, it is impractical to address every circumstance or situation that could possibly occur. Therefore, the campus principal has the authority to make decisions in the best interest of the students, faculty and the school. Please refer to the Steps To Eliminate Problem Situations in the handbook. A copy of the district's Policy Manual is available online at www.misd.org.

Eliminate
Problem
Situations

S. T. E. P. S.

Refers to Montgomery Independent School District's approach to resolving situations which occasionally cause parents, teachers, and students concern.

Resolving those situations quickly and to the satisfaction of all parties is beneficial to the children and the educational program.

The steps 1-4 shown below are the quickest and best methods for reaching satisfactory solutions. Please use them should you ever encounter a situation in Montgomery I.S.D. which is a concern to you.

CONTACT THE APPROPRIATE STAFF MEMBER

The most direct route to resolving a concern is to confer directly with the person involved, whether it is a teacher, coach, or bus driver, etc. Over 95% of the concerns are resolved at this level.

CONTACT THE PRINCIPAL

A professional educator is in charge of each campus and is responsible for concerns that may arise from the school's operation. Explanations of policies and procedures, various clarifications and all types of campus information are available from the principal.

CONTACT THE APPROPRIATE DISTRICT ADMINISTRATOR

This may be the Director of Athletics, Child Nutrition, Human Resources, Transportation, or Special Education; Executive Director for Curriculum; Assistant Superintendent for Administrative Services; or the Superintendent. This step should be taken only when steps one and two have not resolved the concern. Starting at this step will result in your being asked to attempt steps one and two first.

CONTACT THE SCHOOL BOARD

After taking steps 1-3 above without resolving a concern, a request in writing for a School Board hearing is step 4. This written request is made through the Superintendent.

Preface

To Students and Parents:

Welcome to the 2023–24 school year! Education is a team effort, and we know that students, parents, teachers, and other staff members all working together can make this a wonderfully successful year for our students.

The Montgomery ISD High School Student Handbook is designed to provide basic information that you and your child will need during the school year. The handbook is divided into two sections:

Section I—Parental Rights—with information to assist you in responding to school-related issues. We encourage you to take some time to closely review this section of the handbook.

Section II—Other Important Information for Students and Parents—organized alphabetically by topic, and, where possible, further divided by applicability to ages and/or grade levels, for quick access when searching for information on a specific issue.

Please be aware that the term “parent,” unless otherwise noted, is used to refer to the parent, legal guardian, any person granted some other type of lawful control of the student, or any other person who has agreed to assume school-related responsibility for a student.

Both students and parents should become familiar with the Montgomery ISD Student Code of Conduct, which is a document adopted by the board and intended to promote school safety and an atmosphere for learning. That document may be found on the district’s website at www.misd.org and is available in hard copy upon request.

The Student Handbook is a general reference guide only and is designed to be in harmony with board policy and the Student Code of Conduct. Please be aware that it is not a complete statement of all policies, procedures, or rules that may be applicable in a given circumstance.

In case of conflict between board policy (including the Student Code of Conduct) and any provisions of the Student Handbook, the provisions of board policy and the Student Code of Conduct are to be followed.

Please be aware that the Student Handbook is updated yearly, while policy adoption and revision may occur throughout the year. The district encourages parents to stay informed of proposed board policy changes by attending board meetings and reviewing newsletters and other communications explaining changes in policy or other rules that affect Student Handbook provisions. The district reserves the right to modify provisions of the Student Handbook at any time, whenever it is deemed necessary. Notice of any revision or modification will be given as is reasonably practical under the circumstances.

Although the Student Handbook may refer to rights established through law or district policy, the Student Handbook does not create any additional rights for students and parents. It does not, nor is it intended to, create contractual or legal rights between any student or parent and the district.

The electronic copy of the district's official policy manual is available for review at <https://pol.tasb.org/home/index/910>.

If you or your child has questions about any of the material in this handbook, please contact a teacher, the school counselor, or the principal.

Section I: Parental Rights

This section of the Montgomery ISD High School Student Handbook includes information related to certain rights of parents as specified in state or federal law.

Consent, Opt-Out, and Refusal Rights

Consent to Conduct a Psychological Evaluation

Unless required under state or federal law, a district employee will not conduct a psychological examination, test, or treatment without obtaining written parental consent.

Note: An evaluation may be legally required under special education rules or by the Texas Education Agency for child abuse investigations and reports.

Consent to Human Sexuality Instruction

Annual Notification

As a part of the district's curriculum, students receive instruction related to human sexuality. The School Health Advisory Council (SHAC) makes recommendations for curriculum materials, and the school board adopts the materials and determines the specific content of the instruction.

In accordance with state law, below is a summary of the district's curriculum regarding human sexuality instruction:

Teaching students about human reproduction in a health, science, or psychology course can be one of the most difficult lessons a teacher has to teach because it is a delicate topic. Topics such as physical, perceptual, language, cognitive, social and emotional development, gender roles and differences, functions of the nervous system and the endocrine system, interpersonal relationships, and personal relationships may be discussed in any of these courses. Topics will only be covered according to the Texas Education Agency (TEA) developed TEKS for each health, science, or psychology course offered in MISD.

In accordance with state law, a parent may:

- Review, receive a copy of, or purchase a copy of curriculum materials depending on the copyright of the materials.

- Remove his or her child from any part of the human sexuality instruction without academic, disciplinary, or other penalties.
- Become involved in the development of this curriculum by becoming a member of the district's SHAC or attending SHAC meetings. (See the campus principal for details.)
- Use the district's grievance procedure concerning a complaint. FNG(LOCAL)

State law also requires that instruction related to human sexuality, sexually transmitted diseases, or human immunodeficiency virus (HIV) or acquired immune deficiency syndrome (AIDS):

- Present abstinence from sexual activity as the preferred choice in relationship to all sexual activity for unmarried persons of school age;
- Devote more attention to abstinence from sexual activity than to any other behavior;
- Emphasize that abstinence, if used consistently and correctly, is the only method that is 100 percent effective in preventing pregnancy, sexually transmitted infections, and the emotional trauma associated with adolescent sexual activity;
- Direct adolescents to abstain from sexual activity before marriage as the most effective way to prevent pregnancy and sexually transmitted diseases; and
- If included in the content of the curriculum, teach contraception and condom use in terms of human use reality rates instead of theoretical laboratory rates.

Consent Before Human Sexuality Instruction

Before a student receives human sexuality instruction, the district must obtain written consent from the student's parent. Parents will be sent a request for written consent at least 14 days before the instruction will begin.

Consent to Instruction on Prevention of Child Abuse, Family Violence, Dating Violence, and Sex Trafficking

Before a student receives instruction on the prevention of child abuse, family violence, dating violence and sex trafficking, the district must obtain written consent from the student's parent. Parents will be sent a request for written consent at least 14 days before the instruction will begin.

Annual Notification

Students receive instruction related to the prevention of child abuse, family violence, dating violence, and sex trafficking. The School Health Advisory Council (SHAC) makes recommendations for curriculum materials, and the school board adopts the materials and determines the specific content of the instruction.

In accordance with state law, a parent may:

- Review, receive a copy of, or purchase a copy of curriculum materials depending on the copyright of the materials. As required by law, any curriculum materials in the public domain used in this instruction will be posted on the district's website at the location indicated above.
- Remove his or her child from any part of this instruction without academic, disciplinary, or other penalties.
- Become involved in the development of this curriculum by becoming a member of the district's SHAC or attending SHAC meetings. (See the campus principal for details.)
- Use the district's grievance procedure concerning a complaint. FNG(LOCAL)

Consent to Provide a Mental-Health Care Service

The district will not provide a mental health care service to a student or conduct a medical screening of a student as part of the district's intervention procedures except as permitted by law.

The district has established procedures for recommending to a parent an intervention for a student with early warning signs of mental health concerns, substance abuse, or suicide risk. The district's mental health liaison will notify the student's parent within a reasonable amount of time after the liaison learns that a student has displayed early warning signs and provide information about available counseling options.

The district has also established procedures for staff to notify the principal or counselor regarding a student who may need intervention.

The Campus Principal or Counselor can provide further information regarding these procedures as well as curriculum materials on identifying risk factors, accessing resources for treatment or support on- and off-campus, and accessing available student accommodations provided on campus.

The Mental Health Liaison can be reached at:

Courtney Dyer, Director of Community Services
936-276-2160
courtney.dyer@misd.org

Consent to Display a Student's Original Works and Personal Information

Teachers may display students' work, which may include personally identifiable student information, in classrooms or elsewhere on campus as recognition of student achievement.

In addition, the district may also display students' artwork, special projects, photographs taken by students, original videos or voice recordings, and other original works on the district's website, a website affiliated or sponsored by the district, such as a campus or classroom website, and in district publications, which may include printed materials, videos, or other methods of mass communication.

Consent to Receive Parenting and Paternity Awareness Instruction if Student is Under Age 14

A student under the age of 14 must have parental permission to receive instruction in the district's parenting and paternity awareness program; otherwise, the student will not be allowed to participate in the instruction. This program, developed by the Office of the Texas Attorney General and the State Board of Education (SBOE), is incorporated into the district's health education classes.

Consent to Video or Audio Record a Student When Not Otherwise Permitted by Law

State law permits the school to make a video or voice recording without parental permission for the following circumstances:

- When it is to be used for school safety;
- When it relates to classroom instruction or a co-curricular or extracurricular activity;

- When it relates to media coverage of the school; or
- When it relates to the promotion of student safety as provided by law for a student receiving special education services in certain settings.

The district will seek parental consent through a written request before making any other video or voice recording of your child not otherwise allowed by law.

Please note that parents and visitors to a classroom, both virtual and in person, may not record video or audio or take photographs or other still images without permission from the teacher or other school official.

[See **Video Cameras** for more information, including a parent’s right to request video and audio equipment be placed in certain special education settings.]

Limiting Electronic Communications with Students by District Employees

Teachers and other approved employees are permitted by the district to use electronic communication with students within the scope of the individual’s professional responsibilities, as described by district guidelines. For example, a teacher may set up a social networking page for his or her class that has information related to class work, homework, and tests. As a parent, you are welcome to join or become a member of such a page.

However, text messages sent to an individual student are only allowed if a district employee with responsibility for an extracurricular activity needs to communicate with a student participating in the extracurricular activity. The employee is required to include his or her immediate supervisor and the student’s parent as recipients on all text messages.

If you prefer that your child not receive any one-to-one electronic communications from a district employee or if you have questions related to the use of electronic media by district employees, please contact the campus principal.

Objecting to the Release of Directory Information

The Family Educational Rights and Privacy Act, or FERPA, permits the district to disclose appropriately designated “directory information” from a child’s education records without written consent. “Directory Information” is information that is generally not considered harmful or an invasion of privacy if released. Examples include a student’s photograph for publication in the school yearbook; a student’s name and grade level for purposes of communicating class and teacher assignment; the name, weight, and height of an athlete for publication in a school athletic program; a list of student birthdays for generating school wide or classroom recognition; a student’s name and photograph posted on a district-approved and -managed social media platform; and the names and grade levels of students submitted by the district to a local newspaper or other community publication to recognize the A/B honor roll for a specific grading period. Directory information will be released to anyone who follows procedures for requesting it.

Unless a parent has advised the district not to release his or her student’s information, the Every Student Succeeds Act (ESSA) requires the district to comply with requests from military recruiters or institutions of higher education for the student’s:

- Name,

- Address, and
- Telephone listing.

Military recruiters may also have access to a student’s district-provided email address, unless a parent has advised the district not to release this information.

However, a parent or eligible student may object to the release of a student’s directory information. This objection must be made in writing to the principal within ten school days of your child’s first day of instruction for this school year. See the “Montgomery ISD Release of Directory Information” included in the forms appendix.

The district requests that families living in a shelter for survivors of family violence or trafficking notify district personnel that the student currently resides in such a shelter. Families may want to opt out of the release of directory information so that the district does not release any information that might reveal the location of such a shelter.

The district has identified the following as directory information:

- Honor roll,
- School newspaper,
- Yearbook,
- Recognition activities,
- News releases, and
- Athletic programs.

If a parent objects to the release of the student’s information included on the directory information response form, this objection also applies to the use of that information for school-sponsored purposes.

Objecting to the Release of Student Information to Military Recruiters and Institutions of Higher Education

The district is required by federal law to comply with a request by a military recruiter or an institution of higher education for students’ names, addresses, and telephone listings, unless parents have advised the district not to release their child’s information without prior written consent. A form has been attached for you to complete if you do not want the district to provide this information to military recruiters or institutions of higher education. See Appendix.

Participation in Third-Party Surveys

Consent Required Before Student Participation in a Federally Funded Survey

The Protection of Pupil Rights Amendment (PPRA) provides parents certain rights regarding participation in surveys, the collection and use of information for marketing purposes, and certain physical exams.

A parent has the right to consent before a student is required to submit to a survey funded by the U.S. Department of Education that concerns any of the following protected areas:

- Political affiliations or beliefs of the student or the student’s parent.
- Mental or psychological problems of the student or the student’s family.
- Sexual behavior or attitudes.
- Illegal, antisocial, self-incriminating, or demeaning behavior.
- Critical appraisals of individuals with whom the student has a close family relationship.
- Relationships privileged under law, such as relationships with lawyers, physicians, and ministers.
- Religious practices, affiliations, or beliefs of the student or parents.
- Income, except when the information is required by law and will be used to determine the student’s eligibility to participate in a special program or to receive financial assistance under such a program.

A parent may inspect the survey or other instrument and any instructional materials used in connection with such a survey, analysis, or evaluation. [For further information, see policy EF(LEGAL).]

“Opting Out” of Participation in Other Types of Surveys or Screenings and the Disclosure of Personal Information

As a parent, you have a right to receive notice of and deny permission for your child’s participation in:

Activities involving the collection, disclosure, or use of personal information gathered from the child for the purpose of marketing, selling, or otherwise disclosing that information to others.

Any nonemergency, invasive physical examination or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of the student.

Exceptions are hearing, vision, or spinal screenings, or any physical examination or screening permitted or required under state law. [See policies EF and FFAA for more information.]

A parent may inspect:

Protected information surveys of students and surveys created by a third party;

Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and

Instructional material used as part of the educational curriculum.

Removing a Student from Instruction or Excusing a Student from a Required Component of Instruction

See *Consent to Human Sexuality Instruction and Consent to Instruction on Prevention of Child Abuse, Family Violence, Dating Violence, and Sex Trafficking* for information on a parent’s right to remove a student from such instruction.

Reciting a Portion of the Declaration of Independence in Grades 3–12

You may request that your child be excused from recitation of a portion of the Declaration of Independence. State law requires students in social studies classes in grades 3–12 to recite a portion of the text of the Declaration of Independence during Celebrate Freedom Week unless (1) you provide a written statement requesting that your child be excused, (2) the district determines that your child has a conscientious objection to the recitation, or (3) you are a representative of a foreign government to whom the U.S. government extends diplomatic immunity. [See policy EHBK(LEGAL).]

Reciting the Pledges to the U.S. and Texas Flags

As a parent, you may request that your child be excused from participation in the daily recitation of the Pledge of Allegiance to the U.S. flag and the Pledge of Allegiance to the Texas flag. The request must be in writing. State law does not allow your child to be excused from participation in the required minute of silence or silent activity that follows. [See **Pledges of Allegiance and a Minute of Silence** and policy EC(LEGAL).]

Religious or Moral Beliefs

You may remove your child temporarily from the classroom if an instructional activity in which your child is scheduled to participate conflicts with your religious or moral beliefs. The removal cannot be for the purpose of avoiding a test and may not extend for an entire semester. The student must also satisfy grade-level and graduation requirements as determined by the school and by state law.

Tutoring or Test Preparation

A teacher may determine that a student needs additional targeted assistance for the student to achieve mastery in state-developed essential knowledge and skills based on:

- Informal observations,
- Evaluative data such as grades earned on assignments or tests, or
- Results from diagnostic assessments.

The school will always attempt to provide tutoring and strategies for test-taking in ways that prevent removal from other instruction as much as possible.

In accordance with state law and policy EC, districts must obtain parental permission before removing a student from a regularly scheduled class for remedial tutoring or test preparation for more than ten percent of the days the class is offered.

Under state law, students with grades below 70 for a reporting period are required to attend tutorial services—if the district offers these services.

[For questions about school-provided tutoring programs, contact the student’s teacher and see policies EC and EHBC.]

Right of Access to Student Records, Curriculum Materials, and District Records/Policies

Instructional Materials

As a parent, you have a right to review teaching materials, textbooks, and other teaching aids and instructional materials used in the curriculum, and to examine tests that have been administered, whether instruction is delivered in-person, virtually, or remotely. The district will provide login credentials to each student's parent for any learning management system or online learning portal used in instruction to facilitate parent access and review.

The district will make instructional materials available for parent review no later than 30 days before the school year begins and for at least 30 days after the school year ends. However, tests that have not yet been administered will not be made available for parent examination.

You are also entitled to request that the school allow your child to take home any instructional materials used by the student. If the school determines that sufficient availability exists to grant the request, the student must return the materials at the beginning of the next school day if requested to do so by the student's teacher.

A school must provide printed versions of electronic instructional materials to a student if the student does not have reliable access to technology at home.

District Review of Instructional Materials

A parent may request that the district conduct an instructional material review in a math, English Language Arts, science, or social studies class in which the parent's student is enrolled to determine alignment with state standards and the level of rigor for the grade level.

The district is not required to conduct an instructional material review for a specific subject area or grade level at a specific campus more than once per school year.

For more information about requesting an instructional material review, contact [the campus principal OR other administrator].

Notices of Certain Student Misconduct to Noncustodial Parent

A noncustodial parent may request in writing that he or she be provided, for the remainder of the school year, a copy of any written notice usually provided to a parent related to his or her child's misconduct that may involve placement in a disciplinary alternative education program (DAEP) or expulsion. [See policy FO(LEGAL) and the Student Code of Conduct.]

Participation in Federally Required, State-Mandated, and District Assessments

You may request information regarding any state or district policy related to your child's participation in assessments required by federal law, state law, or the district.

Student Records

Accessing Student Records

You may review your child's student records. These records include:

- Attendance records,
- Test scores,
- Grades,
- Disciplinary records,
- Counseling records,
- Psychological records,
- Applications for admission,
- Health and immunization information,
- Other medical records,
- Teacher and school counselor evaluations,
- Reports of behavioral patterns,
- Records relating to assistance provided for learning difficulties, including information collected regarding any intervention strategies used with your child, as the term intervention strategy is defined by law,
- State assessment instruments that have been administered to your child, and
- Teaching materials and tests used in your child's classroom.

Authorized Inspection and Use of Student Records

A federal law, known as the Family Educational Rights and Privacy Act, or FERPA, affords parents and eligible students certain rights with respect to student education records. For purposes of student records, an "eligible" student is one who is age 18 or older or who is attending an institution of postsecondary education. These rights, as discussed in this section as well as at **Objecting to the Release of Directory Information**, are:

- The right to inspect and review student records within 45 days after the day the school receives a request for access.
- The right to request an amendment to a student record the parent or eligible student believes is inaccurate, misleading, or otherwise in violation of FERPA.
- The right to provide written consent before the school discloses personally identifiable information from the student's records, except to the extent that FERPA authorizes disclosure without consent.
- File a complaint (<https://studentprivacy.ed.gov/file-a-complaint>) with the U.S. Department of Education concerning failures by the school to comply with FERPA requirements.

Both FERPA and state laws safeguard student records from unauthorized inspection or use and provide parents and eligible students certain rights of privacy. Before disclosing any personally identifiable information from a student's records, the district must verify the identity of the person, including a parent or the student, requesting the information.

Virtually all information pertaining to student performance, including grades, test results, and disciplinary records, is considered confidential educational records.

Inspection and release of student records is primarily restricted to an eligible student or a student's parents—whether married, separated, or divorced—unless the school is given a copy of a court order terminating parental rights or the right to access a student's education records. A parent's rights regarding access to student records are not affected by the parent's marital status.

Federal law requires that, as soon as a student reaches the age of 18, is emancipated by a court, or enrolls in a postsecondary institution, control of the records goes to the student. The parents may continue to have access to the records, however, if the student is a dependent for tax purposes and under limited circumstances when there is a threat to the health and safety of the student or other individuals.

FERPA permits the disclosure of personally identifiable information from a student's education records without written consent of the parent or eligible student:

- When district officials have what federal law refers to as a “legitimate educational interest” in a student's records. School officials would include:
 - Board members and employees, such as the superintendent, administrators, and principals;
 - Teachers, school counselors, diagnosticians, and support staff (including district health or medical staff);
 - A person or company with whom the district has contracted or allowed to provide a specific institutional service or function (such as an attorney, consultant, third-party vendor that offers online programs or software, auditor, medical consultant, therapist, school resource officer, or volunteer);
 - A person appointed to serve on a school committee to support the district's safe and supportive school program;
 - A parent or student serving on a school committee; or
 - A parent or student assisting a school official in the performance of his or her duties.

“Legitimate educational interest” in a student's records includes working with the student; considering disciplinary or academic actions, the student's case, or an individualized education program for a student with disabilities; compiling statistical data; reviewing an educational record to fulfill the official's professional responsibility to the school and the student; or investigating or evaluating programs.

- To authorized representatives of various governmental agencies, including juvenile service providers, the U.S. Comptroller General's office, the U.S. Attorney General's office, the U.S. Secretary of Education, TEA, the U.S. Secretary of Agriculture's office, and Child Protective Services (CPS) caseworkers or other child welfare representatives, in certain cases.
- To individuals or entities granted access in response to a subpoena or court order.
- To another school, school district/system, or institution of postsecondary education to which a student seeks or intends to enroll or in which he or she is already enrolled.

- In connection with financial aid for which a student has applied or which the student has received.
- To accrediting organizations to carry out accrediting functions.
- To organizations conducting studies for, or on behalf of, the school, in order to develop, validate, or administer predictive tests; administer student aid programs; or improve instruction.
- To appropriate officials in connection with a health or safety emergency.
- When the district discloses information it has designated as directory information [see **Objecting to the Release of Directory Information** for opportunities to prohibit this disclosure].

Release of personally identifiable information to any other person or agency—such as a prospective employer or for a scholarship application—will occur only with parental or student permission as appropriate.

The superintendent is custodian of all records for currently enrolled students at the assigned school. The superintendent is the custodian of all records for students who have withdrawn or graduated.

A parent or eligible student who wishes to inspect the student’s records should submit a written request to the records custodian identifying the records he or she wishes to inspect. Records may be inspected by a parent or eligible student during regular school hours. The records custodian or designee will respond to reasonable requests for explanation and interpretation of the records.

A parent or eligible student who provides a written request may obtain copies for a nominal fee. If circumstances prevent inspection during regular school hours and the student qualifies for free or reduced-price meals, the district will either provide a copy of the records requested or make other arrangements for the parent or student to review these records.

A parent (or eligible student) may inspect the student’s records and request a correction or amendment if the records are considered inaccurate, misleading, or otherwise in violation of the student’s privacy rights. A request to correct a student’s record should be submitted to the appropriate custodian of records. The request must clearly identify the part of the record that should be corrected and include an explanation of how the information in the record is inaccurate. If the district denies the request to amend the records, the parent or eligible student has the right to request a hearing. If the records are not amended as a result of the hearing, the parent or eligible student has 30 school days to exercise the right to place a statement commenting on the information in the student’s record.

Although improperly recorded grades may be challenged, contesting a student’s grade in a course or on an examination is handled through the general complaint process found in policy FNG(LOCAL). A grade issued by a classroom teacher can be changed only if, the board of trustees determines that the grade is arbitrary, erroneous, or inconsistent with the district’s grading policy. [See FINALITY OF GRADES at FNG(LEGAL), **Report Cards/Progress Reports and Conferences**, and **Complaints and Concerns** for an overview of the process.]

The district’s policy regarding student records found at policy FL is available from the principal’s or superintendent’s office or on the district’s website at www.misd.org.

The parent's or eligible student's right of access to and copies of student records do not extend to all records. Materials that are not considered educational records—such as a teacher's personal notes about a student that are shared only with a substitute teacher—do not have to be made available to the parents or student.

Teacher and Staff Professional Qualifications

You may request information regarding the professional qualifications of your child's teachers, including whether a teacher has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction; whether the teacher has an emergency permit or other provisional status for which state requirements have been waived; and whether the teacher is currently teaching in the field of discipline of his or her certification. You also have the right to request information about the qualifications of any paraprofessional who may provide services to your child.

Students with Exceptionalities or Special Circumstances

Children of Military Families

Children of military families will be provided flexibility regarding certain district requirements, including:

- Immunization requirements.
- Grade level, course, or educational program placement.
- Eligibility requirements for participation in extracurricular activities.
- Graduation requirements.

In addition, absences related to a student visiting with his or her parent, including a stepparent or legal guardian, who has been called to active duty for, is on leave from, or is returning from a deployment of at least four months will be excused by the district. The district will permit no more than five excused absences per year for this purpose. For the absence to be excused, the absence must occur no earlier than the 60th day before deployment or no later than the 30th day after the parent's return from deployment.

Additional information may be found at [Military Family Resources at the Texas Education Agency](#).

Parental Role in Certain Classroom and School Assignments

Multiple Birth Siblings

As a parent, if your children are multiple birth siblings (e.g., twins, triplets, etc.) assigned to the same grade and campus, you may request that they be placed either in the same classroom or in separate classrooms. Your written request must be submitted no later than the 14th day after the enrollment of your children. [See policy FDB(LEGAL).]

Safety Transfers/Assignments

As a parent, you may:

- Request the transfer of your child to another classroom or campus if your child has been determined by the district to have been a victim of bullying, which includes cyberbullying, as defined by Education Code 37.0832. Transportation is not provided for a transfer to another campus. See the principal for information.

- Consult with district administrators if your child has been determined by the district to have engaged in bullying and the board decides to transfer your child to another classroom or campus. Transportation is not provided for a transfer to another campus.

[See **Bullying**, policy FDB, and policy FFI.]

- Request the transfer of your child to attend a safe public school in the district if your child attends school at a campus identified by TEA as persistently dangerous or if your child has been a victim of a violent criminal offense while at school or on school grounds. [See policy FDE.]
- Request the transfer of your child to another district campus or a neighboring district if your child has been the victim of a sexual assault by another student assigned to the same campus, whether the assault occurred on or off campus, and that student has been convicted of or placed on deferred adjudication for that assault. If the victim does not wish to transfer, the district will transfer the assailant in accordance with policy FDE.

Service/Assistance Animal Use by Students

A parent of a student who uses a service/assistance animal because of the student’s disability must submit a request in writing to the principal before bringing the service/assistance animal on campus. The district will try to accommodate a request as soon as possible but will do so within ten district business days.

Students in the Conservatorship of the State (Foster Care)

In an effort to provide educational stability, the district will provide enrollment and registration assistance, as well as other educational services throughout the student’s enrollment, to any student who is currently placed or newly placed in foster care (temporary or permanent custody of the state, sometimes referred to as substitute care).

A student in the conservatorship (custody) of the state who enrolls in the district after the beginning of the school year will be allowed credit-by-examination opportunities at any point during the year.

The district will assess the student’s available records to determine transfer of credit for subjects and courses taken before the student’s enrollment in the district.

The district will award partial course credit when the student only passes one half of a two-half course. For provisions on partial course credit for students who are not in the conservatorship of the state, see EI(LOCAL).

A student in the conservatorship of the state who is moved outside the district’s or school’s attendance boundaries—or who is initially placed in the conservatorship of the state and moved outside the district’s or school’s boundaries—is entitled to remain at the school the student was attending prior to the placement or move until the student reaches the highest grade level at that particular school.

If a student in grade 11 or 12 transfers to another district but does not meet the graduation requirements of the receiving district, the student can request a diploma from the previous district if the student meets its graduation criteria.

For a student in the conservatorship of the state who is eligible for a tuition and fee exemption under state law and likely to be in care on the day preceding the student's 18th birthday, the district will:

- Assist the student with the completion of any applications for admission or for financial aid;
- Arrange and accompany the student on campus visits;
- Assist in researching and applying for private or institution-sponsored scholarships;
- Identify whether the student is a candidate for appointment to a military academy;
- Assist the student in registering and preparing for college entrance examinations, including, subject to the availability of funds, arranging for the payment of any examination fees by the Texas Department of Family and Protective Services (DFPS); and
- Coordinate contact between the student and a liaison officer for students who were formerly in the conservatorship of the state.

[See also **Course Credit**, and **Students in Foster Care** for more information.]

A Student Who is Homeless

Children who are homeless will be provided flexibility regarding certain district provisions, including:

- Proof of residency requirements;
- Immunization requirements;
- Educational program placement, if the student is unable to provide previous academic records, or misses an application deadline during a period of homelessness;
- Credit-by-examination opportunities;
- Assessment of the student's available records to determine transfer of credit for subjects and courses taken before the student's enrollment in the district;
- The award of partial credit (awarding credit proportionately when a student passes only one semester of a two-semester course);
- Eligibility requirements for participation in extracurricular activities; and
- Graduation requirements.

Federal law allows a student who is homeless to remain enrolled in the "school of origin" or to enroll in a new school in the attendance area where the student is currently residing.

If a student who is homeless in grade 11 or 12 transfers to another district but does not meet the graduation requirements of the receiving district, state law allows the student to request a diploma from the previous district if the student meets the criteria to graduate from the previous district.

A student or parent who is dissatisfied by the district's eligibility, school selection, or enrollment decision may appeal through policy FNG(LOCAL). The district will expedite local timelines, when possible, for prompt dispute resolution.

For more information on services for students who are homeless, contact the district's homeless education liaison:

Students Who Have Learning Difficulties or Who Need Special Education or Section 504 Services

For those students who are having difficulty in the regular classroom, all school districts must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (RtI). The implementation of RtI has the potential to have a positive impact on the ability of districts to meet the needs of all struggling students.

If a student is experiencing learning difficulties, his or her parent may contact the individuals listed below to learn about the school's overall general education referral process for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine whether the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

Special Education Referrals

If a parent makes a written request for an initial evaluation for special education services to the director of special education services or to a district administrative employee of the school district, the district must respond no later than 15 school days after receiving the request. At that time, the district must give the parent prior written notice of whether it agrees or refuses to evaluate the student, along with a copy of the *Notice of Procedural Safeguards*. If the district agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.

If the district decides to evaluate the student, it must complete the student's initial evaluation and evaluation report within 45 school days from the day it receives a parent's written consent. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period may be extended by the number of school days equal to the number of school days that the student is absent.

There is an exception to the 45-school-day timeline. If the district receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30 due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.

Upon completing the evaluation, the district must give the parent a copy of the evaluation report at no cost.

Additional information regarding special education is available from the school district in a companion document titled *Parent's Guide to the Admission, Review, and Dismissal Process*.

Contact Person for Special Education Referrals

The designated person to contact regarding options for a student experiencing learning difficulties or regarding a referral for evaluation for special education services is Kerri Clark at 936-276-2460.

For questions regarding post-secondary transitions, including the transition from education to employment, for students receiving special education services, contact the district's transition and employment designee: Kerri Clark at 936-276-2460.

Additional information about Special Education Referrals can be found at this link:

<http://www.misd.org/upload/page/0212/docs/SB%20139%20Child%20Find%20Update1.pdf>

Section 504 Referrals

Each school district must have standards and procedures in place for the evaluation and placement of students in the district's Section 504 program. Districts must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.

Contact Person for Section 504 Referrals

The designated person to contact regarding options for a student experiencing learning difficulties or regarding a referral for evaluation for Section 504 services is Alayna Siemonsma at Alayna.siemonsma@misd.org.

Notification to Parent of Intervention Strategies for Learning Difficulties Provided to Student in General Education

The district will annually notify parents that it provides assistance to students, other than those already enrolled in a special education program, who need assistance for learning difficulties, including intervention strategies

Students Who Receive Special Education Services with Other School-Aged Children in the Home

If a student is receiving special education services at a campus outside his or her attendance zone, the parent or guardian may request that any other student residing in the household be transferred to the same campus, if the appropriate grade level for the transferring student is offered on that campus. However, the district is not required to provide transportation to the other children in the household. The parent or guardian should speak with the principal of the school regarding transportation needs prior to requesting a transfer for any other children in the home. [See policy FDB(LOCAL).]

Students Who Speak a Primary Language Other than English

A student may be eligible to receive specialized support if his or her primary language is not English, and the student has difficulty performing ordinary class work in English. If the student qualifies for these extra services, the Language Proficiency Assessment Committee (LPAC) will determine the types of services the student needs, including accommodations or modifications related to classroom instruction, local assessments, and state-mandated assessments.

Students with Physical or Mental Impairments Protected Under Section 504

A student determined to have a physical or mental impairment that substantially limits a major life activity, as defined by law, and who does not otherwise qualify for special education services, may qualify for protections under Section 504 of the Rehabilitation Act. Section 504 is a federal law designed to prohibit discrimination against individuals with disabilities. When an evaluation is requested, a committee will be formed to determine if the student is in need of services and supports under Section 504 to receive a free appropriate public education (FAPE), as this is defined in federal law. [See policy FB.]

Section II: Other Important Information for Students and Parents

Topics in this section of the Student Handbook contain important information on academics, school activities, and school operations and requirements. Take a moment with your child to become familiar with the various issues addressed in this section. It is organized in alphabetical order to serve as a quick-reference when you or your child has a question about a specific school-related issue. For guidance on a particular topic, please contact the principal.

Absences/Attendance

There is a direct relationship between regular attendance and academic success. Students with good attendance records generally achieve better grades, enjoy school more and are more employable after high school than those with poor attendance records. All students are expected to attend school regularly and to be on time to classes in order to derive maximum benefit from the instructional program and to develop habits of punctuality, self-discipline and responsibility. Two state laws—one dealing with the required presence of school-aged children in school, e.g., compulsory attendance, the other with how a student’s attendance affects the award of a student’s final grade or course credit—are of special interest to students and parents.

Compulsory Attendance

Students enrolled in prekindergarten or kindergarten are required to attend school and are subject to the compulsory attendance requirements as long as they remain enrolled.

State law requires that a student between the ages of 6 and 19 attend school, as well as any applicable accelerated instruction program, extended year program, or tutorial session, unless the student is otherwise excused from attendance or legally exempt.

A student will be required to attend any assigned accelerated instruction program, which may occur before or after school or during the summer, if the student does not meet the passing standards on an applicable subject area state assessment.

A student who voluntarily attends or enrolls after his or her 19th birthday is required to attend each school day until the end of the school year. If a student age 19 or older has more than five unexcused absences in a semester, the district may revoke the student’s enrollment. The student’s presence on school property thereafter would be unauthorized and may be considered trespassing. [See policy FEA.]

Exemptions to Compulsory Attendance

State law allows exemptions to the compulsory attendance requirements for several types of absences if the student makes up all work. These include the following activities and events:

- Religious holy days;
- Required court appearances;
- Appearing at government offices to obtain U.S. citizenship;
- Taking part in a US naturalization oath ceremony

- Serving as an election clerk
- Health-care appointments for the student or a child of the student, including absences for recognized services for students diagnosed with autism spectrum disorders. A note from the health-care provider must be submitted upon the student’s arrival or return to campus; and
- Absences resulting from a serious or life-threatening illness or related treatment that makes a student’s attendance infeasible, with certification by a physician;
- For students in the conservatorship (custody) of the state,
 - An activity required under a court-ordered service plan; or
 - Any other court-ordered activity, provided it is not practicable to schedule the student’s participation in the activity outside of school hours.

As listed in Section I at **Children of Military Families**, absences of up to five days will be excused for a student to visit with a parent, stepparent, or legal guardian who has been called to duty for, is on leave from, or immediately returned from certain deployments.

Note that documented health-care appointments may include telehealth appointments. Students who are physically on campus will not be allowed to participate in telehealth or other online appointments without specific authorization from an appropriate administrator. Students should not use district-issued technology, including wifi or internet, for telehealth appointments because use of district-owned equipment and its network systems is not private and will be monitored by the district. For more information, see Telecommunication and Other Electronic Devices.

Secondary Grade Levels

The district will allow a student who is 15 years of age or older to be absent for one day to obtain a learner license and one day to obtain a driver’s license, provided that the board has authorized such excused absences under policy FEA(LOCAL). The student will be required to provide documentation of his or her visit to the driver’s license office for each absence and must make up any work missed.

In addition, a junior or senior student’s absence of up to two days related to visiting a college or university will be considered an exemption, provided this has been authorized by the board under policy FEA(LOCAL), the student receives approval from the campus principal, follows the campus procedures to verify such a visit, and makes up any work missed.

An absence will also be considered an exemption if a student 17 years of age or older is pursuing enlistment in a branch of the U.S. armed services or Texas National Guard, provided the absence does not exceed four days during the period the student is enrolled in high school and the student provides verification to the district of these activities.

The district will allow a student to be absent for up to two days during the student’s junior year and two days during the student’s senior year for a career investigation day to visit a professional at that individual’s

workplace to determine the student's interest in pursuing a career in the professional's field, provided the student verifies these activities to the district.

Absences of up to two days in a school year will also be considered an exemption for a student serving as:

- An early voting clerk, provided the district's board has authorized this in policy FEA(LOCAL), the student notifies his or her teachers, and the student receives approval from the principal prior to the absences; and
- An election clerk, if the student makes up any work missed.

An absence of a student in grades 6–12 for the purpose of sounding "Taps" at a military honors funeral for a deceased veteran will also be excused by the district.

Failure to Comply with Compulsory Attendance

School employees must investigate and report violations of the state compulsory attendance law. A student absent without permission from school; from any class; from required special programs, such as additional special instruction, termed "accelerated instruction" by the state; or from required tutorials will be considered in violation of the compulsory attendance law and subject to disciplinary action.

Students with Disabilities

If a student with a disability is experiencing attendance issues, the student's ARD committee or Section 504 committee will be notified, and the committee will determine whether the attendance issues warrant an evaluation, a re-evaluation, and/or modifications to the student's individualized education program or Section 504 plan, as appropriate.

Age 19 and Older

After a student age 19 or older incurs a third unexcused absence, the district will send the student a letter as required by law explaining that the district may revoke the student's enrollment for the remainder of the school year if the student has more than five unexcused absences in a semester. As an alternative to revoking a student's enrollment, the district may implement a behavior improvement plan.

Between Ages 6 and 19

When a student between ages 6 and 19 incurs unexcused absences for three or more days or parts of days within a four-week period, the school will send a notice to the student's parent, as required by law, to remind the parent that it is the parent's duty to monitor the student's attendance and to require the student to come to school. The notice will also inform the parent that the district will initiate truancy prevention measures and request a conference between school administrators and the parent. These measures will include a behavior improvement plan, school-based community service, or referrals to either in-school or out-of-school counseling or other social services. Any other measures considered appropriate by the district will also be initiated.

The truancy prevention facilitator for the district is the principal. If you have questions about your student and the effect of his or her absences from school, please contact the facilitator or any other campus administrator.

A court of law may also impose penalties against a student's parent if a school-aged student is deliberately not attending school. A complaint against the parent may be filed in court if the student is absent without excuse from school on ten or more days or parts of days within a six-month period in the same school year.

If a student ages 12–18 incurs unexcused absences on ten or more days or parts of days within a six-month period in the same school year, the district, in most circumstances, will refer the student to truancy court.

[See policy FEA (LEGAL).]

Extenuating circumstances will be reviewed by the principal. **A student shall be excused for a temporary absence due to a medical appointment providing the student is in attendance part of that school day. If a student provides medical documentation and makes up work missed, the absence will not be counted against the student's attendance record.** Absences for an entire day for a doctor's appointment will be treated as an excused absence.

Attendance for Credit

In order to receive credit in a class or final grade, students in kindergarten-grade 12 must be in attendance **at least 90%** of the time the class is offered. **State law makes distinction between an excused absence and an unexcused absence in determining the attendance requirement.** Students who are in attendance fewer than 90% of the time in a semester shall not receive credit for the class unless the attendance committee finds that the absences are the result of extenuating circumstances. **A Texas Education Agency Verification of Enrollment and Attendance Certificate (the documentation necessary for a driver's license) will not be issued for students who do not meet minimum attendance requirements, unless a student appeals to the Administrative/Attendance Review Committee and the student meets the remediation plan.**

Verification of Enrollment requests are made through the registrar's office. For students who are denied credit; a VOE form will be issued only when the student appeals for credit and successfully fulfills the attendance recovery options.

Students exceeding 8 absences in any class first semester or 9 absences in any class second semester will be denied credit in those classes based on state law. (8 or more absences in the first semester or 9 or more in the second semester, results in less than 90% attendance.)

A student who attends fewer than 90 percent of the days the class is offered may be referred to the attendance review committee to determine whether there are extenuating circumstances for the absences and how the student can regain credit or a final grade. To receive credit in a class, a student must attend at least 90 percent of the time the class is offered. A student who attends fewer than 90 percent of the time the class is offered will

not receive credit for the class unless they schedule an appeal before the Administration/Attendance Review Committee and they determine that the absences are the result of extenuating circumstances, such as:

1. An extracurricular activity or public performance, subject to approval by the District's Board of Trustees.
2. Required screening, diagnosis, and treatment for Medicaid-eligible students.
3. A documented health care appointment – **if the student begins classes or returns to school on the same day as the appointment and makes up all assignments. A note from the health-care provider must be submitted upon the student's return to campus.**
4. A temporary absence resulting from any cause acceptable to the principal or superintendent, including personal illness; or illness or death in the immediate family.
5. A court proceeding documented by a court official.
6. An absence required by state or local welfare authorities.
7. Family emergency or unforeseen or unavoidable instance requiring immediate attention.
8. Approved and Documented college visitations. (2 for juniors, 2 for seniors)
9. Religious holiday, religious observance.
10. Student participating in playing TAPS for military honors at a funeral in Texas, autism services, citizenship.
11. Approved absences based on school nurse intervention.

Note: All of the above, except #1, #3, #5, #8, #9, & #10 still count as absences.

Certification of Absence Due to Severe Illness or Treatment

If a student is absent because of a serious or life-threatening illness or related treatment that makes a student's attendance infeasible, a parent must provide certification from a physician licensed to practice in Texas specifying the student's illness and the anticipated period of absence related to the illness or treatment.

If the appeal to the Administration/Attendance Review Committee determines that there have been extenuating circumstances, credit may be regained. If the Administration/Attendance Review Committee determines, however, that there are no extenuating circumstances, they will determine the amount of remediation needed to regain credit.

Any student of any religion will be considered in attendance for the purpose of observing a documented religious holiday consistent with his/her creed or belief. The school must be notified in writing.

In determining whether there were extenuating circumstances for the absences, the attendance committee will use the following guidelines:

- All absences will be considered in determining whether a student has attended the required percentage of days.
- In reaching consensus about a student's absences, the committee will attempt to ensure that its decision is in the best interest of the student.
- If the student is granted the opportunity to receive credit, or a remediation plan is granted by the committee, the student must comply with the policy on or before the deadline or credit will be denied.
- The committee will determine whether the student has mastered the essential knowledge and skills and maintained passing grades in the course or subject.

The student or parent may appeal the committee's decision to the district's board by following policy FNG (LOCAL).

Official Attendance-Taking Time

The district must submit attendance of its students to Texas Education Agency (TEA) reflecting attendance at a specific time each day. Official attendance is taken every day at 9:15 a.m. A student absent for any portion of the day, including at the official attendance-taking time, should follow the procedures below.

Regarding absences:

A phone call or email is required from a parent or guardian each day your child is absent. A written note/documentation is required **within five days from your student's return**. When a student must be absent from school, the student—upon arrival or return to school—must bring a note, signed by the parent that describes the reason for the absence. A note signed by the student, even with the parent's permission, will not be accepted. If a note is not supplied within five school days from your student's return to school, the absence will be considered unexcused. For absences of five (5) days or more, a note from a doctor is required. A letter will be sent to the parent or guardian within five school days after the student's 5th total absences or parts of days.

Absences are not to be viewed as days a student is entitled to take but are to be used in extenuating circumstances.

Students who have been absent for any reason are given the opportunity to make up the work they missed. Failure to make up work will result in academic penalties. **If a student is unable to attend classes due to illness, his/her parent can request assignments only if the student will miss three (3) consecutive class meetings by contacting the Counseling Office; for shorter absences, the student should consult their teacher.** The student, parent/guardian, principal, counselor and teachers are notified that the maximum number of absences has been reached and that credit may not be awarded.

REGARDING EXTRACURRICULAR ABSENCES – Eligible students may miss up to ten (10) times during the school year for participation in a school-sponsored activity. Students who are involved in two or more activities will be allowed an additional two absences per activity. Specific information will be provided by the sponsor, director or coach. These days are not counted as absences when determining attendance.

REGARDING MEDICAL, DENTAL OR LEGAL/COURT APPOINTMENTS – Students are urged to make such appointments at times outside the school day. When that is not possible, students should bring to the office a written request from a parent/guardian **before 7:30 a.m.** If returning the same day, students should report to the attendance clerk for an admit slip. Students who leave on a forged note will be subject to disciplinary action.

Students must be in attendance at least half a day prior to participation or departure for participation in any school-sponsored activity or practice that day or the following day. An exception to the half-day attendance policy may be made if a student presents a doctor's note verifying that he/she was in the office for medical treatment.

Driver License Attendance Verification

A currently enrolled student seeking a driver's license shall submit the Texas Department of Public Safety Verification of Enrollment and Attendance Form (VOE), signed by the parent, to the campus central office at least 10 days before it is needed. The district will issue a VOE only if the student meets class credit or attendance requirements. The VOE form (<https://www.tdlr.texas.gov/driver/forms/VOE.pdf>) is available online.

Further information may be found on the Texas Department of Public Safety website (<https://www.dps.texas.gov/section/driver-license/how-apply-texas-driver-license-teen>).

See **Compulsory Attendance—Exemptions for Secondary Grade Levels** for information on excused absences for obtaining a learner license or driver's license.

Accountability under State and Federal Law

Montgomery ISD and each of its campuses are held to certain standards of accountability under state and federal law. A key component of the accountability requirements is the dissemination and publication of certain reports and information, which include:

- The Texas Academic Performance Report (TAPR) for the district, compiled by TEA, the state agency that oversees public education, based on academic factors and ratings;
- A School Report Card (SRC) for each campus in the district compiled by TEA based on academic factors and ratings;
- The district's financial management report, which will include the financial accountability rating assigned to the district by TEA;
- Information compiled by TEA for the submission of a federal report card that is required by federal law.

This information can be found on the district's website at www.misd.org. Hard copies of any reports are available upon request to the district's administration office.

TEA also maintains additional accountability and accreditation information at [TEA Performance Reporting Division](#) and the [TEA homepage](#).

Bullying

The district strives to prevent bullying, in accordance with the district's policies, by promoting a school culture; building healthy relationships between students and staff; encouraging reporting of bullying incidents, including anonymous reporting; and investigating and addressing reported bullying incidents.

Bullying is defined in state law as a single significant act or a pattern of acts by one or more students directed at another student that exploits an imbalance of power and involves engaging in written or verbal expression, expression through electronic means, or physical conduct that:

- Has the effect or will have the effect of physically harming a student, damaging a student's property, or placing a student in reasonable fear of harm to the student's person or of damage to the student's property;
- Is sufficiently severe, persistent, or pervasive enough that the action or threat creates an intimidating, threatening, or abusive educational environment for a student;

- Materially and substantially disrupts the educational process or the orderly operation of a classroom or school; or
- Infringes on the rights of the victim at school.

Bullying includes cyberbullying. Cyberbullying is defined by state law as bullying that is done through the use of any electronic communication device, including using any cellular or other type of telephone, a computer, a camera, electronic mail, instant messaging, text messaging, a social media application, an Internet website, or any other Internet-based communication tool.

The district is required to adopt policies and procedures regarding:

- Bullying that occurs on or is delivered to school property or to the site of a school-sponsored or school-related activity on or off school property;
- Bullying that occurs on a publicly or privately owned school bus or vehicle being used for transportation of students to or from school or a school-sponsored or school-related activity; and
- Cyberbullying that occurs off school property or outside of a school-sponsored or school-related activity if the cyberbullying interferes with a student’s educational opportunities or substantially disrupts the orderly operation of a classroom, school, or school-sponsored or school-related activity.

Bullying is prohibited by the district and could include hazing, threats, taunting, teasing, confinement, assault, demands for money, destruction of property, theft of valued possessions, name-calling, rumor-spreading, or ostracism.

The district will integrate into instruction research-based content designed to reduce bullying that is appropriate for students’ age groups.

Students in elementary grades will participate in:

- Instruction designed so that students can recognize bullying behaviors and how to report them
- Age-appropriate discussions that encourage peers to intervene when they observe bullying occur
- Instruction that characterizes bullying as a behavior that results from the student’s need to acquire more mature social or coping skills, not an unchangeable trait

Students in secondary grades will participate in:

- Instruction on the brain’s ability to change and grow so the student recognizes bullying behavior can come from a developmental need to acquire more social skills, can change when the brain matures and learns better ways of coping, and is not an unchangeable trait
- Discussions that portray bullying as undesirable behavior and a means for attaining or maintaining social status at school, and that discourage students from using bullying as a tool for social status
- Instruction designed so that students recognize the role that reporting bullying behaviors plays in promoting a safe school community

The district will use an age-appropriate survey regarding school culture that includes relevant questions on bullying to identify and address student concerns.

Each campus has a committee that addresses bullying by focusing on prevention efforts and health and wellness initiatives. The committee will include parents and secondary students. For more information on this committee, including interest in serving on the committee, contact

If a student believes that he or she has experienced bullying or has witnessed bullying of another student, it is important for the student or parent to notify a teacher, school counselor, principal, or another district employee as soon as possible to obtain assistance and intervention. The administration will investigate any allegations of bullying or other related misconduct. The district will also provide notice to the parent of the alleged victim and the parent of the student alleged to have engaged in bullying. A student may anonymously report an alleged incident of bullying by visiting Let's Talk on the MISD website.

(<https://www.k12insight.com/Lets-Talk/embed.aspx?k=WT8Y7BLT>).

If the results of an investigation indicate that bullying has occurred, the administration will take appropriate disciplinary action and may notify law enforcement in certain circumstances. Disciplinary or other action may be taken even if the conduct did not rise to the level of bullying. The district will provide research-based interventions, which may include counseling options, for students who engage in bullying behaviors, students who are targeted by bullying behaviors, and any student who witnessed bullying behaviors. Any action taken in response to bullying will comply with state and federal law regarding students with disabilities.

Any retaliation against a student who reports an incident of bullying is prohibited.

Upon the recommendation of the administration, the board may, in response to an identified case of bullying, decide to transfer a student found to have engaged in bullying to another classroom at the campus. In consultation with the student's parent, the student may also be transferred to another campus in the district. The parent of a student who has been determined by the district to be a victim of bullying may request that the student be transferred to another classroom or campus within the district. [See **Safety Transfers/Assignments**]

A copy of the district's policy is available in the principal's office, superintendent's office, and on the district's website, and is included at the end of this handbook in the form of an appendix. Procedures related to reporting allegations of bullying may also be found on the district's website.

A student or parent who is dissatisfied with the outcome of an investigation may appeal through policy FNG(LOCAL).

The district may share information such as a student's name and eligibility status to help enroll eligible children in Medicaid or the state children's health insurance program (CHIP) unless the student's parent requests the student's information not be disclosed.

Participating students will be offered the same meal options as their peers and will not be treated differently from their peers.

If you consent to receive such information through a landline or wireless phone, please ensure that you notify the school's administration office immediately upon a change in or disconnection of your phone number.

See **Change of Address** form in Appendix.

Cheating/Plagiarism/Academic Dishonesty

Montgomery ISD expects its students to maintain the highest degree of academic ethics. This means putting the utmost effort into all class work and assignments and avoiding the ethical pitfalls of plagiarism and cheating.

Plagiarism Rationale: Plagiarism demonstrates a lack of integrity and character that is inconsistent with the goals and values of MISD. Plagiarism interferes with the assessment and feedback process that is necessary in order to promote academic growth. Plagiarism may prevent further instruction in areas of weakness and delay the student in reaching his or her potential.

Plagiarism includes, but is not limited to:

- Taking someone else's assignments or portion of an assignment and submitting it as your own
- Submitting material written by someone else or rephrasing the ideas of another without giving the author's name or source
- Presenting the work of tutors, parents, siblings, or friends as your own

Cheating Rationale: Cheating demonstrates a lack of integrity and character that is inconsistent with the goals and values of MISD. Education is based on learning specific skills, forming lifelong work habits, and developing mature coping skills according to each student's unique abilities. Students are expected to produce their own work except on projects designated by the teacher as cooperative efforts. If a student is in doubt about the ethical standards applicable to a particular situation, then the student is responsible for clarifying the matter with the teacher.

Cheating includes, but is not limited to:

- Copying, text messaging, faxing, e-mailing, or in any way duplicating assignments that are turned in wholly or in part, as original work
- Giving or receiving answers during tests or quizzes
- Taking credit for group work when you have not contributed an equal or appropriate share toward the final result
- Accessing a test or quiz for the purpose of determining the questions in advance of its administration

If your child is caught cheating and you are called, please remember that this is a learning experience. Please help your child to accept the consequences for his/her inappropriate actions.

Consequences of Plagiarism/Cheating

Any student who is caught cheating or plagiarizing shall receive a grade of "zero" for the academic work involved, and the parent(s) of the student(s) will be notified. When work is copied from another student, and both students are complicit in the copying, both students shall be penalized with a grade of "zero". Grades of "zero" which are the result of any form of academic dishonesty are irrevocable. The students shall receive a "U" for citizenship during the appropriate grading period and campus administration will be notified. Subsequent offenses will be assigned according to the MISD Student Code of Conduct.

Child Sexual Abuse, Sex Trafficking and Other Maltreatment of Children

The district has established a plan for addressing child sexual abuse, sex trafficking, and other maltreatment of children, which may be accessed at www.misd.org on each campus counseling website under the resources tab. Trafficking includes both sex and labor trafficking.

Warning Signs of Sexual Abuse

As a parent, it is important for you to be aware of warning signs that could indicate a child may have been or is being sexually abused. Sexual abuse in the Texas Family Code is defined as any sexual conduct harmful to a child's mental, emotional, or physical welfare as well as a failure to make a reasonable effort to prevent sexual conduct with a child. A person who compels or encourages a child to engage in sexual conduct commits abuse. It is illegal to make or possess child pornography or to display such material to a child.

Possible physical, behavioral, and emotional warning signs of sexual abuse include:

- Difficulty sitting or walking;
- Pain in the genital areas;
- Claims of stomachaches and headaches;
- Verbal references or pretend games of sexual activity between adults and children;
- Fear of being alone with adults of a particular gender;
- Sexually suggestive behavior;
- Withdrawal;
- Depression;
- Sleeping and eating disorders; and
- Problems in school.

Be aware that children and adolescents who have experienced dating violence may show similar physical, behavioral, and emotional warning signs. [See **Dating Violence, Discrimination, Harassment, and Retaliation** and **Consent to Instruction on Prevention of Child Abuse, Family Violence, Dating Violence, and Sex Trafficking**]

Warning Signs of Trafficking

Child trafficking of any sort is prohibited by the Penal Code. Sex trafficking involves forcing a person, including a child, into sexual abuse, assault, indecency, prostitution, or pornography. Labor trafficking involves forcing a person, including a child, to engage in forced labor or services.

Traffickers are often trusted members of a child's community, such as friends, romantic partners, family members, mentors, and coaches, although traffickers frequently make contact with victims online.

Possible warning signs of sexual trafficking in children include:

- Changes in school attendance, habits, friend groups, vocabulary, demeanor, and attitude;

- Sudden appearance of expensive items (for example, manicures, designer clothes, purses, technology);
- Tattoos or branding;
- Refillable gift cards;
- Frequent runaway episodes;
- Multiple phones or social media accounts;
- Provocative pictures posted online or stored on the phone;
- Unexplained injuries;
- Isolation from family, friends, and community; and
- Older romantic partners.

Additional warning signs of labor trafficking in children include:

- Being unpaid, paid very little, or paid only through tips;
- Being employed but not having a school-authorized work permit;
- Being employed and having a work permit but clearly working outside the permitted hours for students;
- Owing a large debt and being unable to pay it off;
- Not being allowed breaks at work or being subjected to excessively long work hours;
- Being overly concerned with pleasing an employer and/or deferring personal or educational decisions to a boss;
- Not being in control of his or her own money;
- Living with an employer or having an employer listed as a student’s caregiver; and
- A desire to quit a job but not being allowed to do so (See **Consent to Instruction on Prevention of Child Abuse, Family Violence, Dating Violence, and Sex Trafficking**).

Reporting and Responding to Sexual Abuse, Sex Trafficking, and Other Maltreatment of Children

Anyone who suspects that a child has been or may be abused, sex trafficked, or neglected has a legal responsibility, under state law, for reporting the suspected abuse or neglect to law enforcement or to Child Protective Services (CPS).

A child who has experienced sexual abuse, trafficking, or any other type of abuse or neglect should be encouraged to seek out a trusted adult. Be aware as a parent or other trusted adult that disclosures of sexual abuse and sex trafficking may be more indirect than disclosures of physical abuse and neglect, and it is important to be calm and comforting if your child, or another child, confides in you. Reassure the child that he or she did the right thing by telling you.

Parents, if your child is a victim of sexual abuse, sex trafficking, or other maltreatment, the school counselor or principal will provide information regarding counseling options for you and your child available in your area. The Texas Department of Family and Protective Services (DFPS) also manages early intervention counseling programs. [To find out what services may be available in your county, see [Texas Department of Family and Protective Services, Programs Available in Your County.](#)]

Reports of abuse, trafficking, or neglect may be made to:

The CPS division of the DFPS 1-800-252-5400 or on the web at [Texas Abuse Hotline Website](#)).

Closed Campus Statement

Students coming on campus in the morning are to remain on the school grounds for the rest of the school day. Students are not allowed in the parking area. Going to the parking area without approval shall result in disciplinary action. Permission from the office must be obtained before a student can leave the campus during the school day and students must follow procedure. Students are not allowed to leave campus for lunch.

Communications

Parent Contact Information

A parent is legally required to provide in writing the parent's contact information, including address, phone number, and email address.

A parent must provide the contact information to the district upon enrollment and again within two weeks after the beginning of each following school year while the student is enrolled in the district.

If the parent's contact information changes during the school year, the parent must update the information in writing no more than two weeks after the date the information changes.

A parent may update contact information by contacting the campus registrar.

Automated Emergency Communications

The district will rely on contact information on file with the district to communicate with parents in an emergency situation, which may include real-time or automated messages. An emergency purpose may include early dismissal or delayed opening because of severe weather or another emergency, or if the campus must restrict access due to a security threat. It is crucial to notify your child's school when a phone number previously provided to the district has changed.

Automated Nonemergency Communications

Your child's school periodically sends information by automated or pre-recorded messages, text messages, or real-time phone or email communications that are closely related to the school's mission and specific to your child, your child's school, or the district.

Standard messaging rates of your wireless phone carrier may apply.

If you do not wish to receive such communications, please contact your child's principal.

Complaints and Concerns

Usually student or parent complaints or concerns can be addressed informally by a phone call or a conference with the teacher or principal. For those complaints and concerns that cannot be handled so easily, the board has adopted a standard complaint policy at FNG(LOCAL) in the district's policy manual. A copy of this policy and complaint forms may be obtained in the principal's or superintendent's office or on the district's website at www.misd.org.

Should a parent or student feel a need to file a formal complaint, the parent or student should file a district complaint form within the timelines established in policy FNG(LOCAL). In general, the student or parent should submit the written complaint form to the campus principal. If the concern is not resolved, a request for a conference should be sent to the superintendent or his designee. If still unresolved, the district provides for the complaint to be presented to the board of trustees.

Computer Access

Under the direction of professional personnel, Montgomery ISD students have limited access to electronic resources including the Internet. MISD has equipped all such equipment with the most advanced screening software available and will provide Internet Safety training using the I-Safe curriculum to students and personnel, in order to prevent student access to material that is inappropriate for children.

Prior to such authorization, the student and the student's parent must sign and return the District Student Agreement Form acknowledging their responsibilities and the consequences of violation.

Students are expected to observe network etiquette by being polite and using appropriate language. Students are prohibited from pretending to be someone else; transmitting obscene messages or pictures; revealing personal address or telephone numbers – either their own or another person's; or using the network in a way that would disrupt use by others. Students not following this code are subject to disciplinary action and/or termination of all computer privileges.

Conduct

Administrative Discretion in Disciplinary Matters

Any and all infractions of the Code of Student Conduct or the rules and regulations of our High School campuses may be handled at the discretion of the principal or assistant principal. The district may impose campus and classroom rules in addition to those found in the Montgomery I.S.D. Student Code of Conduct. These rules may

be listed in the campus student handbook and posted in classrooms. Violations of campus and classroom rules may or may not constitute violations of Montgomery I.S.D. Student Code of Conduct.

Applicability of School Rules

As required by law, the board has adopted a Student Code of Conduct that prohibits certain behaviors and defines standards of acceptable behavior—both on and off campus, during remote and in-person instruction, on district vehicles—and consequences for violation of these standards. The district has disciplinary authority over a student in accordance with the Student Code of Conduct. Students and parents should be familiar with the standards set out in the Student Code of Conduct, as well as campus and classroom rules. During any periods of instruction during the summer months, the Student Handbook and Student Code of Conduct in place for the year immediately preceding the summer period shall apply, unless the district amends either or both documents for the purposes of summer instruction.

Authority of Adult School Employees

The adult employees of M.I.S.D. have certain responsibilities to the school. In order to carry out these responsibilities they have had certain authority granted to them. Included is the authority to correct students when the occasion demands, whether the employee is a teacher, a clerk, a custodian or a cafeteria worker. Students are expected to accept such direction as though the principal were giving it. Failure to cooperate will result in disciplinary action.

Campus Behavior Coordinator

By law, each campus has a campus behavior coordinator to apply discipline management techniques and administer consequences for certain student misconduct, as well as provide a point of contact for student misconduct. For questions, please contact your designated Campus Behavior Coordinator.

Club Rules

Student clubs, performing groups and athletic teams may establish rules of conduct and consequences for misbehavior that are more strict than those for students in general. If a violation occurs which is also a violation of school rules, the consequences specified by the school shall apply in addition to any specified by the organization.

Disruptions of School Operations

Disruptions of school operations are not tolerated and may constitute a misdemeanor offense. As identified by law, disruptions include the following:

- Interference with the movement of people at an exit, entrance, or hallway of a district building without authorization from an administrator.
- Interference with an authorized activity by seizing control of all or part of a building.
- Use of force, violence, or threats in an attempt to prevent participation in an authorized assembly.
- Use of force, violence, or threats to cause disruption during an assembly.
- Interference with the movement of people at an exit or an entrance to district property.

- Use of force, violence, or threats in an attempt to prevent people from entering or leaving district property without authorization from an administrator.
- Disruption of classes or other school activities while on district property or on public property that is within 500 feet of district property. Class disruption includes making loud noises; trying to entice a student away from, or to prevent a student from attending, a required class or activity; and entering a classroom without authorization and disrupting the activity with loud or profane language or any misconduct.
- Interference with the transportation of students in vehicles owned or operated by the district.

Detention

Students will be given a reasonable deadline by which a detention will be served or additional consequences will be assigned. This deadline, as well as time and place to serve detention will be communicated in writing to the student.

After School Administrative Detention (ASD) – ASD will be served from 2:50 to 4:05 pm, (in the location designated by campus administration), everyday (unless communicated otherwise).

Saturday Detention Hall (SDH) – to be served in the Main Campus Cafeteria (unless communicated otherwise.) SDH may be used for repeated level one or level two offenses. Students will report from 8:45 a.m. to 12:00 noon on Saturday. Students are to bring schoolwork to keep them occupied the entire time. Failure to appear will result in more serious consequences. Students and parents are responsible for transportation.

In-School Suspension (ISS) – ISS will be utilized to temporarily remove students from the mainstream of the school setting. In addition to the isolation, the student will be required to work on assignments from each class and will receive credit for work satisfactorily completed. The student will not be considered absent from class. **Students assigned to ISS are expected to report directly to the ISS room when arriving at school and leave campus immediately at dismissal. Students assigned to in-school suspension are not allowed to participate or attend any practices, games or trips until the next school day following the student's suspension.** Length of assignment to ISS may vary depending on the infraction. Other guidelines include the following:

1. All materials/books must be brought to the ISS classroom.
2. Students will not talk, chew gum, pass notes or attempt to sleep. They must maintain an upright position.
3. Each student will have, in addition to lunch, one (1) break in the morning and one (1) break in the afternoon. All breaks and lunch shall be under the supervision of the ISS supervisor.
4. Participation in all co-curricular and extracurricular activities is prohibited during the ISS assignment.

Any student removed from ISS for disciplinary reasons will be subject to other more severe disciplinary consequences up to expulsion.

Students can either bring a sack lunch with them in the morning or purchase a lunch from the cafeteria.

Expectations of Student Conduct

All students are entitled to enjoy the basic rights of citizenship recognized and protected by law for persons of their age and maturity. The school will foster a climate of mutual respect for the rights and privileges of other students, teachers, and District staff. The District's rules of conduct and discipline are established to achieve and maintain order in the school. Students who violate the rights of others or who violate District or school rules will be subject to disciplinary measures designed to correct the misconduct and to promote adherence by all students to their responsibilities as citizens in the school community.

Regarding association with non-students: Students who attend school-related functions and are in the company of a person or persons who do not attend Montgomery Schools, shall be responsible for explaining the school rules. Failure to comply may result in the student and companion(s) leaving the event and, if necessary, may require the student through association, to be counseled and disciplined as determined by the school employee's recommendation to the building principal. Students who are not in the process of violating school rules can, by association, become involved with the punishment and should, if possible, disassociate themselves.

Extracurricular Activities

See the **Extracurricular Activities, Clubs, and Organizations** section for more information.

It is the student's responsibility to notify his/her sponsor(s) or coach(es) of any infraction which results in being ticketed, arrested or involved in any misdemeanor or felony activity within two (2) school days after the incident.

It is the **school's responsibility** to take action within one (1) week.

Gum, Candy, Drinks and Food

Students are not to chew gum at school. Cans, cups, and containers are not to be brought onto school property. Students may not bring food or drinks out of the cafeteria. Students may not sell candy, gum or any other food substance without permission from the office. **Food may not be delivered to students during the school day, including lunchtime and afterschool athletics, nor may it be purchased from outside commercial establishments and brought into the school.**

Hall Passes

Students are to obtain from their teachers, a hall pass whenever it becomes necessary to leave the room for any purpose. It is the student's responsibility to ask the teacher for a hall pass. **Students are not to be in the hall without a pass at any time during the school day.**

Public Display of Affection

Public display of affection is in poor taste and will not be permitted at school or at school sponsored activities. If behavior in class or on the school grounds is such that a teacher feels that disciplinary action is necessary, the students may be called aside for a conference or sent to the principal's office.

Scholastic Penalties

A student's grade may not be penalized for misbehavior. Teachers should not use grades for disciplinary purposes other than what is supported by District policy regarding unexcused absences, cheating and suspension.

School Sponsored Activities

School sponsored activities and trips are considered an extension of the school program, therefore, all policies and regulations are in effect.

Students found in violation of school policies risk disciplinary action and loss of school activity and travel privileges. For certain violations of policy, parents will be contacted and the student sent home at his/her own expense as quickly as arrangements can be made to do so. Sponsors will not be expected to remain responsible for uncooperative students.

Students on school sponsored trips or at school sponsored activities will refrain from riding in any vehicle other than those specified by their sponsors.

When a student is traveling with a school-sponsored group, he/she will not be released to anyone until the group returns to the school campus. Parental permission to pick up a student prior to the end of the trip should be requested to the sponsor using an "Alternate Travel Form", two days **prior to** the trip.

Students who have the privilege of taking part in a school activity or trip during school time are expected to maintain passing grades, good attendance and conduct, and to make up work missed on a reasonable schedule to be determined by the teacher.

Students must be in attendance at least half a day prior to participation or departure for participation in any school sponsored activity or practice that day. An exception may be made if a student presents a doctor's note verifying that he/she was in the office for medical treatment. Students who are absent from school may not attend or participate in after school practice or events. Extenuating circumstances will be reviewed by the principal. When participating on Saturday, student must be in attendance at least a half day of the prior school day.

Social Events

School rules apply to all school social events. Guests attending these events are expected to observe the same rules as students, and a student inviting a guest will share responsibility for the conduct of his or her guest.

Counseling

The district has a comprehensive school counseling program that includes:

- A guidance curriculum to help students develop their full educational potential, including the student's interests and career objectives;
- A responsive services component to intervene on behalf of any student whose immediate personal concerns or problems put the student's continued educational, career, personal, or social development at risk;
- An individual planning system to guide a student as the student plans, monitors, and manages the student's own educational, career, personal, and social development; and
- Systems to support the efforts of teachers, staff, parents, and other members of the community in promoting the educational, career, personal, and social development of students.

The district will make a preview of the program, including all materials and curriculum, available to parents to review during school hours.

Academic Counseling

High school students and their parents are encouraged to talk with a school counselor, teacher, or principal to learn more about course offerings, graduation requirements, and early graduation procedures.

Each year, high school students will be provided information on anticipated course offerings for the next school year, how to make the most of academic and career and technical education (CTE) opportunities, and the importance of postsecondary education.

The school counselor will also provide information each year a student is enrolled in high school regarding:

- The importance of postsecondary education;
- The advantages of earning an endorsement and completing the foundation program with the distinguished level of achievement;
- The disadvantages of pursuing a high school equivalency exam (GED) as opposed to earning a high school diploma;
- Financial aid eligibility and how to apply for financial aid;
- Automatic admission to state-funded Texas colleges and universities;
- Eligibility requirements for the TEXAS Grant;
- Availability of district programs that allow students to earn college credit;
- Availability of tuition and fee assistance for postsecondary education for students in foster care; and
- Availability of college credit awarded by institutions of higher education to veterans and military service members for military experience, education, and training.

Additionally, the school counselor can provide information about workforce opportunities after graduation or technical and trade school opportunities, including opportunities to earn industry-recognized certificates and licenses.

Personal Counseling

The school counselor is available to assist students with a wide range of personal concerns, including such areas as social, family, emotional or mental health issues, or substance abuse. A student who wishes to meet with the school counselor should request to see a counselor by signing in at the counseling center. As a parent, if you are concerned about your child's mental or emotional health, please speak with the school counselor for a list of resources that may be of assistance.

If your child has experienced trauma, contact the school counselor for more information.

Course Selection Guide

COURSE SELECTION GUIDE

Annually, students are given access to a Course Selection Guide which includes academic policies. All parties should consider this guide a policy manual. Please refer to this document online at www.misd.org and it is also available in the counselor's office, if you have questions on the following:

Advanced/dual credit/Pre-AP/AP courses transferred but not offered by the District shall be recorded as advanced/dual credit/Pre-AP/AP courses on the academic achievement record but shall be weighted as regular courses.

For the purpose of determining honors to be conferred during graduation activities, the District shall calculate class rank at the start of the spring semester of the senior year.

To be recognized as an honor graduate, a student must rank in the top ten percent of the graduating class and must have been enrolled in the District high school for his or her entire last two semesters of high school.

The semester average shall earn grade points according to the District's weighted grade point scale. GPAs shall be rounded to the fourth decimal place, and final GPAs for graduates shall be calculated at the start of the spring semester of the senior year.

For the purpose of applications to institutions of higher education, the District shall also calculate class ranking as required by state law. The District's eligibility criteria for local graduation honors shall apply only for local recognitions and shall not restrict class ranking for the purpose of automatic admission under state law. [See EIC(LEGAL)]

The valedictorian and salutatorian shall be the eligible students with the highest and second-highest rank, respectively. To be eligible for this local graduation honor, a student must:

1. Have been continuously enrolled in the District high school for the entire last two school years of high school;
2. Have completed the foundation program with the distinguished level of achievement.

In case of a tie in weighted GPAs after calculation to the fourth decimal place, the District shall apply the following procedures:

1. In the event of a tie for the valedictorian position, the District shall honor co-valedictorians, and no salutatorian shall be named.
2. In the event of a tie for the salutatorian position, the District shall honor co-salutatorians.

Beginning in 2026, in case of a tie in weighted GPAs, after calculation to the sixth decimal place, the District shall apply the following methods, in this order, to determine recognition as valedictorian or salutatorian:

1. Average the grades from all courses that are the same taken by each student involved in the tie.
2. Count the number of AP and dual credit courses taken by each student involved in the tie.

If the tie is not broken after applying these methods, the District shall recognize all students involved in the tie as sharing the honor and title.

The student meeting the local eligibility criteria for recognition as the valedictorian shall also be considered the highest-ranking graduate for purposes of receiving the honor graduate certificate from the state of Texas.

Dating Violence, Discrimination, Harassment, and Retaliation

The district believes that all students learn best in an environment free from dating violence, discrimination, harassment, and retaliation and that their welfare is best served when they are free from this prohibited conduct while attending school. Students are expected to treat other students and district employees with courtesy and respect, to avoid behaviors known to be offensive, and to stop those behaviors when asked or told to stop. District employees are expected to treat students with courtesy and respect.

The board has established policies and procedures to prohibit and promptly respond to inappropriate and offensive behaviors that are based on a person's race, color, religion, sex, gender, national origin, disability, age, or any other basis prohibited by law. A copy of the district's policy is available in the principal's office and in the superintendent's office or on the district's website. [See policy FFH.]

Dating Violence

Dating Violence will not be tolerated at school. To report dating violence, see **Reporting Procedures**.

Dating violence occurs when a person in a current or past dating relationship uses physical, sexual, verbal, or emotional abuse to harm, threaten, intimidate, or control the other person in the relationship. Dating violence also occurs when a person commits these acts against a person in a marriage or dating relationship with the individual who is or was once in a marriage or dating relationship with the person committing the offense. This type of conduct is considered harassment if the conduct is so severe, persistent, or pervasive that it affects the student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; or substantially interferes with the student's academic performance.

Examples of dating violence against a student may include, but are not limited to, physical or sexual assaults; name-calling; put-downs; threats to hurt the student, the student's family members, or members of the student's household; destroying property belonging to the student; threats to commit suicide or homicide if the student ends the relationship; threats to harm a student's current dating partner; attempts to isolate the student from friends and family; stalking; or encouraging others to engage in these behaviors.

In accordance with law, when the district receives a report of dating violence, a district official will immediately notify the parent of the alleged victim and alleged perpetrator.

The counselor's office has information about the dangers of dating violence and resources for seeking help.

For more information on dating violence, see

Discrimination

Discrimination is defined as any conduct directed at a student on the basis of race, color, religion, sex, gender, national origin, disability, age, or any other basis prohibited by law that negatively affects the student.

Harassment

Harassment, in general terms, is conduct so severe, persistent, or pervasive that it affects the student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; or substantially interferes with the student's academic performance.

Examples of harassment may include, but are not limited to, offensive or derogatory language directed at a person's religious beliefs or practices, accent, skin color, or need for accommodation; threatening, intimidating, or humiliating conduct; offensive jokes, name-calling, slurs, or rumors; physical aggression or assault; graffiti or printed material promoting racial, ethnic, or other negative stereotypes; or other kinds of aggressive conduct such as theft or damage to property.

In addition to dating violence as described above, two other types of prohibited harassment are described below.

Sexual Harassment and Gender-Based Harassment

Sexual harassment and gender-based harassment of a student by an employee, volunteer, or another student are prohibited.

Examples of sexual harassment may include, but not be limited to, touching private body parts or coercing physical contact that is sexual in nature; sexual advances; jokes or conversations of a sexual nature; and other sexually motivated conduct, communications, or contact.

Sexual harassment of a student by an employee or volunteer does not include necessary or permissible physical contact not reasonably construed as sexual in nature, such as comforting a child with a hug or taking the child's hand. However, romantic and other inappropriate social relationships, as well as all sexual relationships, between students and district employees are prohibited, even if consensual.

Gender-based harassment includes harassment based on a student's gender, expression by the student of stereotypical characteristics associated with the student's gender, or the student's failure to conform to stereotypical behavior related to gender.

Examples of gender-based harassment directed against a student, regardless of the student's or the harasser's actual or perceived sexual orientation or gender identity, may include, but not be limited to, offensive jokes, name-calling, slurs, or rumors; physical aggression or assault; threatening or intimidating conduct; or other kinds of aggressive conduct such as theft or damage to property.

Retaliation

Retaliation against a person who makes a good faith report of discrimination or harassment, including dating violence, is prohibited. Retaliation against a person who is participating in an investigation of alleged discrimination or harassment is also prohibited. A person who makes a false claim or offers false statements or refuses to cooperate with a district investigation, however, may be subject to appropriate discipline.

Examples of retaliation may include threats, rumor spreading, ostracism, assault, destruction of property, unjustified punishments, or unwarranted grade reductions. Unlawful retaliation does not include petty slights or annoyances.

Reporting Procedures

Any student who believes that he or she has experienced dating violence, discrimination, harassment, or retaliation should immediately report the problem to a teacher, school counselor, principal, or other district employee. The report may be made by the student's parent. [See policy FFH(LOCAL) and (EXHIBIT) for other appropriate district officials to whom to make a report.]

Upon receiving a report of prohibited conduct as defined by policy FFH, the district will determine whether the allegations, if proven, would constitute prohibited conduct as defined by that policy. If not, the district will refer to policy FFI to determine if the allegations, if proven, would constitute bullying, as defined by law and

that policy. If the alleged prohibited conduct, if proven, would constitute prohibited conduct and would also be considered bullying as defined by law and policy FFI, an investigation of bullying will also be conducted.

The district will promptly notify the parents of any student alleged to have experienced prohibited conduct involving an adult associated with the district. In the event alleged prohibited conduct involves another student, the district will notify the parents of the student alleged to have experienced the prohibited conduct when the allegations, if proven, would constitute a violation as defined by policy FFH.

Investigation of Report

To the extent possible, the district will respect the privacy of the student; however, limited disclosures may be necessary to conduct a thorough investigation and to comply with law. Allegations of prohibited conduct, which includes dating violence, discrimination, harassment, and retaliation, will be promptly investigated.

If a law enforcement or other regulatory agency notifies the district that it is investigating the matter and requests that the district delay its investigation, the district will resume the investigation at the conclusion of the agency's investigation.

During the course of an investigation and when appropriate, the district will take interim action to address the alleged prohibited conduct.

If the district's investigation indicates that prohibited conduct occurred, appropriate disciplinary action, and, in some cases, corrective action, will be taken to address the conduct. The district may take disciplinary and corrective action even if the conduct that is the subject of the complaint was not unlawful.

All involved parties will be notified of the outcome of the district investigation within the parameters and limits allowed under the Family Educational Rights and Privacy Act (FERPA).

A student or parent who is dissatisfied with the outcome of the investigation may appeal in accordance with policy FNG(LOCAL).

Distance Learning

Distance learning and correspondence courses include courses that encompass the state-required essential knowledge and skills but are taught through multiple technologies and alternative methodologies such as mail, satellite, Internet, video-conferencing, and instructional television.

The Texas Virtual School Network (TxVSN) has been established by the state as one method of distance learning. A student has the option, with certain limitations, to enroll in a course offered through the TxVSN to earn course credit for graduation.

Depending on the TxVSN course in which a student enrolls, the course may be subject to the "no pass, no play" rules. [See **Extracurricular Activities, Clubs, and Organizations**]. In addition, for a student who enrolls in

a TxVSN course for which an end-of-course (EOC) assessment is required, the student must still take the corresponding EOC assessment.

If you have questions or wish to make a request that your child be enrolled in a TxVSN course, please contact the school counselor. A student will not be allowed to enroll in a TxVSN course if the school offers the same or a similar course.

A copy of policy EHDE will be distributed to parents of middle and high school students at least once each year. If you do not receive a copy or have questions about this policy, please contact the principal.

If a student wishes to enroll in a correspondence course or a distance learning course that is not provided through the TxVSN in order to earn credit in a course or subject, the student must receive permission from the principal prior to enrolling in the course or subject. If the student does not receive prior approval, the district may not recognize and apply the course or subject toward graduation requirements or subject mastery.

Distribution of Literature, Published Materials, or Other Documents

School Materials

School-sponsored newspapers and/or yearbooks are under the complete supervision of the teacher and campus principal.

The campus principal must first approve signs and posters that students wish to display. Posters displayed without authorization will be removed. Any student who posts printed material without approval shall be subject to disciplinary action.

Non-school Materials

All written material over which the District does not exercise editorial control that is intended for distribution to students shall be submitted to the Principal for review and approval. If the material is not approved within 2 days of the time it is submitted, it must be considered disapproved. Decisions may be appealed by submitting the material to the Superintendent. Material not approved by the Superintendent within three (3) days is considered disapproved. This disapproval may be appealed to the Board at its next regular meeting when the student shall have a reasonable period of time to present his/her viewpoint.

Handbills, photographs, pictures, petitions, films, tapes and other visual or auditory materials may not be sold, circulated or distributed on any school campus by students or non-students without the approval of the Director of Human Resources.

Dress Code Guidelines

Students will be expected to keep themselves well-groomed and neatly dressed at all times. Any form of dress or hairstyle that is contrary to good hygiene or which is considered a distraction or disruptive to the purpose and conduct of the school will not be permitted. Dress shall not create a health or other hazard to the students' safety.

The dress code for Montgomery I.S.D. includes, but is not limited to, the following:

- Shorts, skirts, leggings, or dresses must be modest with **normal movement**.
- Shorts may be worn provided they are mid-thigh or longer. Shorts, pants and jeans must have no holes or cutouts above the mid-thigh.
- Revealing clothes may not be worn to school, including but not limited to: blouses/dresses that are strapless, transparent, low-cut, backless, off the shoulder, halter top, or spaghetti straps. Undergarments should not be visible. No stomachs should be visible with normal movement.
- No head coverings such as hats, caps, doo-rags, bandanas or hoods are to be worn in any school building at any time.
- Raincoats, trench coats and other full-length over-garments worn to school due to inclement weather must be stored in the locker or AP office. Such garments may not be worn inside the building.
- Extreme hair styles or distracting hair colors will be addressed by administration. Mustaches and beards may be worn if neat and trimmed.
- Students may not wear clothing or have visible tattoos that displays vulgar, lewd, or obscene writing or images and may not wear emblems that advertise or depict tobacco, alcohol, drugs, or weapons. Pants may not be excessively baggy or hang below the natural waistline.
- Noisy or distracting jewelry or accessories may not be worn. Except for earrings or small nose studs, all other types of facial piercing, tongue studs and/or visible body piercings are prohibited. Chains of any length or size (including wallet chains) are not allowed. Sunglasses may not be worn in building. Leashes of any kind are not permissible.
- Costumes of any kind are prohibited, including furies and/or tails.
- It is never appropriate for students to wear house slippers, pajamas, or bedclothes to school. Students should never bring blankets or pillows.

Each year there are “fads” that show up on our campuses. We are neither listing these nor making a regulation to cover all problems that may arise. When a fad starts on a campus and becomes a distraction, it shall be immediately eliminated. It is impractical to list every possibility of dress and grooming. The administration of each campus shall apply the dress code and make all final decisions regarding what is acceptable and appropriate.

Violations of the dress code will result in the student being sent to an assistant principal’s office. On the first offense, the violation will be corrected as soon as possible, parents/guardians will be contacted and may need to bring compliant article of clothing. The first offense will result in a warning. The second offense will follow the aforementioned procedure except discipline consequence will be issued. The third offense will require an in-person parent conference and student will be placed in ISS for the remainder of the school day. Student may be assigned additional consequences for excessive non-compliance.

No student will be allowed to return to class until they are in compliance with the dress code policy. If a parent/guardian cannot bring clothing to remedy a violation, the student will be placed in ISS for the remainder of the school day.

If a student fails to report to the office when instructed, they will receive the appropriate discipline consequence for insubordination.

The final determination of what is disruptive or distracting shall be made by the principal or assistant principal. Parents and students who disagree shall follow the procedure for appeals (Board Policy FNG).

District Technology Resources

Staff and students use technology resources to facilitate learning, the work environment, and promote communications. These guidelines ensure the proper use of Montgomery Independent School District's (the District's) technology resources (systems). All users have the responsibility to use technology resources in an efficient, effective, ethical and lawful manner.

The following guidelines, rules, and conditions apply to all users of District technology resources and services, wherever the users are located. Violations of this policy may result in disciplinary action, including possible suspension, and/or legal action.

The District has the right, but not the duty, to monitor any and all aspects of the District's technology resources, including e-mail, to ensure compliance with this policy.

The District's network, digital equipment and accounts given to students and employees are for educational purposes only. Users should not have an expectation of privacy in anything they create, view, send, or receive on District systems. Commercial use of District resources is strictly prohibited. The digital equipment, software, and system belong to the District and may be used for educational purposes only.

All users are governed by the following provisions, which apply to all use of technology resources and services. Technology resources and services include, but are not limited to, the following: cloud or hosted services, file servers, workstations, stand-alone computers, laptops, tablets, software, telephones, email accounts, data and databases, and internal or external communication networks (Internet, commercial online services, and email systems) that are accessed directly or indirectly from the district's computer facilities.

These regulations may be amended or revised periodically as the need arise and are implemented pursuant to District policy (CQ Local).

Electronic Devices and Technology Resources (All Grade Levels)

Possession of Personal Electronic and/or Telecommunications Devices at School

In this section of the Student Handbook, a personal electronic or telecommunication device (“personal device”) includes, but is not limited to, mobile/cellular phones, smart watches, radios, CD players, iPods, MP3 players, video/audio recorders, portable video games, DVD players, electronic readers, cameras, Google Glass, etc.

The term does not include personal laptops, notebook computers, or tablet computers [See Bring Your Own Technology for Instructional Use below].

If a student brings a personal device to school, it is the student’s responsibility to keep the item secure. The school will not be responsible for personal devices that are damaged, lost or stolen; however, as with other personal property brought to school, administrators will conduct investigations as time permits to recover lost/stolen items or to determine the person(s) responsible for damages, and will assess discipline as appropriate.

Use of Personal Electronic and/or Telecommunications Devices at School

In all grades, wearable technology (such as smart watches or fitness monitors) can be worn at school and remain powered on, but students must follow the below rules for access, use, and non-disruption.

In grades PK-5, students are not permitted to display, turn on, or use a personal device, during the instructional day. For grades PK-5, the instructional day is the time from the morning tardy bell to the daily dismissal bell, including lunch, recess, passing periods, and all activities conducted during the instructional day (field trips, assemblies, etc.).

In grades PK-5, if a student uses a telecommunications device without authorization during the school day, the device will be confiscated. The parent may pick up the confiscated telecommunications device from the principal’s office. Confiscated telecommunications devices that are not retrieved by the student’s parents will be disposed of after the notice required by law. [See policy FNCE.]

In grades 6-12, students are not permitted to display, turn on, or use a personal device, during instructional class periods. For grades 6-12, an instructional class period is the time from the tardy bell to the dismissal bell for a class period, and does not include lunch, passing periods, and off periods. With specific teacher permission, students can access personal devices to listen to music during independent study or self-paced time. When appropriate for instructional use a department can allow the use of a personal device to supplement the learning, as published in the course syllabus. Electronic devices are strictly for personal use and should not be audible to others. The student’s ability to hear and/or comply with verbal direction should never be impaired. Ear bud use (1 only) is acceptable, but headphones that cover the ears are prohibited.

In grades 6-12, The unapproved or inappropriate use of electronic devices will result in confiscation, and disciplinary consequences for each violation of this policy. School Administrators are not required to obtain a warrant before searching a student’s cell phone when they have “reasonable belief” a violation has occurred.

In all grades, when not authorized, personal devices (other than wearable technology) should be stored in backpacks or lockers and turned off or silenced. A student leaving the building to use an electronic device is strictly prohibited.

In all grades, a student is authorized to use a personal device if the student’s Individual Health Plan, Section 504 Plan or Individualized Education Plan specifies a required academic or health use or applicable accommodation.

In all grades, in the event of a personal or family emergency, a student needing to use or access a personal device may work with campus administration on an appropriate exception to these rules.

Prohibited Activities and Uses of Personal Electronic and/or Telecommunications Devices

Unacceptable and inappropriate uses of technology resources are detailed in the Student Code of Conduct and the District’s Responsible Use Guidelines, including:

- Violation of the personal device rules during the administration of any state or major course assessment may result in an invalid assessment and/or will be regarded as cheating.
- Taking pictures or otherwise capturing images is strictly prohibited in locker rooms, restroom areas, or other areas of student privacy, while at school or at a school-related or school-sponsored event.
- Personal devices that negatively impact the District’s computing environment or network may be shut down or blocked to prevent disruption of service to others. Any student who engages in conduct that results in a breach of the district’s computer security will be disciplined in accordance with the Student Code of Conduct.
- Any telecommunication or electronic device is prohibited if used to cheat, audio/video record, or photograph another student or staff member without that person’s permission, or when the use creates a disruption.
- **Students are prohibited from possessing, sending, forwarding, posting, accessing, or displaying electronic messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another’s reputation, or illegal. This prohibition also applies to conduct off school property, whether the equipment used to send such messages is district-owned or personally owned, if it results in a substantial disruption to the educational environment.**
- Any person taking, disseminating, transferring, possessing, or sharing obscene, sexually oriented, lewd, or otherwise illegal images or other content, commonly referred to as “sexting,” will be disciplined in accordance with the Student Code of Conduct, may be required to

complete an educational program related to the dangers of this type of behavior, and, in certain circumstances, may be reported to law enforcement.

This type of behavior may constitute bullying or harassment, as well as impede future endeavors of a student. We encourage parents to review with their child the "Before You Text" Sexting Prevention Course, a state-developed program that addresses the consequences of sexting.

- Any student who engages in conduct that results in a breach of the district's computer security will be disciplined in accordance with the Student Code of Conduct. In some cases, the consequence may be expulsion.

Consequences for Noncompliance

If the use of a personal device is determined by a staff member to be a distraction to a student or the learning environment, or is used in violation of these provisions, all staff will respond in the same manner as any other distraction to the student or learning environment.

Any item that is a distraction to the learning environment may be collected by a staff member and given to a campus administrator. If a personal device is collected by a staff member and given to a campus administrator, a parent or guardian will be responsible for retrieving the item in the office. Confiscated devices that are not retrieved by the student or the student's parent will be disposed of after the notice required by law. [See policy FNCE.]

Students violating these rules may also be disciplined in accordance with the Student Code of Conduct, particularly for multiple, flagrant or egregious violations.

In limited circumstances and in accordance with law, a student's personal device may be searched by authorized personnel. [See Searches and policy FNF.]

Confiscated electronic devices are not the responsibility of the school or its personnel. Montgomery ISD will not be responsible for damaged, lost or stolen electronic devices. Confiscated items will be returned to the student or parent/legal guardian using the following guidelines. (For further information, see policy FNCE and the MISD Student Code of Conduct.)

Secondary Campuses (Grades 6-12)

| First Offense: | 1 After-School Detention (ASD) (Students may pick-up at the end of their school day.) |
| Second Offense: | 2 ASDs (Students may pick-up at the end of their school day.) |

* Refusal to turn cell phone over to a teacher will result in 2 days of ISS.

* Refusal to comply with your Administrator will result in the above consequences AND home suspension.

Note: If a parent/legal guardian cannot come to the school to pick up a confiscated electronic device by the end of the school day: The device will stay in the custody of the school administrator until the parent/legal guardian can arrange their schedule to pick up the device.

“Bring Your Own Technology” for Instructional Use

In some cases, students in grades K-12 may find it beneficial to use personal laptops, notebook computers, or tablet computers for instructional purposes while at school. When students are not using the devices for approved instructional purposes, all devices must be turned off during the instructional day. Students using personal devices at school are subject to the same rules and requirements as District-Issued Technology. Violations of the user agreement may result in withdrawal of privileges and other disciplinary action.

- Students/Guardians understand that if a personal device is damaged or stolen while on MISD property, or district sponsored event/activity, MISD is not liable to replace or repair the device.
- Students/Guardians understand that any data and/or SMS/MMS (texting) charges will not be reimbursed by MISD.
- Students/Guardians agree to connect personal device only to a MISD designated network, not other (e.g external/neighborhood or personal hotspot) networks.
- Students/Guardians agree to turn off all peer-to-peer (music/video/file-sharing) software or web-hosting services on personal technology while on District property.
- Students/Guardians agree that security, care, connectivity, and maintenance of technology devices are their responsibility, not that of the District’s.

District-Issued Technology for Instructional Use

To prepare students for an increasingly technological society, the District provides technology for instructional purposes. District computer technology includes computer workstations, iPads, applications, databases, library catalog, online resources, Internet access, email and other technologies designated for use by students. Use of these resources is restricted to students working under a teacher's supervision and for approved purposes only. With this educational opportunity comes responsibility. It is important that students and parents read the *Responsible Use Guidelines for Technology*.

The district's *Responsible Use Guidelines for Technology* (specialized by level) can be found at the end of this Handbook.

Students and their parents should be aware that e-mail and other electronic communications using District computers are not private and will be monitored by District staff and are subject to Open Records requests. [See policy CQ.]

Acceptable Use of District Technology Resources

To prepare students for an increasingly technological society, the district has made an investment in the use of district-owned technology resources for instructional purposes; specific resources may be issued individually to students. Use of these technological resources, which include the district's network systems and use of district equipment, is restricted to approved purposes only. It is important that students and parents read the *Montgomery ISD Student Device Policy Handbook*, located on the district's website.

Google G Suite for Education

Montgomery ISD will create accounts for all students to allow for collaborative sharing using Google Workspace. These tools are housed on the Internet and can be accessed from any Internet-connected device. No special software is required.

Google Workspace is a set of online tools for communication, collaboration and document storage. These tools may include products such as: Calendar, Drive, Sites, YouTube, Jamboard and Classroom. As Google continues to add new tools, Montgomery ISD will evaluate each for its educational potential. Montgomery ISD may add additional tools within Google Workspace throughout the school year.

As appropriate, a student's Google account may also be used as a student identifier to access educationally related software and programs, in accordance with Montgomery ISD curriculum and privacy practices.

Microsoft Office 365

Montgomery ISD will create accounts for all students to allow for collaborative sharing using Office 365. These tools are housed on the Internet and can be accessed from any Internet-connected device. MISD students receive licenses for Office 365.

Microsoft Office 365 is a set of online tools and software for communication, collaboration, productivity, and document storage. As Microsoft continues to add new tools, Montgomery ISD will evaluate each for its educational potential. Montgomery ISD may add additional tools within Office 365 throughout the school year.

As appropriate, a student's Microsoft account may also be used as a student identifier to access educationally related software and programs, in accordance with Montgomery ISD curriculum and privacy practices.

Student Email Addresses

As part of Microsoft Office 365 services, all Montgomery ISD students will be assigned a Montgomery ISD student email account. Unless another email address is assigned by the District, this account will be considered the student's official email address until such time as the student is no longer enrolled at Montgomery ISD. In addition to being a communication tool for students to use with their teachers as appropriate by grade level, this email address may also be used as a student identifier to access educationally related software and programs, in accordance with Montgomery ISD curriculum and privacy practices.

Use of Social Networking/Digital Tools

Students may participate in District-approved online learning environments related to instruction, curricular projects or school activities and use digital tools, such as, but not limited to: a learning management system, social media, mobile devices, blogs, discussion forums, RSS feeds, podcasts, wikis, and online meeting sessions. The uses of these digital tools are considered an extension of the classroom and governed by the District student handbook. Communications and activity considered inappropriate in the classroom is also inappropriate in all uses of District-approved digital tools. Digitally transmitted content that includes inappropriate language, images, or content is prohibited.

For students under the age of 13, the Children’s Online Privacy Protection Act (COPPA) requires additional parental permission for educational software tools. Parents wishing to deny access to these educational tools must do so in writing to the campus principal indicating their child should be denied access to these tools. Examples of these tools include FlipGrid, Adobe Spark, and Discovery Education.

Automated Rostering

Montgomery ISD uses third-party rostering services to provide students with digital curriculum and textbook resources. These accounts will be used at school for school related projects but if allowed may also be accessed outside of school and contribute to achieving instructional objectives. Staff may also use other third-party accounts.

Unacceptable and Inappropriate Use of District Technology Resources

Students are prohibited from possessing, sending, forwarding, posting, accessing, or displaying electronic messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another’s reputation, or illegal. This prohibition also applies to conduct off school property, whether on district-owned or personally owned equipment, if it results in a substantial disruption to the educational environment. Any person taking, disseminating, transferring, possessing, or sharing obscene, sexually oriented, lewd, or otherwise illegal images or other content, commonly referred to as “sexting” will be disciplined according to the Student Code of Conduct and may, in certain circumstances, be reported to law enforcement. The use of a mobile telephone or any device to capture images of any violation of the student code of conduct is strictly prohibited while at school or at a school-related or school-sponsored events. Any disciplinary action will be in accordance with the Student Code of Conduct. The district will not be responsible for damaged, lost, or stolen electronic devices.

Vandalism Prohibited

Users may not engage in any malicious attempt to harm or destroy materials belonging to the District or of another user of the District’s system, or of any of the agencies or other networks that are connected to the District. Deliberate attempts to degrade or disrupt system performance will be viewed as violations of District policy and administrative regulations and may be viewed as criminal activity under applicable state and federal laws. This includes, but is not limited to, the uploading or creating of computer viruses. The use of any software having the purpose of damaging the District’s system or other user’s system is prohibited.

CRIMINAL ACTS

These include, but are not limited to:

- Unauthorized tampering
- Cyberstalking
- Vandalism
- Harassing email
- Child pornography
- Cyberbullying

Libel Laws - Publicly defaming people through the published material on the internet, email, et cetera.

Copyright Violations - Copying, selling or distributing copyrighted material without the express written permission of the author or publisher (users should assume that all materials available on the Internet are protected by copyright), engaging in plagiarism (using other's words or ideas as your own

CONTENT FILTERING

In compliance with the Children's Internet Protection Act (CIPA), a content filtering solution is in place in order to minimize access to certain sites that may contain inappropriate material, including pornography, weapons, illegal drugs, gambling, and any other topics deemed to be of non-educational value by MISD. The District cannot guarantee that all inappropriate material will be blocked at all times or that acceptable material may be unintentionally blocked. The District is not responsible for the content accessed by users who connect via their own service (cellphones, air-cards, etc.). It is important that students and parents read the Montgomery ISD Student Device Policy Handbook, located on the district's website concerning content filtering off district property.

INFORMATION CONTENT/THIRD PARTY SUPPLIED INFORMATION

Although the District has proper content filtering in place, users and parents/guardians of students with access to the District's system should be aware that use of the system may provide access to other electronic communications systems in the global electronic network that may contain inaccurate and/or objectionable material.

TERMINATION/REVOCAION OF SYSTEM USER ACCOUNT

The District may suspend or revoke a User's access to the District's system upon any violation of District policy and/or administrative regulation. Prior to a suspension or revocation of system access, or as soon as practicable, the principal or District coordinator will inform the system user of the suspected violation and give the user an opportunity to present an appeal. Users may appeal the revocation of access according to district guidelines and policies.

Termination of an employee's access or of a student's access will be effective on the termination or withdrawal date.

Disclaimer

The District's system is provided on an "as is, as available" basis. The District does not make any warranties, whether expressed or implied, including, without limitation, those of merchantability and fitness for a particular purpose with respect to any services provided by the system and any information of software contained therein. The District does not warrant that the functions or services performed by, or that the information of software contained on, the system will meet the system user's requirements, or that the system will be uninterrupted or error-free, or that defects will be corrected.

Opinions, advice, services, and all other information expressed by system users, information providers, service providers, or other third-party individuals in the system are those of the provider and not of the District. The District will cooperate fully with local, state, or federal officials in any investigation concerning or relating to misuse of the District's electronic communications system.

In order to protect the technology assets of Montgomery ISD, to minimize unnecessary system downtime, and to supplement the District's Technology Responsible Use Agreement, the following policies are to be followed by all system users:

- a. Setup and repair of computers is to be done in accordance to established processes and procedures.
- b. Technology hardware including phones, printers, and computers must not be moved without prior approval from the Campus Desktop Technician and the Technology Services Department unless the hardware is designated as mobile.

Consent

By acknowledging receipt of the Student Handbook (including the *Technology Responsible Use Guidelines*), parents/guardians are giving consent for their student to use their Montgomery ISD Google Workspace account, Microsoft Office 365/Azure AD account, and related products and services as evaluated and determined to have educational value and provisioned by the district.

English Learners

A student who is an emergent bilingual student is entitled to receive specialized services from the district. To determine whether the student qualifies for services, a Language Proficiency Assessment Committee (LPAC) will be formed, which will consist of both district personnel and at least one parent representative. The student's parent must consent to any services recommended by the LPAC for an English learner. However, pending the receipt of parental consent or denial of services, an eligible student will receive the services to which the student is entitled and eligible.

In order to determine a student's level of proficiency in English, the LPAC will use information from a variety of assessments. If the student qualifies for services, and once a level of proficiency has been established, the LPAC will then designate instructional accommodations or additional special programs that the student will require to eventually become proficient at grade level work in English. Ongoing assessments will be conducted to determine a student's continued eligibility for the program.

The LPAC will also determine whether certain accommodations are necessary for any state-mandated assessments. The STAAR Spanish, as mentioned at **Standardized Testing**, may be administered to a bilingual student up to grade 5. In limited circumstances, a student's LPAC may exempt the student from an otherwise required state-mandated assessment or may waive certain graduation requirements related to the English I end-of-course (EOC) assessment. The Texas English Language Proficiency Assessment System (TELPAS) will also be administered to emergent bilingual students who qualify for services.

If a student is considered an English learner and receives special education services because of a qualifying disability, the student's ARD committee will make instructional and assessment decisions in conjunction with the LPAC.

Extracurricular Activities, Clubs, and Organizations

1. **Curricular** activities occur within the regular school day and include the delivery of instruction.
2. **Co-curricular** activities are an extension of classroom instruction in which participation is by the entire class or a significant portion of the class, such as field trips. Co-curricular activities that require a student to miss a class other than the sponsoring class or course will not be counted under the 10-day rule.
3. **Extracurricular** activities are school-sponsored activities which are not directly related to instruction. Activities include, but are not limited to, performances, contests, demonstrations, displays, club activities and athletic activities. A student is allowed up to 10 activity absences during the school year or no more than 7 absences in one semester for extracurricular activities or public performances. For two or more activities, a student will receive additional absences. All UIL activities and other activities approved by the board are subject to these restrictions. A student who misses a class because of participation in a non-approved activity will receive an unexcused absence.

Interdistrict Eligibility for initial and continuing participation in many of these activities is governed by state law and the rules of the University Interscholastic League (UIL)—a statewide association overseeing interdistrict competition. If a student is involved in an academic, athletic, or music activity governed by UIL, the student and parent are expected to know and follow all rules of the UIL organization. Students involved in UIL athletic activities and their parents can access the UIL Parent Information Manual at <https://www.uiltexas.org/athletics/manuals>; a hard copy can be provided by the coach or sponsor of the activity on request. To report a complaint of alleged noncompliance with required safety training or an alleged violation of safety rules required by law and the UIL, please contact the curriculum division of the Texas Education Agency at (512) 463-9581 or curriculum@tea.texas.gov.

If a student is enrolled in a state-approved course that requires demonstration of the mastery of an essential knowledge and skills in public performance and the student receives a grade below 70 in any course at the end of the grading period, the student may participate in a performance so long as the general public is invited.

If a student is enrolled in a state-approved music course that participates in UIL Concert and Sight-reading Evaluation, and the student receives a grade below 70 in any course at the end of a grading period, the student may perform with the ensemble during the UIL evaluation performance, but is ineligible for other extracurricular activities for at least three weeks.

CLUBS AND ORGANIZATIONS

MISD has a variety of clubs and organizations that students can participate in to enhance their educational experience. The school rules and guidelines established for these groups must be adhered to in order to plan campus or community related activities and remain an active organization for the current school year. These policies have been instituted to ensure the safety and security of the students and staff at Montgomery Independent School District. The deadline for club and organization registration is at the end of the 3rd week of the first grading period.

RULES AND REGULATIONS

1. All new and existing clubs and organizations are required to have the campus club and organization registration packet completed and turned into the main office by the end of the 3rd week of the first grading period. Active status for the current school year will be confirmed after these documents have been reviewed by the campus administration. Registration packets can be picked up in the main office during the first week of school.
2. All clubs and organizations are required to have certified teacher sponsors. These individuals are required to attend all school and community functions planned by that group. All club and organization meetings, events, and fundraising activities must be registered on the main club and organization calendar.
3. The principal will approve a constitution and/or by-laws.
4. An annual budget will be filed with the principal detailing revenue and expenditures. All financial accounts and files will be kept in the principal's office in accordance with Board policy.
5. The sponsor report for student organizations, listing membership and officer requirements, will be filed in the principal's office at the beginning of the school year.
6. All student participants must complete the "Student Agreement and Application for Membership in a Student Organization" form. The teacher sponsor must approve the application form before that student is allowed to participate in group meeting or activities.
7. Students who participate in extracurricular activities are representing Montgomery I.S.D. It is expected that all participants will behave in a respectful and appropriate manner at all group functions. Failure to do so will result in discipline procedures as outlined in the Student Code of Conduct.

A list of the clubs and organizations available are listed below.

GUIDELINES FOR FORMING A NEW CLUB OR ORGANIZATION

Students and/or staff who are interested in forming a new club or organization must obtain support of a minimum three lead teacher sponsors before attempting to register their group with administration. In addition, you must have a minimum of ten students sign a letter asking for the establishment of the club or organization. When those requirements are fulfilled, one of those sponsors can be appointed to meet with the administrator in charge to outline the goals and objectives of the group, meeting arrangements, and possible events and fundraisers to be conducted by that club or organization for that school year. For non-curriculum clubs the following **additional** criteria must be followed: Written parental permission is required for a student to participate in the club or organization, certification is required of all sponsor applicants seeking to form a non-curriculum related club under Board of Trustees Policy FNAB (local), and full compliance with Board of Trustees Policy FNAB (local). Only after approval from the administrator will the group then be issued the registration packet. The deadline for registration of all clubs and organizations are at the end of the 3rd week of the first grading period. The student/parent permission form, sponsor compliance form, and Board of Trustees Policy FNAB (local), Student Expression: Use of School Facilities for Non-school Purposes, are located in the appendix of this handbook.

EXTRACURRICULAR DISCIPLINE CODE

All students participating in extracurricular activities and representing Montgomery I.S.D. in such activities are expected to display exemplary conduct at all times. **If a student/member/athlete is involved in any incident on or off campus which results in their being ticketed or arrested in any misdemeanor or felony activity (for example M.I.P., P.I., etc.) the student may be immediately suspended from participation in any school extracurricular activity.** Students who commit such infractions and do not report them to the coach, sponsor, or director within the proper time frame will be excluded from the program for one calendar year (a review of the student's status will occur after 50% of their competitive season has been completed). This time begins when the coach, sponsor, or director becomes aware of the incident. This code pertains to extracurricular activities only and does not in any way take the place of the discipline management plan of MISD, but will work, at times, in

conjunction with the MISD Board Policy regarding student athlete discipline. Students missing contests because of DAEP placement will not be penalized twice for the same incident.

ELIGIBILITY FOR TRYOUTS:

To qualify for tryouts for extracurricular activities, a student:

1. Must be enrolled in M.I.S.D. at the time of the tryout.
2. Must make application and have approval by the respective sponsors before signing up for any of these activities or organizations.

Students assigned to any of the District's alternative education programs or who have been suspended or expelled will not be allowed to practice, participate or attend extracurricular activities.

Students shall be permitted to participate in extracurricular activities, subject to the following restrictions:

1. A student who is enrolled in a school district in this state or who participates in a University Interscholastic League competition shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the school district or the University Interscholastic League after a grade evaluation period in which the student receives a grade lower than the equivalent of 70 on a scale of 100 in any academic class other than an identified advanced class. A suspension continues until eligibility reinstatement occurs. The school district shall review the grades of a student suspended at the end of the evaluation period following the date on which the suspension began. At the time of a review, the suspension is removed if the student's grade in every class is equal to or greater than the equivalent of 70 on a scale of 100. The principal and each of the student's teachers shall make the determination concerning the student's grades.
2. Students are permitted up to 7 absences in any one semester, not to exceed 10 absences for the year, in order to participate in school-related or school-sanctioned activities on or off campus.
3. Students must be in attendance at least half a day prior to participation or departure for participation in any school sponsored activity or practice that day and on Friday for weekend activities. An exception may be made if a student presents a doctor's note verifying that he/she was in the office for medical treatment. Students who are absent from school may not attend or participate in after school practice or events. Extenuating circumstances will be reviewed by the principal.

Eligibility For Interscholastic Competition

Students in grades 7 through 12 may participate in extracurricular activities on-campus or off campus at the beginning of the school year only if they have earned the cumulative number of credits in state-approved courses as indicated below, with the exception of special education students whose status is defined by the ARD committee and their own IEP's.

1. Beginning in Grade 7 and continuing through Grades 8 and 9: must have been promoted from

previous grade, not placed.

2. Beginning in Grade 10 or the second year of high school (Grades 9 through 12): must have earned five (5) state credits.
3. Beginning in the third year of high school: must have earned ten (10) state credits or must have earned five (5) state credits during the preceding 12 months.
4. Beginning in the fourth year of high school: must have earned 15 state credits or must have earned five (5) state credits during the preceding 12 months.

Credits earned in summer school or in correspondence may be used to determine eligibility.

A student who receives at the end of a grading period a grade below 70 (grade below 65 in an advanced placement, or an honors or a dual credit course in English/ Language Arts, mathematics, science, social studies, economics, or a foreign language) in any academic class may not participate in extra-curricular activities for at least three school weeks. The student becomes ineligible seven (7) days after the last day of the six-weeks grading period.

A student regains eligibility seven calendar days after the three school week evaluation period, if the student is passing all courses on the last class day of the three school week period. The student's work is evaluated from the first class day of the new grading period to the end of the three school week evaluation period. If the student has at least a minimum grade of 70 on a scale of 70 -100 for work done since the end of the previous grading period, the student may regain eligibility seven calendar days later at the time the regular school day ends. Parents and students are encouraged to consult the coach/sponsor if there is a question.

Note: Schools taking breaks of one week or more are reminded that those weeks do not count as part of this period. All students are eligible during this time.

Students who assist the sponsor or coach, such as student managers, must meet all academic eligibility requirements even though they do not participate in the performance or contest.

Students must be in attendance at least one-half day prior to competition or practice to be eligible for either practice or activity. A student receiving a course grade of I (Incomplete, pending completion of required work) is considered ineligible until the I is replaced with a passing grade for that grading period.

Fees

Materials that are part of the basic educational program are provided with state and local funds at no charge to a student. A student, however, is expected to provide his or her own pencils, paper, erasers, and notebooks and may be required to pay certain other fees or deposits, including:

- Costs for materials for a class project that the student will keep.

- Membership dues in voluntary clubs or student organizations and admission fees to extracurricular activities.
- Security deposits.
- Personal physical education and athletic equipment and apparel.
- Voluntarily purchased pictures, publications, yearbooks, class rings, etc.
- Voluntarily purchased student accident insurance and insurance on school-owned instruments.
- Musical instrument rental and uniform maintenance, when uniforms are provided by the district.
- Parking fees and student identification cards.
- Fees for lost, damaged, or overdue library books and school owned equipment.
- Summer school for courses that are offered tuition-free during the regular school year.
- Official transcript request, \$3.00, done through campus website; Need My Transcript
- In some cases, a fee for a course taken through the Texas Virtual School Network (TxVSN).

Any required fee or deposit may be waived if the student and parent are unable to pay. Application for such a waiver may be made to the principal. [For further information, see policy FP.]

Field Trips

Students will be provided the chance to participate in field trips when possible. Field trips are privileges students earn by displaying appropriate behavior. In order to be eligible to participate in a field trip, a student must have a permission form for the specific field trip signed by a parent or guardian.

Students who participate in school-sponsored trips are required to use transportation provided by the school to and from the event. The principal, however, may make an exception if the parent personally requests that the student be permitted to ride with the parent, or the parent presents, no later than the day before the scheduled trip, a written request that the student be permitted to ride with an adult designated by the parent.

Fundraising

Student groups or classes and/or parent groups may be permitted to conduct two fundraising drives for approved school purposes in accordance with administrative regulations. An application for permission must be made to the Principal at least ten (10) days before the event. [For further information, see policies FJ and GE.]

Gifts/Flowers/Messages

No gifts or flowers will be accepted for delivery. Only emergency messages will be delivered to students. Classes will not be interrupted for delivery of non-emergency information.

Grading Guidelines

Grading guidelines for each grade level or course will be communicated and distributed to students and their parents by the classroom teacher. These guidelines have been reviewed by each applicable curriculum department and have been approved by the campus principal. These guidelines establish the minimum number of assignments, projects, and examinations required for each grading period. In addition, these guidelines establish how the student's mastery of concepts and achievement will be communicated (i.e., letter grades, numerical averages, checklist of required skills, etc.). Grading guidelines also outline in what circumstances a student will be allowed to redo an assignment or retake an examination for which the student originally made a failing grade. Procedures for a student to follow after an absence will also be addressed. Departmental grading procedures will be available for parents and students on the course syllabus, teacher websites, and Meet the Teacher night.

[See **Report Cards/Progress Reports and Conferences** for additional information on grading guidelines.]

Grade-Level Classification

After the ninth grade, students are classified according to the number of credits earned toward graduation. Classification is based on the number of credits earned at the beginning of each school year.

Credits Earned	Classification
0 – 5.5	Grade 9 (Freshman)
6 – 12.5 and 2 nd year in High School	Grade 10 (Sophomore)
13 – 17.5 and 3 rd year in High School	Grade 11 (Junior)
18 – 25.5 and 4 th year in High School	Grade 12 (Senior)

Parents of a student at any grade level at or above grade 3 who does not perform satisfactorily on his or her state-mandated exams will be notified that their child will participate in special instructional programs designed to improve performance. The student may be required to participate in this instruction before or after normal school hours or outside of the normal school year. Failure of a student to attend these programs may result in violations of required school attendance as well as the student not being promoted to the next grade level.

Graduation

Requirements for a Diploma

A student must meet the following requirements to receive a high school diploma from the district:

- Achieve passing scores on certain end-of-course (EOC) assessments or approved substitute assessments, unless specifically waived as permitted by state law;

- Complete the required number of credits established by the state and any additional credits required by the district;
- Complete any locally required courses in addition to the courses mandated by the state;
- Demonstrate proficiency, as determined by the district, in the specific communication skills required by the State Board of Education (SBOE); and
- Complete and submit a free application for federal student aid (FAFSA) or a Texas application for state financial aid (TASFA).

Students with Disabilities

Admission, review, and dismissal (ARD) committees will make instructional and assessment decisions for students with disabilities who receive special education services in accordance with state law.

Upon the recommendation of the ARD committee, a student with a disability who receives special education services may be permitted to graduate under the provisions of his or her individualized education program (IEP) and in accordance with state rules.

A student who receives special education services may earn an endorsement under the foundation program. If the student's curriculum requirements for the endorsement were modified, the student's ARD committee will determine whether the modified curriculum is sufficiently rigorous to earn the endorsement. The ARD committee must also determine whether the student must perform satisfactorily on any end-of-course assessment to earn an endorsement.

A student who receives special education services and has completed four years of high school but has not met the requirements of his or her IEP may participate in graduation ceremonies and receive a certificate of attendance. The student may then remain enrolled to complete the IEP and earn his or her high school diploma but will only be allowed to participate in one graduation ceremony.

[See policy **FMH(LEGAL)** for more information.]

Seniors transferring into Montgomery I.S.D. during the school year must meet the State of Texas graduation requirements as well as M.I.S.D. in order to receive a diploma from a Montgomery I.S.D. High School.

Testing Requirements for Graduation

Students are required, with limited exceptions and regardless of graduation program, to perform satisfactorily on EOC assessments in:

- English I,
- English II,
- Algebra I,
- Biology, and
- U.S. History.

A student who does not achieve a sufficient score will have opportunities to retake an assessment.

State law allows a student to meet EOC requirements by substituting satisfactory performance on approved national standardized assessments or on the state-developed assessment used for entrance into Texas public universities. [See the school counselor for more information on the state testing requirements for graduation.]

If a student fails to perform satisfactorily on an EOC assessment, the district will provide remediation in the applicable content area. This may require the student's participation outside normal school operating times.

In limited circumstances, a student who fails to demonstrate proficiency on two or fewer of the required assessments may still be eligible to graduate if an individual graduation committee, formed in accordance with state law, unanimously determines that the student is eligible to graduate.

Foundation Graduation Program

Every Texas public school student will graduate under the foundation graduation program. The foundation graduation program features endorsements, which are paths of interest that include:

- Science, Technology, Engineering, and Mathematics (STEM);
- Business and Industry;
- Public Service;
- Arts and Humanities; and
- Multidisciplinary Studies.

Endorsements earned by a student will be noted on the student's transcript.

A student can complete the foundation graduation program with a "distinguished level of achievement," which reflects the completion of at least one endorsement and Algebra II as one of the required advanced mathematics credits.

A Personal Graduation Plan will be completed for each high school student, as described on page 99.

State law generally prohibits a student from graduating solely under the foundation graduation program without an endorsement. However, after the student's sophomore year, the student and student's parent may request that the student graduate without an endorsement. The district will advise the student and the student's parent of the specific benefits of graduating with an endorsement. The student and the student's parent must then submit written permission to the school counselor for the student to graduate without an endorsement.

A student who wishes to attend a four-year university or college after graduation must carefully consider whether graduation under the foundation program without an endorsement will satisfy the admission requirements of the student's desired college or university.

A student graduating under the foundation graduation program can also earn performance acknowledgments on his or her transcript. Performance acknowledgments are available for outstanding performance in bilingualism and biliteracy, in a dual credit course, on an AP or IB examination, on certain national college preparatory and readiness or college entrance examinations, or for earning a license or certificate recognized at the state, national, or international level. The school counselor can provide more information about these acknowledgments.

A student is not required to complete an Algebra II course to graduate under the foundation graduation program, and the district will annually notify a student’s parent of this fact. However, not taking Algebra II will make a student ineligible for automatic admission to four-year public universities and colleges in Texas and for certain financial aid and grants while attending those institutions.

A school district will permit a student to satisfy the curriculum requirements for graduation under the foundation program with the distinguished level of achievement, including an endorsement, by successfully completing courses in the core curriculum of a public Texas institution of higher education. Please see your counselor for more information.

Credits Required

	Number of Credits: Foundation Graduation Program	Number of Credits: Foundation Graduation Program with an Endorsement
The foundation graduation program requires completion of the following credits: Course Area		
English/Language Arts	4	4
Mathematics	3	4
Science	3	4
Social Studies	3	3
Physical Education	1	1
Languages other than English	2	2
Fine Arts	1	1
Electives	5	7
Total	22 credits	26 credits

Additional considerations apply in some course areas, including:

- Mathematics. To obtain the distinguished level of achievement under the foundation graduation program, a student must complete an endorsement and take Algebra II as one of the 4 mathematics credits. A student's completion of the distinguished level of achievement is a requirement to be considered for automatic admission to a Texas four-year college or university and will be included on a student's transcript.
- Physical education. A student who is unable to participate in physical activity due to a disability or illness may be able to substitute a course in English language arts, mathematics, science, social studies, or another locally determined credit-bearing course for the required credit of physical education. This determination will be made by the student's ARD committee, Section 504 committee, or other campus committee, as applicable.
- Languages other than English. Students are required to earn 2 credits in the same language other than English to graduate. Any student may substitute computer programming languages for these credits.
- A student may satisfy one of the 2 required credits by successfully completing in elementary school a dual language immersion program or a course in American Sign Language.
- In limited circumstances, a student may be able to substitute this requirement with other courses, as determined by a district committee authorized by law to make these decisions for the student.

Available Endorsements

A student must specify upon entering grade 9 which endorsement he or she wishes to pursue.

FAFSA or TASFA Financial Aid Application Requirement

Before graduating from high school, each student must complete and submit an application for financial aid for post-secondary education. Students must complete and submit either a free application for federal student aid (FAFSA) or a Texas application for state financial aid (TASFA).

A student is not required to complete and submit a FAFSA or TASFA if:

- The student's parent submits a form provided by the district indicating that the parent authorizes the student to opt out;
- A student who is 18 years of age or older or a legally independent minor submits a form provided by the district indicating that the student opts out; or
- A school counselor authorizes the student to opt out for good cause.

Please contact the school counselor for more information.

The district will confirm that a student has completed and submitted a FAFSA in accordance with TEA guidance. To confirm that a student has completed and submitted a TASFA, the student must submit: [describe what the student must submit to prove that he or she has completed the TASFA.]

- A screenshot that includes the processed date field of the FAFSA ApplyTexas Counselor Suite;
- Notification, such as a copy of an email, from the United States Department of Education verifying completion of the FAFSA;
- A copy or screenshot of the FAFSA acknowledgment page;
- A screenshot of the TASFA submission acknowledgment page (from those institutions that offer an electronic form);
- An acknowledgment receipt from an institution of higher education (IHE); or
- A copy of a financial aid award letter from an IHE.

Personal Graduation Plans

A personal graduation plan will be developed for each high school student.

The district encourages all students to pursue a personal graduation plan that includes the completion of at least one endorsement and to graduate with the distinguished level of achievement. Attainment of the distinguished level of achievement entitles a student to be considered for automatic admission to a public four-year college or university in Texas, depending on his or her rank in class.

The school will review personal graduation plan options with each student entering grade 9 and his or her parent. Before the end of grade 9, a student and his or her parent will be required to sign off on a personal graduation plan that promotes college and workforce readiness, promotes career placement and advancement, and facilitates the transition from secondary to postsecondary education.

The student's personal graduation plan will outline an appropriate course sequence based on the student's choice of endorsement.

Please review TEA's Graduation Toolkit (<https://tea.texas.gov/about-tea/news-and-multimedia/brochures/tea-brochures>).

A student may, with parental permission, amend his or her personal graduation plan after the initial confirmation.

Available Course Options for all Graduation Programs

Each spring, the district will update students on the courses required or offered in each curriculum area so students can enroll for the upcoming school year.

Note: The district may require the completion of certain courses for graduation even if these courses are not required by the state for graduation.

Not all courses are offered at every secondary campus in the district. A student who wants to take a course not offered at his or her regular campus should contact the school counselor about a transfer or other alternatives. If the parents of at least 22 students request a transfer for a course in the required curriculum other than fine arts or career and technical education (CTE), the district will offer the course the following year either by teleconference or at the school from which the transfers were requested.

Hazing

Hazing is defined by Section 37.151 of the Education Code as an intentional, knowing, or reckless act, on or off campus, by one person alone or acting with others, directed against a student for the purpose of pledging, initiation into, affiliation with, holding office in, or maintaining membership in a student organization if the act meets the elements in Education Code 37.151, including:

- Any type of physical brutality;
- An activity that subjects the student to an unreasonable risk of harm or that adversely affects the student's mental or physical health, such as sleep deprivation, exposure to the elements, confinement to small spaces, calisthenics, or consumption of food, liquids, drugs, or other substances;
- An activity that induces, causes, or requires the student to perform a duty or task that violates the Penal Code; and
- Coercing a student to consume a drug or alcoholic beverage in an amount that would lead a reasonable person to believe the student is intoxicated.

Hazing will not be tolerated by the district. If an incident of hazing occurs, disciplinary consequences will be handled in accordance with the Student Code of Conduct. It is a criminal offense if a person engages in hazing; solicits, encourages, directs, aids, or attempts to aid another in hazing; or has firsthand knowledge of an incident of hazing being planned or having occurred and fails to report this to the principal, superintendent, or law enforcement official.

[See **Bullying** and policies FFI and FNCC.]

Health-Related Matters

Bacterial Meningitis

Please see the district's website at www.misd.org under the Parent Information tab for information regarding meningitis.

[See **Immunization** for more information.]

Diabetes

In accordance with a student's individual health plan for management of diabetes, a student with diabetes will be permitted to possess and use monitoring and treatment supplies and equipment while at school or at a school-related activity. See the school nurse or principal for information. [See policy FFAF(LEGAL) for more information.]

Food Allergies (All Grade Levels)

The district requests to be notified when a student has been diagnosed with a food allergy, especially those allergies that could result in dangerous or possibly life-threatening reactions either by breathing, eating, or touching the particular food. It is important to disclose the food to which the student is allergic, as well as the nature of the allergic reaction. If your child has a known food allergy, complete the Food Allergy/Disability Substitution Request, along with physician's signature. The form can be found online at www.misd.org under "District Services", "Child Nutrition" or obtained from the campus.

The district has developed and annually reviews a food allergy management plan, which addresses employee training, dealing with common food allergens, and specific strategies for dealing with students diagnosed with severe food allergies. When the district receives information that a student has a food allergy that puts the student at risk for anaphylaxis, individual care plans will be developed to assist the student in safely accessing the school environment. The district's food allergy management plan can be accessed at www.misd.org.

[See policy FFAF and **Celebration**.]

Head Lice

Head lice is very common among children. Although not an illness or a disease, head lice spread through head-to-head contact during play, sports, nap time, and when children share things like brushes, combs, hats, and headphones.

If careful observation indicates that a student has head lice, the school nurse will contact the student's parent to determine whether the student needs to be picked up from school and to discuss a treatment plan using an FDA-approved medicated shampoo or cream rinse that may be purchased from any drug or grocery store. After the student undergoes one treatment, the parent should contact the school nurse to discuss the treatment used. The nurse can also offer additional

recommendations, including subsequent treatments, how best to get rid of lice, and how to prevent their return.

More information on head lice can be obtained from the DSHS website [Managing Head Lice in School Settings and at Home](#).

[See policy FFAA for more information.]

Immunization

In accordance with the Texas Department of Health the following immunizations will be required prior to student's enrollment in Montgomery ISD. Additional vaccines may be recommended during the year. **If students do not comply with the immunization schedule, he/she may be excluded from school.** Please contact the school nurses if you have questions.

This chart summarizes the vaccine requirements incorporated in Title 25 Health Services, §§ 97.61-97.72 of the Texas Administrative Code (TAC).

This chart is not intended as a substitute for consulting the TAC, which has other provisions and details. The Department of State Health Services is granted authority to set immunization requirements by the Education Code, Chapter 38, Health & Safety, Subchapter A, General Provisions.

2023-2024 Texas Minimum State Vaccine Requirements for Students Grades K - 12

This chart summarizes the vaccine requirements incorporated in the Texas Administrative Code (TAC), Title 25 Health Services, §§97.61-97.72. This document is not intended as a substitute for the TAC, which has other provisions and details. The Department of State Health Services (DSHS) is granted authority to set immunization

requirements by the Texas Education Code, Chapter 38.

IMMUNIZATION REQUIREMENTS

A student shall show acceptable evidence of vaccination prior to entry, attendance, or transfer to a public or private elementary or secondary school in Texas.

Vaccine Required (Attention to notes and footnotes)	Minimum Number of Doses Required by Grade Level												Notes

² Serologic evidence of infection or serologic confirmation of immunity to measles, mumps, rubella, hepatitis B, hepatitis A, or varicella is acceptable in place of vaccine.

³ Previous illness may be documented with a written statement from a physician, school nurse, or the child's parent or guardian containing wording such as: "This is to verify that (name of student) had varicella disease (chickenpox) on or about (date) and does not need varicella vaccine." This written statement will be acceptable in place of any and all varicella vaccine doses required.

Information on exclusions from immunization requirements, provisional enrollment, and acceptable documentation of immunizations may be found in §97.62, §97.66, and §97.68 of the Texas Administrative Code, respectively and online at <https://www.dshs.texas.gov/immunize/school/default.shtm>.

Exemptions

Texas law allows (a) physicians to write medical exemption statements which clearly state a medical reason exists that the person cannot receive specific vaccines, and (b) parents/guardians to choose an exemption from immunization requirements for reasons of conscience, including a religious belief. The law does not allow parents/guardians to elect an exemption simply because of inconvenience (for example, a record is lost or incomplete and it is too much trouble to go to a physician or clinic to correct the problem). Schools should maintain an up-to-date list of students with exemptions, so they may be excluded in times of emergency or epidemic declared by the commissioner of public health.

Instructions for requesting the official exemption affidavit that must be signed by parents/guardians choosing the exemption for reasons of conscience, including a religious belief, can be found at www.dshs.texas.gov/immunize/school/exemptions.aspx. The original Exemption Affidavit must be completed and submitted to the school.

For children claiming medical exemptions, a written statement by the physician must be submitted to the school. Unless it is written in the statement that a lifelong condition exists, the exemption statement is valid for only one year from the date signed by the physician.

Provisional Enrollment

All immunizations must be completed by the first date of attendance. The law requires that students be fully vaccinated against the specified diseases. A student may be enrolled provisionally if the student has an immunization record that indicates the student has received at least one dose of each specified age-appropriate vaccine required by this rule. Student must not be overdue for the next dose in a series to be considered provisional. To remain enrolled, the student must complete the required subsequent doses in each vaccine series on schedule and as rapidly as is medically feasible and provide acceptable evidence of vaccination to the school.

A school nurse or school administrator shall review the immunization status of a provisionally enrolled student every 30 days to ensure continued compliance in completing the required doses of vaccination. If, at the end of the 30-day period, a student has not received a subsequent dose of vaccine, the student is not in compliance and the school shall exclude the student from school attendance until the required dose is administered.

Additional guidelines for provisional enrollment of students transferring from one Texas public or private school to another, students who are dependents of active duty military, students in foster care, and students who are homeless can be found in the TAC, Title 25 Health Services, Sections 97.66 and 97.69.

Documentation

Since many types of personal immunization records are in use, any document will be acceptable provided a physician or public health personnel has validated it. Validation includes a signature, initials, or stamp. An immunization record generated from an electronic health record must include clinic contact information and the provider's signature/stamp, along with the vaccine name and vaccination date (month, day, and year). An official record generated from a health authority is acceptable. An official record received from school officials, including a record from another state is acceptable.

Medicine at School

1. A **parent** must deliver a prescription or non-prescription medication in its original, labeled container to the nurse or designee if the student needs to take the medication during the school day. The parent must complete the Medication Permission Form found in the appendix. If the medication is a prescription drug that is to be taken longer than two weeks, the physician must also sign the Medication Permission Form.
2. **All medication must be brought to school and picked up by a parent (legal guardian). No medicines of any kind will be allowed on a school bus, car, locker or in a student's possession. Any violation will result in disciplinary consequences. The district will not purchase medication to give to a student.**
3. All medications must be in its original container. If medication is sent to school loose in a baggie, envelope, etc., it will be disposed of and the student will receive a consequence.
4. At the end of the school year, all medications will be disposed of if not picked up by the parent. A new medication along with a signed Medication Permission Form is required each school year.
5. If a student is coming to the Nurse's Station on a frequent basis asking to take Tylenol or other over-the-counter medication which the parent has brought for them, the parent will be notified regarding possible overuse of such a medication and the possible need for the child to be seen by their doctor.
6. If a student is taking a prescription medication and for a medical reason, the time or dosage is changed by the doctor, a letter of authorization from the doctor must be given to the nurse before she can make such a change in handling the way the student is receiving medication.
7. If a student needs to leave the classroom on a frequent basis due to a medical condition, the nurse will need to be contacted. If more than one day is involved, a medical authorization must be signed by the student's physician.
8. Bottles or cups of water will not be allowed in the classrooms. If a student needs to drink water on a regular basis due to some medical condition, then a doctor's authorization must be brought to the Nurse's Station. A parent's request will be granted on a one-day only basis.
9. For the safety of the student, we encourage parents to not give permission for their children to leave campus to take medicine, change clothes, or other personal reasons. Parent assistance in keeping students on campus is greatly appreciated.
10. The student may return to school when they are disease free, free of fever for 24 hours, and medicated for the required length of time as specified by your doctor. If diagnosed with meningitis, mononucleosis, or conjunctivitis (pink eye), a physician's letter of authorization stating that the child may return to school must be brought to the nurse at the time of returning to class.
11. Herbal medicines such as St. John's Wort, over-the-counter diet medications and steroids for bodybuilding, etc. will not be accepted in the Nurse's Station unless accompanied by a letter of authorization by the physician and co-signed by the parent.
12. Students may carry respiratory inhalers for asthma with them if their physician has requested in writing that the student may do so, the inhaler has the student's prescription label on it, if a second labeled inhaler is kept in the nurse's office for emergencies, if the student can demonstrate the

correct use of the inhaler to the nurse, and if the parent has completed a permission to medicate form and filed it with the nurse.

13. Montgomery ISD strongly discourages the use of prescription pain medication by our students during school hours. It is our feeling that a student in pain should be kept home under the supervision of the parent until his/her pain is relieved. Often students taking pain medication at school other than Tylenol, aspirin, or ibuprofen are not able to stay awake in class. This does not benefit the student. We are also concerned for their safety while under the influence of the pain medication.
14. An elementary or secondary student may possess and self-apply sunscreen to avoid overexposure to the sun. An elementary student's teacher or other district personnel will apply sunscreen to the student's exposed skin if the student brings the sunscreen to school and asks for help applying it. If a secondary student needs assistance with sunscreen application, please address the need with the school nurse.

Medical Restriction of Activities

Students may be restricted from physical activity in physical education classes. For permanent restrictions, a physician licensed to practice in Texas shall provide written documentation to the school as to the nature of the impairment and expectations for physical activity for the student. For temporary restrictions, less than four (4) weeks, a physician licensed to practice in Texas shall provide written documentation of the nature of the temporary impairment and the expected time for recovery. During the recovery time, the student shall continue to learn the concepts of the lessons but shall not actively participate in the skills demonstration. Physical activities which may serve as waivers for physical education are: Drill Team, Dance and Marching Band (in the fall semester).

Unassigned Epinephrine Auto-Injectors

In accordance with Chapter 38, Subchapter E of the Education Code, the board has adopted a policy to allow authorized [school personnel and/or school volunteers] who have been adequately trained to administer an unassigned epinephrine auto-injector to a person who is reasonably believed to be experiencing a severe allergic reaction (anaphylaxis).

An "unassigned epinephrine auto-injector" is an epinephrine auto-injector prescribed by an authorized health-care provider in the name of the school issued with a non-patient-specific standing delegation order for the administration of an epinephrine auto-injector.

Epinephrine auto-injectors include brand-name devices such as EpiPens®.

Authorized and trained individuals may administer an epinephrine auto-injector at any time to a person experiencing anaphylaxis on a school campus.

The district will ensure that at each campus a sufficient number of [school personnel and/or school volunteers] are trained to administer epinephrine so that at least one trained individual is present on

campus during regular school hours and whenever school personnel are physically on site for school-sponsored activities.

Authorized and trained individuals may administer an unassigned epinephrine auto-injector to a person experiencing anaphylaxis ([at an off-campus school event or while in transit to or from a school event]) when an unassigned epinephrine auto-injector is available.

For additional information, see FFAC (LOCAL).

Unassigned Prescription Asthma Medication

In accordance with Chapter 38, Subchapter E of the Education Code, the board has adopted a policy to allow a school nurse to administer an unassigned prescription asthma medication on a school campus to a student with diagnosed asthma if the nurse, in his or her professional judgment, reasonably believes the student is experiencing symptoms of asthma that warrant administration of the medication and the district has obtained prior written consent from the student's parent or guardian.

The school nurse may only administer unassigned prescription asthma medication to a student on a school campus. Please be aware that a school nurse will not always be available at a campus to administer this medication.

“Unassigned asthma medication” means a fast-acting bronchodilator delivered by metered dose inhaler with single use spacer or by nebulizer as a rescue medication, prescribed by an authorized health-care provider in the name of the district with a non-patient-specific standing delegation order for the administration of an asthma medication, and issued by an authorized health-care provider.

For additional information, see FFAC(LOCAL).

Physical Activity Requirements

The district will ensure that students in middle or junior high school will engage 30 minutes of moderate or vigorous physical activity per day for at least four semesters.

For additional information on the district's junior high and middle school student physical activity programs and requirements, please see the principal.

Mental Health Support

The district has implemented programs to address the following mental health, behavioral health, and substance abuse concerns:

- Mental health promotion and early intervention;
- Building skills to manage emotions, establish and maintain positive relationships, and engage in responsible decision-making;

- Substance abuse prevention and intervention;
- Suicide prevention, intervention, and post-vention (interventions after a suicide in a community);
- Grief, trauma, and trauma-informed care;
- Positive behavior interventions and supports;
- Positive youth development; and
- Safe, supportive, and positive school climates.

If a student has been hospitalized or placed in residential treatment for a mental health condition or substance abuse, the district has procedures to support the student's return to school. Please contact the district's mental health liaison for further information.

Teachers and other district employees may discuss a student's academic progress or behavior with the student's parents or another employee as appropriate; however, they are not permitted to recommend use of psychotropic drugs. A psychotropic drug is a substance used in the diagnosis, treatment, or prevention of a disease or as a component of a medication that is intended to alter perception, emotion, mood, or behavior.

A district employee who is a registered nurse, an advanced nurse practitioner, a physician, or a certified or credentialed mental health professional can recommend that a student be evaluated by an appropriate medical practitioner, if appropriate. [See policy FFEB for more information.]

For related information, see handbook sections:

- **Consent to Conduct a Psychological Evaluation or Provide a Mental Health Care Service**
- **Counseling** for the district's comprehensive school counseling program;

- **Policies and Procedures that Promote Student Physical and Mental Health** for board-adopted policies and administrative procedures that promote student health.

School Health Advisory Council (SHAC)

During the preceding school year, the district's School Health Advisory Council (SHAC) held 4 meetings. Additional information regarding the district's SHAC is available from the Assistant Superintendent of Student Services and Innovation at (936) 276-2140.

Notification of upcoming SHAC meetings will be posted at each campus administrative office at least 72 hours before the meeting. Notification of upcoming SHAC meetings, meeting minutes, and a recording of each meeting will be posted on the district website at www.misd.org.

[See **Consent to Human Sexuality Instruction, Consent to Instruction on Prevention of Child Abuse, Family Violence, Dating Violence, and Sex Trafficking**, and policies at BDF and EHAA.]

Seizures

To address the care of a student with a seizure disorder while at school or participating in a school activity, a parent may submit a seizure management and treatment plan to the district before the beginning of the school year or upon enrollment of the student, or as soon as practicable following a diagnosis of a seizure disorder for the student. For more information, contact the school nurse.

For more information, see “**A Student with Physical or Mental Impairments Protected under Section 504**”.

Serving the Special Dietary Needs of Students

Students with disabilities who require changes to the basic meal are required to provide documentation with accompanying instructions from a licensed physician.

Students without disabilities requiring food substitutions or modifications may request that the Child Nutrition Department meet their special nutrition needs. The district will decide these situations on a case by case basis.

Please complete the Physician’s form – Food/Allergy/Disability Substitution Request located on the MISD web site (www.misd.org) under District Services/Child Nutrition.

The form can be faxed to Montgomery ISD Child Nutrition Department at (936) 276-2600 or mailed to Montgomery ISD, Attn: Child Nutrition Department, 20774 Eva Street, Montgomery, Texas 77356. Please provide a parent/guardian contact number. Child Nutrition provides the completed form to the school nurse.

Student Illness

When your child is ill, please contact the school to let us know he or she won’t be attending that day. It is important to remember that schools are required to exclude students with certain illnesses from school for periods of time as identified in state rules. For example, if your child has a fever over 100 degrees, he or she must stay out of school until fever-free for 24 hours without fever-reducing medications. In addition, students with diarrheal illnesses must stay home until they are diarrhea free without diarrhea-suppressing medications for at least 24 hours. A full list of conditions for which the school must exclude children can be obtained from the school nurse.

A parent should contact the school nurse if a student has been diagnosed with COVID-19.

If a student becomes ill during the school day, he or she must receive permission from the teacher before reporting to the school nurse. If the nurse determines that the child should go home, the nurse will contact the parent.

The district is also required to report certain contagious (communicable) diseases or illnesses to the Texas Department of State Health Services (DSHS) or our local/regional health authority. The school nurse can provide information from DSHS on these notifiable conditions.

Contact the school nurse if you have questions or if you are concerned about whether or not your child should stay home.

Student Wellness Policy/Wellness Plan

Montgomery I.S.D. is committed to encouraging healthy students and therefore has developed a board-adopted wellness policy at FFA(LOCAL) and corresponding plans and procedures to implement the policy. You are encouraged to contact the Director of Special Programs, with questions about the content or implementation of the district's wellness policy and plan.

Other Health-Related Matters

Asbestos Management Plan

The district works diligently to maintain compliance with federal and state law governing asbestos in school buildings. A copy of the district's Asbestos Management Plan is available in the superintendent's office. If you have any questions or would like to examine the district's plan in more detail, please contact Joe Kinard, the district's designated asbestos coordinator, at (936) 276-2360.

Pest Management Plan

The district is required to follow integrated pest management (IPM) procedures to control pests on school grounds. Although the district strives to use the safest and most effective methods to manage pests, including a variety of non-chemical control measures, pesticide use is sometimes necessary to maintain adequate pest control and ensure a safe, pest-free school environment.

All pesticides used are registered for their intended use by the U.S. Environmental Protection Agency and are applied only by certified pesticide applicators. Except in an emergency, signs will be posted 48 hours before indoor application. All outdoor applications will be posted at the time of treatment, and signs will remain until it is safe to enter the area. Parents who have further questions or who want to be notified prior to pesticide application inside their child's school assignment area may contact Joe Kinard, the district's IPM coordinator, at (936) 276-2360.

Physical Fitness Assessment

Annually, the district will conduct a physical fitness assessment of students in grades 3–12 who are enrolled in a physical education course or a course for which physical education credit is awarded. At the end of the school year, a parent may submit a written request to their principal to obtain the results of his or her child's physical fitness assessment conducted during the school year.

Steroids

State law prohibits students from possessing, dispensing, delivering, or administering an anabolic steroid. Anabolic steroids are for medical use only, and only a physician can prescribe use.

Body building, muscle enhancement, or the increase of muscle bulk or strength through the use of an anabolic steroid or human growth hormone by a healthy student is not a valid medical use and is a criminal offense.

Students participating in UIL athletic competition may be subject to random steroid testing.

Tobacco and E-Cigarettes Prohibited

Students are prohibited from possessing or using any type of tobacco product, electronic cigarettes (e-cigarettes), or any other electronic vaporizing device (Vapes), while on school property at any time or while attending an off-campus school-related activity.

The district and its staff strictly enforce prohibitions against the use of all tobacco products, e-cigarettes, or any other electronic vaporizing device, by students and all others on school property and at school-sponsored and school-related activities. [See the Student Code of Conduct and policies at FNCD and GKA.]

Vending Machines

The district has adopted and implemented the state and federal policies and guidelines for food service, including the guidelines to restrict student access to vending machines. For more information regarding these policies and guidelines, please contact Pamela Mallory, Director of Child Nutrition at (936) 276-2600. [See policies at CO and FFA.]

In addition, the District Improvement Plan details the district's strategies to improve student performance through evidence-based practices that address physical and mental health.

The district has developed administrative procedures as necessary to implement the above policies and plans.

Please contact the Assistant Superintendent of Student Services at 936-276-2000 for further information regarding these procedures and access to the District Improvement Plan.

Homework

Homework will be assigned in classes according to departmental policy.

Late Work

At Montgomery I.S.D. High Schools we don't encourage late work and students won't receive full credit for late work; however, we do want them to gain full knowledge of the subject matter. Assignments are expected to be turned in on the due date set by the teacher to avoid a grade penalty. Our goal will be for all of our students to learn at the highest levels of their capabilities. The

late work policy is found on your child's teachers' website. Go to misd.org and to the Montgomery I.S.D. School campus site you attend. This is not to be confused with the make-up work policy that applies to assignments missed during absences (see Make-Up Work).

Law Enforcement Agencies

Questioning of Students

When law enforcement officers or other lawful authorities wish to question or interview a student at school, the principal will cooperate fully regarding the conditions of the interview, including without parental consent, if necessary, if the questioning or interview is part of a child abuse investigation. In other circumstances:

- The principal will verify and record the identity of the officer or other authority and ask for an explanation of the need to question or interview the student at school.
- The principal ordinarily will make reasonable efforts to notify the parents unless the interviewer raises what the principal considers to be a valid objection.
- The principal ordinarily will be present unless the interviewer raises what the principal considers to be a valid objection.

Students Taken Into Custody

State law requires the district to permit a student to be taken into legal custody:

- To comply with an order of the juvenile court.
- To comply with the laws of arrest.
- By a law enforcement officer if there is probable cause to believe the student has engaged in delinquent conduct or conduct in need of supervision.
- By a law enforcement officer to obtain fingerprints or photographs for comparison in an investigation.
- By a law enforcement officer to obtain fingerprints or photographs to establish a student's identity, where the child may have engaged in conduct indicating a need for supervision, such as running away.
- By a probation officer if there is probable cause to believe the student has violated a condition of probation imposed by the juvenile court.
- By an authorized representative of Child Protective Services (CPS), Texas Department of Family and Protective Services (DFPS), a law enforcement officer, or a juvenile probation officer, without a court order, under the conditions set out in the Family Code relating to the student's physical health or safety.
- To comply with a properly issued directive from a juvenile court to take a student into custody.

Before a student is released to a law enforcement officer or other legally authorized person, the principal will verify the officer's identity and, to the best of his or her ability, will verify the official's authority to take custody of the student.

The principal will immediately notify district personnel and will ordinarily attempt to notify the parent unless the officer or other authorized person raises what the principal considers to be a valid objection to notifying the parents. Because the principal does not have the authority to prevent or delay a student's release to a law enforcement officer, any notification will most likely be after the fact.

Notification of Law Violations

The district is required by state law to notify:

- All instructional and support personnel who have responsibility for supervising a student who has been taken into custody, arrested, or referred to the juvenile court for any felony offense or for certain misdemeanors.
- All instructional and support personnel who have regular contact with a student who has been convicted, received deferred prosecution, received deferred adjudication, or was adjudicated for delinquent conduct for any felony offense or certain misdemeanors that occur in school, on school property, or at a school-sponsored or school-related activity on or off school property. These personnel will also be notified if the principal has reasonable grounds to believe the student has engaged in certain conduct.
- All appropriate district personnel in regards to a student who is required to register as a sex offender.

[For further information, see policy FL(LEGAL).]

Leaving Campus

Students who must leave school during the day must bring a note from a parent that morning by 7:30 a.m. Students, **regardless of age**, must be signed out by the Attendance Office, and parent contact made before leaving campus. This allows the attendance office to verify the note with the parent before issuing a pass to leave. We have a closed campus. Students will not be allowed to leave campus for lunch. Students may not leave campus anytime without following proper procedures.

A student who becomes ill during the school day should, with the teacher's permission, report to the school nurse. The nurse will determine whether the student should be sent home and will notify the student's parent.

Library

Library support will be available to students and faculty between the hours of 6:45 a.m. and 3:15 p.m., Monday–Friday, during scheduled school days.

The library is also open during lunch periods and every period of the school day unless it has been closed for testing or related school functions. If it is closed, notification will be given.

Student passes are required for entry into the library during the day.

Upon entering the library, all passes must be handed to the librarian or student aide, then deposited at the circulation desk. The student must sign the sign-in sheet and note the time of entry beside his/her name. The librarian will also instruct students and teachers on the use of technology in the library, including Internet access. Databases are provided to teachers and students. Passwords and usernames must be acquired from the Library staff. These databases are available from any computer. The computers in the library are available to students for academic purposes related to assignments. Games cannot be played on the computers at any time. No games, songs, programs can be downloaded on the computer. Printers in the library are for academic use only. If a student prints something, it must be related to an assignment. Books may be checked out for two weeks. They may be renewed unless there is a special demand for the particular book.

Lost and Found

Lost and found areas are located in the front office on both campuses. The district discourages students from bringing personal items of high monetary value to school, as the district is not responsible for lost or stolen items.

Makeup Work

Students are responsible for obtaining work they miss due to absences. It is understood that the nature of some work make it impossible to complete, e.g., science lab, group activities, etc. Students have the same number of class days missed to complete work and the work will be due the class meeting following. (For example, 2 days missed – the work will be due on or before the third day back (2 missed days plus 2 attended days to turn in work)). In certain circumstances, where a prolonged illness is involved, an extension of this limit may be arranged between student and teacher. Exceptions to the normal make-up policy would be where, in certain situations, the deadline was communicated. Example: research paper due on or before May 3rd.

Please remember the importance of student attendance at school. With limited exceptions, all absences count for the 90 percent threshold set in state law regarding attendance for credit or final grade.

Exams missed are to be taken outside of class time within the make-up period at the convenience of the teacher. Students are usually informed of exams in advance. Pre-announced exams will be taken when the student returns to school after being absent unless other arrangements are made at the teacher's discretion.

Students who are truant will not be able to receive credit for make-up work or exams.

DAEP Makeup Work

Grades 9–12

A high school student removed to a disciplinary alternative education program (DAEP) during the school year will have an opportunity to complete, before the beginning of the next school year, a

foundation curriculum course in which the student was enrolled at the time of removal. The district may provide the opportunity to complete the course through an alternative method, including a correspondence course, another distance learning option, or summer school. The district will not charge the student for any method of completion provided by the district. [See policy FOCA(LEGAL).]

In-School Suspension (ISS) and Out-of-School-Suspension (OSS) Makeup Work Alternative Means to Receive Coursework

While a student is in ISS or OSS, the district will provide the student with all course work for the student's foundation curriculum classes that the student misses as a result of the suspension.

Opportunity to Complete Courses

A student removed from the regular classroom to in-school suspension or another setting, other than a DAEP, will have an opportunity to complete before the beginning of the next school year each course the student was enrolled in at the time of removal from the regular classroom. The district may provide the opportunity by any method available, including a correspondence course, another distance learning option, or summer school. The district will not charge the student for any method of completion provided by the district. [See policy FO(LEGAL).]

Nondiscrimination Statement

In its efforts to promote nondiscrimination and as required by law, Montgomery ISD does not discriminate on the basis of race, religion, color, national origin, gender, sex, disability, age, or any other basis prohibited by law, in providing education services, activities, and programs, including CTE programs, and provides equal access to the Boy Scouts and other designated youth groups.

In accordance with Title IX, the district does not and is required not to discriminate on the basis of sex in its educational programs or activities. The requirement not to discriminate extends to admission and employment. Inquiries about the application of Title IX may be referred to the district's Title IX Coordinator (see below), to the Assistant Secretary for Civil Rights of the Department of Education, or both.

Other federal laws that prohibit discrimination include Title VI, Section 504, the Age Discrimination Act, the Boy Scouts Act, and Title II.

The district has designated and authorized the following employee as the Title IX Coordinator to address concerns or inquiries regarding discrimination on the basis of sex, including sexual harassment, sexual assault, dating violence, domestic violence, stalking, or gender-based harassment: Dr. Amy Busby, Assistant Superintendent of Student Services and Innovation, 20774 Eva St., Montgomery, TX 77356, 936-276-2140 email: amy.busby@misd.org. Reports can be made at any time and by any person, including during non-business hours, by mail, phone, or email. During district business hours, reports may also be made in person. Upon the district receiving notice or an

allegation of sex-based harassment, the Title IX Coordinator will promptly respond in accordance with the process described at FFH(LOCAL).

The following district representatives have been designated to address concerns or inquiries about other kinds of discrimination:

- ADA/Section 504 Coordinator, for concerns regarding discrimination on the basis of disability: Kerri Clark, Executive Director of Specialized Learning, 20774 Eva St., Montgomery, TX 77356, 936-276-2460.
- All other concerns regarding discrimination: See the MISD Superintendent, 20774 Eva St. Montgomery, TX 77356, 936-276-2011.

[See policies FB, FFH, and GKD.]

Parent and Family Engagement

Working Together

Both experience and research tell us that a child's education succeeds best when there is good communication and a strong partnership between home and school. Your involvement and engagement in this partnership may include:

- Encouraging your child to put a high priority on education and working with your child on a daily basis to make the most of the educational opportunities the school provides.
- Review the Student Handbook and District Code of Conduct with your child prior to signing and returning to the school the written statement that you understand and consent to the responsibilities outlined in each document. Also understand that during any periods of instruction during the summer months, the Student Handbook and Student Code of Conduct in place for the year immediately preceding the summer period shall apply, unless the district amends either or both documents for the purposes of summer instruction.
- Ensuring that your child completes all homework assignments and special projects and comes to school each day prepared, rested, and ready to learn.
- Becoming familiar with all of your child's school activities and with the academic programs, including special programs, offered in the district.
- Discussing with the school counselor or principal any questions you may have about the options and opportunities available to your child.
- Reviewing the requirements and options for graduation with your child in middle school and again while your child is enrolled in high school.
- Monitoring your child's academic progress and contacting teachers as needed.
- Attending scheduled conferences and requesting additional conferences as needed. To schedule a telephone or in-person conference with a teacher, school counselor, or principal, please call the school office for an appointment. The teacher will usually return your call or meet with you during his or her conference period or before or after school.
- Becoming a school volunteer. [For further information, see policy GKG and **Volunteers**]

- Participating in campus parent organizations
- Serving as a parent representative on the district-level or campus-level planning committees, assisting in the development of educational goals and plans to improve student achievement. [For further information, see policies at BQA and BQB]
- Serving on the School Health Advisory Council (SHAC) and assisting the district in ensuring local community values with health education instruction, human sexuality instruction, instruction on prevention of child abuse, family violence, dating violence, and sex trafficking, and other wellness issues are reflected in health education instruction and other wellness issues. [See policies at BDF, EHAA, FFA, and information in this handbook at **School Health Advisory Council (SHAC)**.]
- Being aware of the school's ongoing bullying and harassment prevention efforts.
- Contacting school officials if you are concerned with your child's emotional or mental well-being.
- Attending board meetings to learn more about district operations. Regular board meetings are held on the 3rd Tuesday of each month at the District Office at 20774 Eva Street, Montgomery, Texas. An agenda for a regular or special meeting is posted no later than 72 hours before each meeting at 20774 Eva Street, Montgomery, Texas and online at www.misd.org. [See policies at BE and BED for more information.]

Physical Examinations/Health Screenings

Athletics' Participation

For certain extracurricular activities, a student must submit certification from an authorized health-care provider. The certification must state that the student has been examined and is physically able to participate in the relevant program, including:

- A district athletics program.
- District marching band.
- Any district extracurricular program identified by the superintendent.

This examination is required to be submitted annually to the district.

Students should be aware of the rare possibility of sudden cardiac arrest, which in athletes is usually caused by a previously unsuspected heart disease or disorder. A student may request an electrocardiogram (ECG or EKG) to screen for such disorders, in addition to his or her required physical examination.

See the UIL's explanation of sudden cardiac arrest (<https://www.uiltexas.org/health/info/sudden-cardiac-death>) for more information.

Spinal Screening Program

School-based spinal screening helps identify adolescents with abnormal spinal curvature and refer them for appropriate follow-up by their physician. Screening can detect scoliosis at an early stage, when the curve is mild and may go unnoticed. Early detection is key to controlling spinal deformities. All students who meet the Texas Department of State Health Services criteria will be screened for abnormal spinal curvature before the end of the school year. For information on spinal screening by an outside professional or exemption from spinal screening based on religious beliefs, see policy FFAA(LEGAL) or contact the superintendent.

Spinal screening is non-invasive and conducted following the most recent, nationally accepted and peer-reviewed standards for spinal screening.

Pledges of Allegiance and a Minute of Silence

Each school day, students will recite the Pledge of Allegiance to the U.S. flag and the Pledge of Allegiance to the Texas flag. Parents may submit a written request to the principal to excuse their child from reciting a pledge. [See **Reciting the Pledges to the U.S. and Texas Flags**]

State law requires that one minute of silence follow recitation of the pledges. Each student may choose to reflect, pray, meditate, or engage in any other silent activity during that minute so long as the silent activity does not interfere with or distract others. In addition, state law requires that each campus provide for the observance of one minute of silence at the beginning of the first class period when September 11 falls on a regular school day in remembrance of those who lost their lives on September 11, 2001.

[See policy EC for more information.]

Prayer

Each student has a right to pray individually, voluntarily, and silently or to meditate in school in a manner that does not disrupt instructional or other activities of the school. The school will not encourage, require, or coerce a student to engage in or to refrain from such prayer or meditation during any school activity.

Promotion and Retention

A student will be promoted only on the basis of academic achievement or demonstrated proficiency in the subject matter of the course or grade level, the recommendation of the student's teacher, the score received on any criterion-referenced or state-mandated assessment, and any other necessary academic information as determined by the district.

A parent may request in writing that a student repeat *[include if applicable: prekindergarten,]* kindergarten, or any grade in grade 1-8. Before granting the request, the district may convene a retention committee to meet and discuss the request and will invite the parent to participate.

High School Grade Levels

To earn credit in a course, a student must receive a grade of at least 70 based on course-level or grade-level standards.

A student in grades 9–12 will be advanced a grade level based on the number of course credits earned. [See **Grade Level Classification in Section 1.**]

Students will also have multiple opportunities to retake EOC assessments. [See **Graduation and Standardized Testing** for more information about EOC assessments.]

A parent may request in writing that a student repeat a high-school credit course in which the student was enrolled during the previous school year unless the district determines that the student has met all requirements for graduation.

Before granting the request, the district may convene a retention committee to meet and discuss the request and will invite the parent to participate.

Registrar

Students' academic records are kept in confidential and secure files by the registrar.

Copies of transcripts must be requested 48 hours prior to the date needed. There is a link on the registrar's web site to complete the request. There will be a \$3.00 fee for each transcript requested.

Verification of Enrollment Forms – In the State of Texas, the school must certify that a student (under age 18) is enrolled in a public or private school and has attended school for at least 90% of the days in the fall or spring semester preceding the date of application. **Students must meet the attendance requirements for each class in which they are enrolled.** Students may request a VOE on the registrar's web site. The VOE will be e-mailed to the requestor within 2 business days of the original request. A VOE requested the last week of school will not expire until the first day of the next school year.

For a student between the ages of 16 and 18 to obtain a driver license, written parental permission must be provided for the Texas Department of Public Safety (DPS) to access the student's attendance records and, in certain circumstances, for a school administrator to provide the student's attendance information to DPS.

Remote Instruction

The district may offer remote instruction when authorized by TEA.

All district policies, procedures, guidelines, rules, and other expectations of student behavior will be enforced as applicable in a remote or virtual learning environment.

Report Cards/Progress Reports and Conferences

Students and parents will be provided with progress reports (every 3 weeks) and report cards (every 9 weeks). These will be available through the Skyward parent portal. The district/campus will no longer send out paper copies of progress reports or report cards. However, students and parents can access these documents any time through the parent portal and print these documents as well. The reporting calendar is included below.

Teachers follow grading guidelines approved by the District that have been designed to reflect each student's academic achievement for the grading period, semester, or course. State law provides that a test or course grade issued by a teacher cannot be changed unless the Board determines that the grade was arbitrary or contains an error, or that the teacher did not follow the District's grading policy. **Questions about grade calculation should first be discussed with the teacher; if the question is not resolved, the student or parent may request a conference with the designated administrator.**

Safety

Student safety on campus, at school-related events, and on district vehicles is a high priority of the district. Although the district has implemented safety procedures, the cooperation of students is essential to ensuring school safety. A student is expected to:

- All students are required to wear district issued identification badges during the school day, for the safety of our school community.
- Avoid conduct that is likely to put the student or others at risk.
- Follow the behavioral standards in this handbook and the Student Code of Conduct, as well as any additional rules for behavior and safety set by the principal, campus behavior coordinator, teachers, or bus drivers.
- Remain alert to and promptly report to a teacher or the principal any safety hazards, such as intruders on campus or threats made by any person toward a student or staff member. A student may make anonymous reports about safety concerns by texting or calling the Montgomery ISD helpline at 1-800-392-STOP (7867).
- Know emergency evacuation routes and signals.
- Follow immediately the instructions of teachers, bus drivers, and other district employees who are overseeing the welfare of students.

In an effort to ensure student safety, propping doors open is strictly prohibited. Consequences for propping doors include:

1st Offense – Warning, Parent Notification, Documented in Student Information System

2nd Offense – ISS, 3 days

3rd Offense – OSS, 3 days

Accident Insurance

At the beginning of the school year, the District will make available to students and parents a low-cost student accident insurance program. If coverage is desired, parents are responsible for paying premiums and for submitting claims to the insurance carrier. The district shall not be responsible for costs of treating injuries or assume liability for any other costs associated with an injury. Claim forms may be obtained from the office or the athletic trainer. This insurance is provided by a firm selected by the Board of Trustees with the following provisions and limitations:

1. Students or their parents shall pay their own premiums.

2. The District is not responsible for any cost for the treatment of injuries, which are above and beyond the limits noted in the student insurance policy.

Preparedness Drills: Evacuation, Severe Weather, and Other Emergencies

From time to time, students, teachers, and other district employees will participate in preparedness drills of emergency procedures. When the command is given or alarm is sounded, students need to follow the direction of teachers or others in charge quickly, quietly, and in an orderly manner.

Preparedness Training: CPR and Stop the Bleed

The district will annually offer instruction in CPR at least once to students enrolled in in grades 7–12. The instruction can be provided as part of any course and is not required to result in CPR certification.

The district will annually offer students in grades 7–12 instruction on the use of bleeding control stations to respond to traumatic injury. For more information, see [Homeland Security's Stop the Bleed](#) and [Stop the Bleed Texas](#).

Emergency Medical Treatment and Information

All parents are asked each year to complete a medical care authorization form, providing written parental consent to obtain emergency treatment and information about allergies to medications or drugs. Parents should contact the school nurse to update emergency care information (name of doctor, emergency phone numbers, allergies, etc.).

The district may consent to medical treatment, which includes dental treatment, if necessary, for a student if:

- The district has received written authorization from a person having the right to consent;
- That person cannot be contacted; and
- That person has not given the district actual notice to the contrary.

The emergency care authorization form will be used by the district when a student's parent or authorized designee cannot be contacted. A student may provide consent if authorized by law or court order.

Regardless of parental authorization for the district to consent to medical treatment, district employees will contact emergency medical services to provide emergency care when required by law or when deemed necessary, such as to avoid a life-threatening situation.

Emergency School-Closing Information

The district may close schools, delay opening, release students early because of bad weather or restrict access to the building because of emergency conditions. When such conditions exist, the

superintendent will make the official decision concerning the district's facilities. When it becomes necessary to close, delay opening, release students early or restrict access to the building because of an emergency, the following radio and television stations will be notified by school officials;

TV: KPRC Channel 2, KHOU Channel 11, KTRK Channel 13 and Fox 26

Radio: K-STAR 99.7

In addition to the above, announcements will be made through SchoolMessenger, our telephone broadcast system that enables school personnel to notify selected households of emergencies or events. Further, the district website, www.misd.org, and Twitter will also be used to communicate to staff and community any changes in school operation due to the weather. The district will rely on contact information on file with the district to communicate with parents in an emergency situation, which may include real time or automated messages. It is crucial to notify your child's school when a phone number previously provided to the district has changed. State law requires parents to update contact information within two weeks after the date the information changes.

School Facilities

The taxpayers of the community have made a sustained financial commitment for the construction and upkeep of school facilities. To ensure that school facilities can serve those for whom they are intended-both this year and in the coming years-littering, defacing, or damaging school property is not tolerated. Students will be required to make restitution for damages they cause and shall be subject to disciplinary consequences in accordance with the Student Code of Conduct.

Certain areas of the school will be accessible to students before and after school for specific purposes. Students are required to remain in the area where their activity is scheduled to take place. The Main Cafeteria is open to students before school, beginning at 6:45 a.m. Unless the teacher or sponsor overseeing an activity gives permission, a student will not be permitted to go to another area of the building or campus.

After dismissal of school in the afternoon, unless a student is involved in an activity under the supervision of a teacher or other authorized employee or adult, or unless students are granted permission to remain on campus in accordance with policy FNAB, students must be off campus by 3:00 p.m.

School-Sponsored Field Trips

The district periodically takes students on field trips for educational purposes.

A parent must provide permission for a student to participate in a field trip.

The district may ask the parent to provide information about a student's medical provider and insurance coverage, and may also ask the parent to sign a waiver allowing for emergency medical treatment in the case of a student accident or illness during the field trip.

The district may require a fee for student participation in a field trip that is not required as part of a basic educational program or course to cover expenses such as transportation, admission, and meals; however, a student will not be denied participation because of financial need. The district is not responsible for refunding fees paid directly to a third-party vendor.

State law requires that a school district must require a parent to affirm in writing whether a child younger than 12 years of age is able to swim or is at risk of injury or death before the child may participate in any organized water activity in a body of water. If a child is unable to swim or at risk of injury or death, the district must ensure that the child is wearing a properly fitted and fastened Type I, II, or III U.S. Coast Guard approved personal flotation device. The district is not required to provide a flotation device if the child is actively participating in swim instruction or a competition and is closely supervised.

Searches

District Property

Desks, lockers, district-provided technology, and similar items are the property of the district and are provided for student use as a matter of convenience. District property is subject to search or inspection at any time without notice. Students have no expectation of privacy in district property.

Students are responsible for any item—found in district property provided to the student—that is prohibited by law, district policy, or the Student Code of Conduct.

Searches in General

In the interest of promoting student safety and attempting to ensure that schools are safe and drug free, district officials may occasionally conduct searches.

District officials may conduct searches of students, their belongings, and their vehicles in accordance with law and district policy. Searches of students will be conducted without discrimination, based on, for example, reasonable suspicion, voluntary consent, or pursuant to district policy providing for suspicion-less security procedures, including the use of metal detectors.

In accordance with the Student Code of Conduct, students are responsible for prohibited items found in their possession, including items in their personal belongings or in vehicles parked on district property.

If there is reasonable suspicion to believe that searching a student's person, belongings, or vehicle will reveal evidence of a violation of the Student Code of Conduct, a district official may conduct a search in accordance with law and district regulations.

Telecommunications and Other Electronic Devices

Use of district-owned equipment and its network systems is not private and will be monitored by the district. [See policy CQ for more information.]

Any searches of personal telecommunications or other personal electronic devices will be conducted in accordance with law, and the device may be confiscated in order to perform a lawful search. A confiscated device may be turned over to law enforcement to determine whether a crime has been committed. (See policy FNF (LEGAL))

Trained Dogs

The district will use trained dogs to screen for concealed, prohibited items, including drugs and alcohol. Screenings conducted by trained dogs will not be announced in advance. The dogs will not be used with students, but students may be asked to leave personal belongings in an area that is going to be screened, such as a classroom, a locker, or a vehicle. If a dog alerts to an item or an area, it may be searched by district officials.

Special Programs

The district provides special programs for gifted and talented students, students who are homeless, students in foster care, bilingual students, migrant students, English language learners, students diagnosed with dyslexia, and students with disabilities. The coordinator of each program can answer questions about eligibility requirements, as well as programs and services offered in the district or by other organizations. A student or parent with questions about these programs should contact the campus principal.

A student who has or is at risk for dyslexia or a related reading difficulty is eligible to participate in the Texas State Library and Archives Commission's [Talking Book Program](#), which provides audiobooks free of charge to qualifying Texans with visual, physical, or reading disabilities.

Standardized Testing

Failure to Perform Satisfactorily on an EOC

If a student does not perform satisfactorily on an EOC, the district will provide accelerated instruction.

Failure of a student to attend accelerated instruction may result in violations of required school attendance.

TSI (Texas Success Initiative) Assessment

Prior to enrollment in a Texas public college or university, most students must take a standardized test called the Texas Success Initiative (TSI) assessment. The TSI assesses the reading, mathematics, and writing skills that freshmen-level first-year students need to perform effectively as

undergraduates in Texas public colleges and universities. This assessment may also be required before a student enrolls in a dual credit course offered through the district. Achieving certain benchmark scores on this assessment may also waive certain end-of-course assessment requirements in limited circumstances.

Personal Graduation Plans – Junior High School Students

For a junior high student who does not perform satisfactorily on a state-mandated examination, a school official will prepare a personal graduation plan (PGP).

School officials will also develop a PGP for a junior high student who is determined by the district to be unlikely to earn a high school diploma within five years of high school enrollment. The plan will, among other items;

- Identify the student’s educational goals,
- Address the parent’s educational expectations for the student, and
- Outline an intensive instruction program for the student.

See school counselor and policy EIF(LEGAL) for more information.

For a student receiving special education services, the student’s IEP may serve as the student’s PGP and would therefore be developed by the student’s ARD committee.

[See **Personal Graduation Plans** for information related to the development of personal graduation plans for high school students.]

Students in Foster Care

In an effort to provide educational stability, the district will assist any student who is currently placed or newly placed in foster care (temporary or permanent custody of the state, sometimes referred to as substitute care) with the enrollment and registration process, as well as other educational services throughout the student’s enrollment in the district.

Please contact Courtney Dyer, who has been designated as the district’s foster care liaison, at (936) 276-2150 with any questions.

[See **Students in the Conservatorship of the State.**]

Students Who are Homeless

You are encouraged to inform the district if you or your child are experiencing homelessness. District staff can share resources with you that may be able to assist you and your family.

For more information on services for homeless students, contact the district’s homeless education liaison, Courtney Dyer, at (936) 276-2150.

Student Records

A student's school records are confidential and are protected from unauthorized inspection or use and provide parents and "eligible" students certain rights of privacy. Before disclosing any personally identifiable information from a student's records, the district must verify the identity of the person, including a parent or the student, requesting the information. A cumulative record is maintained for each student from the time the student enters the District until the student withdraws or graduates. These records are available to parents, guardians and various governmental agencies, including juvenile service providers.

As a parent, you may review your child's student records which include attendance, test scores, grades, Disciplinary records, counseling records, psychological records, applications for admission, health and immunization information, other medical records, teacher and counselor evaluations, reports of behavioral patterns, state assessment instruments that have been administered to your child and teaching materials and tests used in your child's classroom.

By law both parents, whether married, separated or divorced, have access to the records of a student who is a minor or a dependent for tax purposes, as do students who are 18 years of age or older. A parent whose rights have been legally terminated will be denied access to the records if the school is given a copy of the court order terminating these rights.

The principal is the custodian of all records for currently enrolled students; the superintendent is the custodian of all records for students who have withdrawn or graduated. Records may be reviewed during regular school hours upon completion of the written request form. The

records custodian or designee will respond to reasonable requests for explanation and interpretation of the records.

Parents of a minor or of a student who is a dependent for tax purposes, the student (if 18 or older) and school officials with legitimate educational interests are the only persons who have access to a student's records. "School officials with legitimate educational interests" include employees, agents, or trustees of the District cooperative of which the District is a member or facilities with which the District contracts for the placement of handicapped students, as well as their attorneys and consultants, who are (1) working with the student; (2) considering disciplinary or academic actions, the student's case or a handicapped student's Individual Education Plan (IEP); (3) compiling statistical data; or (4) investigating or evaluating programs. Certain other officials from various governmental agencies including juvenile service providers and Child Protective Services (CPS) caseworkers or other child welfare representatives, in certain cases may have limited access to the records. The District forwards a student's records without prior consent on to a school in which a student intends to enroll. Records are also released in accordance with court order or lawfully issued subpoena. Unless the subpoena is issued for law enforcement purposes and the subpoena orders that its contents, existence, or the information sought not be disclosed, the District will make a reasonable effort to notify the parent or eligible student in advance of compliance. Parental consent is required to release the records to anyone else. When the student reaches 18 years of age, only the student has the right to consent to release records.

The parent's or student's right of access to, and copies of, student records does not extend to all records. Materials that are not considered educational records, such as teachers' personal notes on a student that are shared only with a substitute teacher and records pertaining to former students when they are no longer students in the District do not have to be made available to the parents or the student.

Students over 18 and parents of minor students may inspect the student's records and request a correction if the records are inaccurate, misleading or otherwise in violation of the student's privacy or other rights. If the District refuses the request to amend the records, the requester has the right to a hearing. If the records are not amended as a result of the hearing, the requester has 30 school days to exercise the right to place a statement commenting on the information in the student's record. Although improperly recorded grades may be challenged, contesting a student's grade in a course or in an examination is handled through the general complaint process found in policy FNG (LOCAL). Parents or students have the right to file a complaint with the U. S. Department of Education if they feel that the District is not in compliance with the law regarding student records.

Copies of student records are available for a nominal fee. Parents may be denied copies of a student's records (1) after the student reaches age 18 and is no longer a dependent for tax purposes; (2) when the student is attending an institution of post-secondary education; (3) if the parent fails to follow proper procedures and pay the copying charge; or (4) when the District is given a copy of a court order terminating the parental rights. If the student qualifies for free or reduced-price meals and the parents are unable to view the records during regular school hours, upon written request of the parent, one copy of the record will be provided at no charge.

The Family Educational Rights and Privacy Act, or FERPA, permits the district to disclose appropriately designated "directory information" from a child's education records without written consent. "Directory information" is information that is generally not considered harmful or an invasion of privacy if released. MISD will only release this "directory information: to Colleges and Universities, School Related Entities, such as PTO, graduation-related vendors, campus photographers, booster club organizations and Military Recruiters, **unless** parents object to the release of any or all directory information about the child. This objection must be made in writing to the principal within ten (10) school days after issuance of this handbook.

Please use the form provided in the appendix entitled "MISD Release of Directory Information". Directory information includes a student's name, address, telephone number, date and place of birth, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, awards received in high school and most recent previous school attended.

Special Education Records – Parents of a student with disabilities who has been provided special education services by the District will be notified when any information that specifically identifies the student is no longer needed. If the parent requests destruction of the information and the time established by law for retention has expired, the records will be destroyed. However, if the retention period established by law has not expired, the material will be deleted from the records but the records will be maintained until the time has expired.

Substance Abuse Prevention and Intervention

If you are worried that your child may be using or is in danger of experimenting, using, or abusing illegal drugs or other prohibited substances, please contact the school counselor. The school counselor can provide you with a list of community resources that may be of assistance to you. The Texas Department of State Health Services (DSHS) maintains information regarding children's mental health and substance abuse intervention services on its website: [Mental Health and Substance Abuse](#).

Suicide Awareness and Mental Health Support

The district is committed to partnering with parents to support the healthy mental, emotional, and behavioral development of its students. If you are concerned about your child, please access [Texas Suicide Prevention](#) or contact the school counselor for more information related to suicide prevention services available in your area.

You may also contact the National Suicide Prevention Lifeline at 1-800-273-8255.

Tardies

Promptness to class is very important and students are expected to be in their seats and ready to work when the tardy bell rings. Students who choose to neglect this responsibility will subject themselves to the following policy:

1. A **warning bell** will ring one minute before class begins.
2. One minute later a **tardy bell** will ring.
3. Tardies will be handled in accordance with school and class rules.

Textbooks, Electronic Textbooks, Technological Equipment, and Other Instructional Materials

Instructional materials are any resources used in classroom instruction as part of the required curriculum, such as textbooks, workbooks, computer software, or online services.

The district selects instructional materials in accordance with state law and policy EFA.

The District provides approved instructional materials to students free of charge for each subject or class. Students must treat instructional materials with care as directed by the teacher.

If the district does not issue graphing calculators for a course requiring their use, a student may use a calculator application with the same functionality as a graphing calculator on a phone, laptop, tablet, or other computing device in place of a graphing calculator.

A student who is issued a damaged item should report the damage to the teacher. Any student failing to return an item in acceptable condition loses the right to free textbooks and technological equipment until the item is returned or the damage paid for by the parent; however, the student will be provided the necessary instructional resources and equipment for use at school during the school day.

Transcript Request

Copies of transcripts must be requested 48 hours prior to the date needed. There is a link on the registrar's web site to complete the request. There will be a \$3.00 fee for each transcript requested.

Transportation

Daily School Bus Privileges

The Montgomery Independent School District chooses to provide bus transportation to all eligible students of the District. All policies, rules and regulations pertaining to school bus transportation have been carefully established to enhance the safety of all students who choose to utilize this service. Students are expected to board and depart the bus only at one designated bus stop. Bus routes and stops will be designated annually, and any subsequent changes will be posted at the school and on the district's website. For the safety of the operator of the vehicle and all passengers, students must board buses or other vehicles only at authorized stops, and drivers must unload passengers only at authorized stops. Only M.I.S.D. students will be allowed to ride buses. **Due to the rapid growth of MISD, we will no longer allow extra riders to ride the bus routes. Only registered riders will be allowed on the bus route. No sleepovers, birthday parties, etc.**

Video cameras may be used in District vehicles to promote compliance with the rules of conduct. If a student chooses to violate these policies, rules and regulations, it could endanger the safety of other passengers as well as himself/herself, in such event the following procedures will be followed:

CONSEQUENCES FOR MAJOR OFFENSES

1st Offense: Student is removed from the bus for 3 days and receives appropriate campus consequences.

2nd Offense: Student is removed from the bus for 5 days and receives appropriate campus consequences.

3rd Offense: Student is removed from the bus for 10 days and receives appropriate campus consequences.

4th Offense: Student is removed from the bus for 30 days and receives appropriate campus consequences.

5th Offense: Student is removed from the bus for the remainder of the school year and receives appropriate campus consequences.

PLEASE NOTE: A student can be removed by Montgomery ISD Police Department for any major offense if the driver feels such action is warranted. All regular school rules apply when riding the bus. Serious infractions such as drugs, alcohol, and weapons will receive the appropriate disciplinary action as indicated by the Student Code of Conduct and by Law Enforcement Officials.

All infractions of bus rules and regulations are handled at the discretion of the Principal or Assistant Principal. Disciplinary sanctions and changes in transportation for a student with a disability will be made in accordance with the student's Individual Education Plan (IEP) or other individually designed program.

Truancy

Truancy is defined as being absent without school or parental knowledge and/or consent or prior permission of the campus administrator.

Students are classified as truant when they:

1. Leave school or class without permission.
2. Start for, but do not arrive at school.
3. Are on or near the campus but not in class or assigned area.
4. Leave campus or go to the parking lot after arriving at school in the morning.

Students who are truant will not be allowed make-up work and will receive a grade of zero for any and all work missed for which a grade is given to students in attendance. Students absent due to truancy will suffer disciplinary as well as academic consequences.

Truancy / Absences may also result in assessment of penalties by a court of law against both the student and his or her parents. A complaint against the parent and student may be filed in the appropriate court if the student:

- Is absent from school on ten or more days or parts of days within a six-month period in the same year, or

If a student between the ages of 12 and 19 violates the compulsory attendance law, the complaint is filed against both the parent and student in an appropriate court of law. If the student is age 19 or older, the student, but not the student's parents, would have the complaint filed against them in the appropriate court.

Vandalism

The taxpayers of the community have made a sustained financial commitment for the construction and upkeep of school facilities. To ensure that school facilities can serve those for whom they are intended—both this year and for years to come—littering, defacing, or damaging school property is not tolerated. Students will be required to pay for damages they cause and will be subject to criminal proceedings as well as disciplinary consequences in accordance with the Student Code of Conduct.

Valuables/Personal Possessions

Excessive amounts of money, jewelry or any items of real or sentimental value should be left at home. Radios, CD players, tapes, cameras, or any electronic device, etc. are not allowed on campus. The school will not assume responsibility for lost or stolen items, nor will administrators use academic time to try to recover these items

Video Cameras

For safety purposes, video and audio recording equipment is used to monitor student behavior, including on buses and in common areas on campus. Students will not be told when the equipment is being used.

The principal will review the video and audio recordings routinely and document student misconduct. Discipline will be in accordance with the Student Code of Conduct.

State law permits the school to make a video or voice recording without parental permission for the following circumstances:

- When it is to be used for school safety;
- When it relates to classroom instruction or a co-curricular or extracurricular activity;

- When it relates to media coverage of the school; or
- When it relates to the promotion of student safety as provided by law for a student receiving special education services in certain settings.

In accordance with state law, a parent of a student who receives special education services, a staff member (as this term is defined by law), a principal or assistant principal, or the board may make a written request for the district to place video and audio recording equipment in certain self-contained special education classrooms. The district will provide notice to before placing a video camera in a classroom or other setting in which your child receives special education services. For more information or to request the installation and operation of this equipment, contact the principal, who the district has designated to coordinate the implementation of and compliance with this law.

[See EHBAF(LOCAL).]

Visitors to the School

Montgomery I.S.D. High Schools are closed campuses. Parents and others are welcome to visit district schools. For the safety of those within the school and to avoid disruption of instructional time, all visitors must enter the front doors of the main entrance and report to the welcome desk. Visitors will be required to present a government issued photo identification card (valid driver's license) that will be scanned through the V-soft Security System and required to sign in and out. If clear, the visitor will then receive a photo visitor's pass that must be worn while on campus, and returned to the welcome desk when leaving. Visitors must also comply with all applicable district policies and procedures.

Visits to individual classrooms during instructional time are permitted only with approval of the principal and teacher and only so long as their duration or frequency does not interfere with the delivery of instruction or disrupt the normal school environment. Even if the visit is approved prior to the visitor's arrival, the individual must check in at the main office first.

All visitors are expected to demonstrate the highest standards of courtesy and conduct; disruptive behavior or violations of student privacy will not be permitted.

Students may not bring friends or relatives to school during school hours or to after school practices.

Food may not be delivered to students during the school day, including lunchtime, **nor may it be purchased from outside commercial establishments and brought into the school.**

Unauthorized Persons

In accordance with Education Code 37.105, a school administrator, school resource officer (SRO), or district police officer has the authority to refuse entry or eject a person from district property if the person refuses to leave peaceably on request and:

- The person poses a substantial risk of harm to any person; or
- The person behaves in a manner that is inappropriate for a school setting and the person persists in the behavior after being given a verbal warning that the behavior is inappropriate and may result in refusal of entry or ejection.

Appeals regarding refusal of entry or ejection from district property may be filed in accordance with FNG(LOCAL) or GF(LOCAL).

Visitors Participating in Special Programs

The district may invite representatives from patriotic societies listed in Title 36 of the United States Code to present information to interested students about membership in the society.

Volunteers

The purpose of a school volunteer program is to provide an opportunity for parents and other interested adults to assist school personnel in the operation of the schools. Volunteers help the Montgomery Independent School District meet its mission of providing a quality educational foundation to successfully prepare students for their future. In short, school volunteers are a valuable, needed, and appreciated resource to our students and staff alike.

All of our children are full of potential and promise. Each and every young person attending our schools must be provided a safe and secure environment that nurtures and enhances their learning. Screening our volunteers provides assurance to our parents and to our community that the District is taking the necessary steps to proactively and reasonably preserve a safe and secure learning situation.

Volunteers who work directly with campuses and with students will be required to complete a MISD Volunteer Services Form and a DPS Computerized CH Verification form. The background check is strictly confidential and will be processed through the MISD office. The continued success of Montgomery's young people depends on the steady increase of community support for the District's schools, and volunteerism is an excellent avenue to get involved and support our schools.

Subject to exceptions in accordance with state law and district procedures, the district requires a state criminal history background check for each volunteer, including parents, guardians, or grandparents of a child enrolled in the district. The volunteer must pay all costs for the background check.

If you are interested in volunteering, please refer to the MISD website, under *Parent Information* and click on *Volunteer Information*. Please complete both forms and return them to your child's campus. Also, refer to policy GKG (LEGAL) *Community Relations: School Volunteer Program* on the MISD website www.misd.org.

Voter Registration

A student who is eligible to vote in any local, state, or federal election may obtain a voter registration application at the main campus office.

Withdrawing from School

Students **will not** be permitted to go from class to class to withdraw.

The parent or legal guardian of a student who wishes to withdraw will:

1. Meet with the Registrar, where a withdrawal form will be issued.
2. Turn in each book and/or equipment to the registrar.
3. The registrar will have each teacher assign a withdrawal grade.
4. Have the librarian clear library records. All fines and books must be clear.
5. Will check with the cafeteria to clear all cafeteria records and lunch charges.
6. Will check with the attendance clerk for attendance records.
7. A copy of the withdrawal form will be made for the student to take to his/her new school.
8. Copies of withdrawal forms or transcripts will not be issued until all records are clear and all signatures are on the withdrawal form.

NOTE: *In order for a student to withdraw from school, it is necessary that the parent or guardian who enrolled the student make a request to the registrar on the campus that the student be withdrawn. This request should be made in person on the form provided by the registrar and should indicate the date of withdrawal, the reason and if possible, the name and address of the new school.*

STUDENT CODE OF CONDUCT

Accessibility

If you have difficulty accessing the information in this document because of disability, please contact Kerri Clark, Executive Director of Specialized Learning at kerri.clark@misd.org.

Purpose

The Student Code of Conduct (“Code”) is the district’s response to the requirements of Chapter 37 of the Texas Education Code.

The Code provides methods and options for managing students in the classroom and on school grounds, disciplining students, and preventing and intervening in student discipline problems.

The law requires the district to define misconduct that may—or must—result in a range of specific disciplinary consequences including removal from a regular classroom or campus, out-of-school suspension, placement in a disciplinary alternative education program (DAEP), placement in a juvenile justice alternative education program (JJAEP), or expulsion from school.

This Student Code of Conduct has been adopted by the Montgomery ISD’s Board of Trustees and developed with the advice of the district-level committee. This Code provides information to parents and students regarding standards of conduct, consequences of misconduct, and procedures for administering discipline. It remains in effect during summer school and at all school-related events and activities outside the school year until an updated version adopted by the board becomes effective for the next school year.

In accordance with state law, the Code shall be posted at each school campus or shall be available for review at the office of the campus principal. Additionally, the Code shall be available at the office of the campus behavior coordinator and posted on the district’s website. Parents shall be notified of any conduct violation that may result in a student being suspended, placed in a DAEP or JJAEP, expelled, or taken into custody by a law enforcement officer under Chapter 37 of the Education Code.

Because the Student Code of Conduct is adopted by the district’s board of trustees, it has the force of policy; therefore, in case of conflict between the Code and the Student Handbook, the Code shall prevail.

Please note: The discipline of students with disabilities who are eligible for services under federal law (Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973) is subject to the provisions of those laws.

Please note: The Montgomery ISD Board Policy is available on the Montgomery ISD website (www.misd.org).

School District Authority and Jurisdiction

School rules and the authority of the District to administer discipline apply whenever the interest of the District is involved, on or off school grounds, in conjunction with or independent of classes and school-sponsored activities.

The District has disciplinary authority over a student:

1. During the regular school day and while the student is going to and from school or a school-sponsored or school-related activity on District transportation;
2. While the student is in attendance at any school-related activity, regardless of time or location;
3. For any school-related misconduct, regardless of time or location;
4. When retaliation against a school employee, board member, or volunteer occurs or is threatened, regardless of time or location;
5. When a student engages in cyberbullying, as provided by Education Code 37.0832;
6. When criminal mischief is committed on or off school property or at a school-related event;
7. For certain offenses committed within 300 feet of school property as measured from any point on the school's real property boundary line;
8. For certain offenses committed while on school property or while attending a school-sponsored or school-related activity of another District in Texas;
9. When the student commits a felony, as provided by Texas Education Code 37.006 or 37.0081; or
10. When the student is required to register as a sex offender.

Campus Behavior Coordinator

As required by law, a person at each campus must be designated to serve as the campus behavior coordinator (CBC). The designated person may be the principal of the campus or any other campus administrator selected by the principal. The campus behavior coordinator is primarily responsible for maintaining student discipline. The district shall post on its website and in the Student Handbook, for each campus, the email address and telephone number of the person serving as CBC. Contact information may be found at www.misd.org.

Threat Assessment and Safe and Supportive School Team

The CBC or other appropriate administrator will work closely with the campus threat assessment and safe and supportive school team to implement the district's threat assessment policy and procedures, as required by law, and shall take appropriate disciplinary action in accordance with the Code of Conduct.

Searches

District officials may conduct searches of students, their belongings, and their vehicles in accordance with state and federal law and district policy. Searches of students shall be conducted in a reasonable and nondiscriminatory manner. Refer to the district's policies at FNF(LEGAL) and FNF(LOCAL) for more information regarding investigations and searches.

The District has the right to search a vehicle driven to school by a student and parked on school property whenever there is reasonable suspicion to believe it contains articles or materials prohibited by the District.

Desks, lockers, district-provided technology, and similar items are the property of the district and are provided for student use as a matter of convenience. District property is subject to search or inspection at any time without notice.

Reporting Crimes

The principal or CBC and other school administrators as appropriate will report crimes as required by law and will call local law enforcement when an administrator suspects that a crime has been committed on campus.

Security Personnel

To ensure sufficient security and protection of students, staff, and property, the board employs school resource officers (SROs). In accordance with law, the board has coordinated with the CBC and other district employees to ensure appropriate law enforcement duties are assigned to these persons. Provisions addressing the various types of security personnel can be found in policy CKE(LOCAL).

The law enforcement duties of school resource officers are:

1. Protect the safety and welfare of any person in the jurisdiction of the District and protect the property of the District.
2. Enforce all laws, including municipal ordinances, county ordinances, and state laws, and investigate violations of law as needed. In doing so, District police officers may serve search warrants in connection with District-related investigations in compliance with the Texas Code of Criminal Procedure.
3. Arrest suspects consistent with state and federal statutory and constitutional standards governing arrests, including arrests without warrant, for offenses that occur in the officer's presence or under the other rules set out in the Texas Code of Criminal Procedure.
4. Coordinate and cooperate with commissioned officers of all other law enforcement agencies in the enforcement of this policy as necessary.
5. Enforce District policies on District property, in school zones, at bus stops, or at District functions.
6. Investigate violations of District policy, rules, and regulations as requested by the Superintendent and participate in administrative hearings concerning the alleged violations.
7. Carry weapons as directed by the chief of police and approved by the Superintendent.
8. Carry out all other duties as directed by the chief of police or Superintendent.

'Parent' Defined

Throughout the Code of Conduct and related discipline policies, the term "parent" includes a parent, legal guardian, or other person having lawful control of the child.

Participating in Graduation Activities

The District has the right to limit a student's participation in graduation activities for violating the District's Code.

Participation might include a speaking role, as established by district policy and procedures.

Students eligible for speaking roles at graduation shall be notified by the campus principal. Notwithstanding any other eligibility requirements, in order to be considered as an eligible student to fill a speaking role, a student shall not have engaged in any misconduct in violation of the District's Code, resulting in an out-of-school suspension or removal to a DAEP/JJAEP the two semesters immediately preceding graduation.

See DAEP/Expulsion – Restrictions concerning placement on pages 12 and 18, for information regarding a student assigned to DAEP/JJAEP and participation in graduation.

Unauthorized Persons

In accordance with Education Code 37.105, a school administrator, school resource officer (SRO), or district police officer shall have the authority to refuse entry or eject a person from district property if the person refuses to leave peaceably on request and:

1. The person poses a substantial risk of harm to any person; or
2. The person behaves in a manner that is inappropriate for a school setting, and the person persists in the behavior after being given a verbal warning that the behavior is inappropriate and may result in refusal of entry or ejection.

Appeals regarding refusal of entry or ejection from district property may be filed in accordance with policies FNG(LOCAL) or GF(LOCAL), as appropriate. However, the timelines for the district's grievance procedures shall be adjusted as necessary to permit the person to address the board in person within 90 days, unless the complaint is resolved before a board hearing.

Discipline Management Techniques

Discipline will be designed to improve conduct and to encourage students to adhere to their responsibilities as members of the school community. Disciplinary action will draw on the professional judgment of teachers and administrators and on a range of discipline management techniques, including restorative discipline practices. Discipline shall be based on the seriousness of the offense, the student’s age and grade level, the frequency of misbehavior, the student’s attitude, the effect of the misconduct on the school environment, and statutory requirements.

Students with Disabilities

The discipline of students with disabilities is subject to applicable state and federal law in addition to the Code of Conduct. To the extent any conflict exists, the district shall comply with federal law. For more information regarding discipline of students with disabilities, see policy FOF(LEGAL).

In accordance with the Education Code, a student who receives special education services may not be disciplined for conduct meeting the definition of bullying, cyberbullying, harassment, or making hit lists (see glossary) until an Admission, Review, and Dismissal (ARD) committee meeting has been held to review the conduct. In deciding whether to order out-of-school suspension, DAEP placement, or expulsion, the District will take into consideration a disability that substantially impairs the student’s capacity to appreciate the wrongfulness of the student’s conduct.

Techniques

The following discipline management techniques MAY be used alone, in combination, or as part of progressive interventions for behavior prohibited by the Code of Conduct or by campus or classroom rules:

- Verbal (oral or written) correction.
- Cooling-off time or a brief “time-out” period, in accordance with law.
- Seating changes within the classroom or vehicles owned or operated by the district.
- Temporary confiscation of items that disrupt the educational process.
- Rewards or demerits.
- Behavioral contracts.
- Counseling by teachers, school counselors, or administrative personnel.
- Parent-teacher conferences.
- Behavior coaching.
- Anger management classes.

- School-assessed and school-administered probation.
- Out-of-school suspension, as specified in the Out-of-School Suspension section of this Code.
- Placement in a DAEP, as specified in the DAEP section of this Code.

Prohibited Aversive Techniques

- Placement and/or expulsion in an alternative educational setting, as specified in the Placement and/or Expulsion for Certain Serious Offenses section of this Code.
- Expulsion, as specified in the Expulsion section of this Code.
- Referral to an outside agency or legal authority for criminal prosecution in addition to disciplinary measures imposed by the District.
- Other strategies and consequences as determined by school officials.

Aversive techniques are prohibited for use with students and are defined as techniques or interventions intended to reduce the reoccurrence of a behavior by intentionally inflicting significant physical or emotional discomfort or pain. Aversive techniques include:

- Using techniques designed or likely to cause physical pain as permitted by district policy. [See policy FO(LOCAL).]
- Using techniques designed or likely to cause physical pain by electric shock or any procedure involving pressure points or joint locks.
- Directed release of noxious, toxic, or unpleasant spray, mist, or substance near a student's face.
- Denying adequate sleep, air, food, water, shelter, bedding, physical comfort, supervision, or access to a restroom facility.
- Ridiculing or demeaning a student in a manner that adversely affects or endangers the learning or mental health of the student or constitutes verbal abuse.
- Employing a device, material, or object that immobilizes all four of a student's extremities, including prone or supine floor restraint.
- Impairing the student's breathing, including applying pressure to the student's torso or neck or placing something in, on, or over the student's mouth or nose or covering the student's face.
- Restricting the student's circulation.
- Securing the student to a stationary object while the student is standing or sitting.
- Inhibiting, reducing, or hindering the student's ability to communicate.
- Using chemical restraints.
- Using time-out in a manner that prevents the student from being able to be involved in and progress appropriately in the required curriculum or any applicable individualized education program (IEP) goals, including isolating the student by the use of physical barriers.
- Depriving the student of one or more of the student's senses, unless the technique does not cause the student discomfort or complies with the student's IEP or behavior intervention plan (BIP).

Notification

The campus behavior coordinator (CBC) or appropriate campus administrator shall promptly notify a student's parent by phone or in person of any violation that may result in in-school or out-of-school suspension, placement in a DAEP, placement in a JJAEP, or expulsion. The campus behavior coordinator or appropriate campus administrator shall also notify a student's parent if the student is taken into custody by a law enforcement officer under the disciplinary provisions of the Education Code. A good faith effort shall be made on the day the action was taken to provide to the student for delivery to the student's parent written notification of the disciplinary action. If the parent has not been reached by telephone or in person by 5:00 p.m. of the first business day after the day the disciplinary action was taken, the CBC shall send written notification by U.S. Mail. If the campus behavior coordinator is not able to provide notice to the parent, the principal or designee shall provide the notice. Before the principal or appropriate administrator assigns a student under 18 to detention outside regular school hours, notice shall be given to the student's parent to inform him or her of the reason for the detention and permit arrangements for necessary transportation.

Appeals

Questions from parents regarding disciplinary measures should be addressed to the teacher, campus administration, or CBC, as appropriate. Appeals or complaints regarding the use of specific discipline management techniques should be addressed in accordance with policy FNG(LOCAL). A copy of the policy may be obtained from the principal's office, the CBC's office, or the Montgomery ISD website, www.misd.org.

The district shall not delay a disciplinary consequence while a student or parent pursues a grievance. In the instance of a student who is accused of conduct that meets the definition of sexual harassment as defined by Title IX, the district will comply with applicable federal law, including the Title IX formal complaint process. See Policies FFH(LEGAL) and (LOCAL).

Removal from the School Bus

A bus driver may refer a student to the principal's office, the CBC's office, or the appropriate campus administrator's office to maintain effective discipline on the bus. The principal, CBC, or appropriate campus administrator must employ additional discipline management techniques, as appropriate, which can include restricting or revoking a student's bus riding privileges.

Since the district's primary responsibility in transporting students in district vehicles is to do so as safely as possible, the operator of the vehicle must focus on driving and not have his or her attention distracted by student misbehavior. Therefore, when appropriate disciplinary management techniques fail to improve student behavior or when specific misconduct warrants immediate removal, campus administration may restrict or revoke a student's transportation privileges, in accordance with law.

Removal from the Regular Educational Setting

In addition to other discipline management techniques, misconduct may result in removal from the regular educational setting in the form of a routine referral or a formal removal.

Routine Referral

A routine referral occurs when a teacher sends a student to the campus administrator's office as a discipline management technique. The administration shall employ alternative discipline management techniques, including progressive interventions. A teacher or administrator may remove a student from class for a behavior that violates this Code to maintain effective discipline in the classroom.

Formal Removal

A teacher **may** also initiate a formal removal from class if:

1. The student's behavior has been documented by the teacher as repeatedly interfering with the teacher's ability to teach his or her class or with the student's classmates' ability to learn; or
2. The behavior is so unruly, disruptive, or abusive that the teacher cannot teach, and the students in the classroom cannot learn.

Within three school days of the formal removal, the CBC or appropriate campus administrator will schedule a conference with the student's parent, the student, the teacher who removed the student from class, and any other appropriate administrator.

At the conference, the CBC or appropriate campus administrator will inform the student of the alleged misconduct and the proposed consequences. The student shall have an opportunity to respond to the allegations.

When a student is removed from the regular classroom by a teacher and a conference is pending, the CBC or other campus administrator may place the student in:

- Another appropriate classroom;
- In-school suspension (ISS);
- Out-of-school suspension; or
- DAEP.

A teacher or administrator **must** remove a student from class if the student engages in behavior that under the Education Code requires or permits the student to be placed in a DAEP or expelled. When removing for those reasons, the procedures in the subsequent sections on DAEP or expulsion shall be followed.

Returning Student to Classroom

When a student has been formally removed from class by a teacher for conduct against the teacher containing the elements of assault, aggravated assault, sexual assault, aggravated sexual assault may not be returned to the teacher's class without the teacher's consent.

When a student has been formally removed by a teacher for any other conduct, the student may be returned to the teacher's class without the teacher's consent, if the placement review committee determines that the teacher's class is the best or only alternative available.

Out of School Suspension (Suspension)

Misconduct

Students may be suspended for any behavior listed in this Code of Conduct as a general conduct violation, DAEP offense, or expellable offense.

The district shall not use out-of-school suspension for students in grade 2 or below unless the conduct meets the requirements established in law.

A student below grade 3 or a student who is homeless shall not be placed in out-of-school suspension unless, while on school property or while attending a school-sponsored or school-related activity on or off school property, the student engages in:

- Conduct that contains the elements of a weapons offense, as provided in Penal Code Section 46.02 or 46.05;
- Conduct that contains the elements of assault, sexual assault, aggravated assault, or aggravated sexual assault, as provided by the Penal Code; or
- Selling, giving, or delivering to another person or possessing, using, or being under the influence of any amount of marijuana, an alcoholic beverage, or a controlled substance or dangerous drug as defined by federal or state law.

The district shall use a positive behavior program as a disciplinary alternative for students below grade 3 who commit general conduct violations instead of suspension or placement in a DAEP. The program shall meet the requirements of law.

Process

State law allows a student to be suspended for no more than three school days per behavior violation, with no limit on the number of times a student may be suspended in a semester or school year.

Before being suspended, a student will have an informal conference with the CBC or appropriate campus administrator who shall advise the student of the alleged misconduct. The student shall have the opportunity to respond to the allegation before the administrator makes a decision.

The CBC shall determine the number of days of a student's suspension, not to exceed three school days.

In deciding whether to order out-of-school suspension, the campus administration shall take into consideration:

1. Self-defense (see glossary),
2. Intent or lack of intent at the time the student engaged in the conduct,
3. The student's disciplinary history,
4. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct.
5. A student's status in the conservatorship of the Department of Family and Protective Services (foster care), or
6. A student's status as homeless.

Suspended students are not allowed to participate or attend any school-sponsored or school-related extracurricular and co-curricular activities.

Coursework During Suspension

The district shall ensure a student receives access to coursework for foundation curriculum courses while the student is placed in in-school or out-of-school suspension, including at least one method of receiving this coursework that does not require the use of the internet.

A student removed from the regular classroom to ISS or another setting, other than a DAEP, will have an opportunity to complete before the beginning of the next school year each course the student was enrolled in at the time of removal from the regular classroom. The district may provide the opportunity by any method available, including a correspondence course, another distance learning option, or summer school. The district will not charge the student for any method of completion provided by the district.

Speaking at Graduation

In order to be considered as an eligible student speaker at graduation ceremonies, a student shall not have engaged in any misconduct in violation of the District's Code, resulting in an out-of-school suspension during his or her last two semesters.

Disciplinary Alternative Education Program (DAEP) Placement

The District operates a Disciplinary Alternative Education Program (DAEP) for students who have committed certain serious offenses. The DAEP:

1. Is in a setting other than the student's regular classroom; and
2. Separates students in the DAEP from students in the regular program.

An elementary school student may not be placed in a DAEP with a student who is not an elementary school student.

For purposes of DAEP, elementary classification shall be Kindergarten-Grade 5 and secondary classification shall be Grades 6-12.

Summer programs provided by the District shall serve students assigned to a DAEP in conjunction with other students. Days attended in summer programs do not count towards DAEP assigned days.

A student who is expelled for an offense that otherwise would have resulted in a DAEP placement does not have to be placed in DAEP in addition to the expulsion.

In deciding whether to place a student in a DAEP, regardless of whether the action is mandatory or discretionary, the CBC shall take into consideration:

7. Self-defense (see glossary),
8. Intent or lack of intent at the time the student engaged in the conduct,
9. The student's disciplinary history,
10. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct.
11. A student's status in the conservatorship of the Department of Family and Protective Services (foster care), or
12. A student's status as homeless.

Discretionary Placement: Misconduct That May Result in DAEP Placement

A student may be placed in a DAEP if the student commits any of the following offenses on or while attending a school-sponsored or school-related activity on or off school property:

- Possession of a knife.
- Vandalism.
- Robbery or theft.
- Extortion, coercion, or blackmail.
- Aggressive, disruptive action or group demonstration that substantially disrupts or materially interferes with school activities.
- Profanity, vulgar language, or obscene gestures directed toward teachers or other school employees.
- Fighting, committing physical abuse, or threatening physical abuse.
- Sexual harassment of a District student, employee, or volunteer.
- Falsification of records, passes, or other school-related materials.
- Possession or distribution of pornographic materials.
- Leaving school grounds without permission.
- Making or assisting in making threats, including threats against individuals or groups.
- Refusal to accept discipline management techniques proposed by the teacher and principal.
- Possessing or selling look-alike drugs and contraband including drug paraphernalia.
- Possessing look-alike weapons.
- Possession or use of smoke bombs or stink bombs.
- Persistent pattern of violations of school rules after other disciplinary consequences have been tried.
- Inappropriate use of any device capable of recording or capturing images.

Misconduct Identified in State Law

In accordance with state law, a student may be placed in a DAEP for any one of the following offenses:

- Engaging in bullying that encourages a student to commit or attempt to commit suicide.

- Inciting violence against a student through group bullying.
- Releasing or threatening to release intimate visual material of a minor or a student who is 18 years of age or older without the student's consent.
- Criminal mischief not punishable as a felony.
- Assault (no bodily injury) with threat of imminent bodily injury. Texas Penal Code §22.01(a)(2)
- Assault by offensive or provocative physical contact. Texas Penal Code §22.01 (a)(3)
- Misconduct which includes elements of Involvement in a public school fraternity , sorority , or secret society , including participating as a member or pledge, or soliciting another person to become a pledge or member of a public school fraternity, sorority, secret society, or gang . (See glossary.)

Gang-related activity, including but not limited to dress code violations, possession of paraphernalia, graffiti or symbols, tattoos and identifying language or hand signals for the purpose of demonstrating membership of affiliation in any gang, participation as a member of pledge, soliciting another person to become a pledge or member of a gang will be subject to at least the following specific consequences.

- **Level One First Offense** – behavior contract and conference between parent/guardian, administrator, and law enforcement official.
- **Level Two Second Offense** – 45 school days in DAEP. Students who engage in misconduct, which includes elements of gang activity in conjunction with another violation of the Montgomery ISD Student Code of Conduct, will be subjected to the second level consequences delineated. The determination will be based on the severity of the misconduct and the law.

Gang-free zones – Certain criminal offenses, including those involving organized criminal activity such as gang-related crimes, will be enhanced to the next highest category of offense if they are committed in a gang-free zone. For purposes of the District, a gang-free zone includes a school bus and a location in, on, or within 1000 feet of any District-owned or leased property or campus playground.

In accordance with state law, a student **may** be placed in a DAEP if the superintendent or the superintendent's designee has reasonable belief (see glossary) that the student has engaged in conduct punishable as a felony, other than aggravated robbery or those listed as offense in Title 5 (see glossary) of the Penal Code, that occurs off school property and not at a school-sponsored or school-related event, if the student's presence in the regular classroom threatens the safety of other students or teachers or will be detrimental to the educational process.

The CBC **may**, but is not required to, place a student in a DAEP for off-campus conduct for which DAEP placement is required by state law if the administrator does not have knowledge of the conduct before the first anniversary of the date the conduct occurred.

**Mandatory Placement:
Misconduct That
Requires DAEP
Placement**

According to state law, or MISD Board Policy placement in a DAEP is required for the following offenses if the student:

- Commits the following offenses on school property or within 300 feet of school property as measured from any point on the school's real property boundary line, or while attending a school-sponsored or school-related activity on or off school property:
 - Engages in conduct punishable as a felony.
 - Commits an assault (see glossary) under Texas Penal Code 22.01(a)(1).
 - Possesses, uses, or is under the influence of marijuana or marijuana substitute, a controlled substance, or a dangerous drug in an amount not constituting a felony offense. A student with a valid prescription for low-THC cannabis as authorized by Chapter 487 of the Health and Safety Code does not violate this provision. (School-related felony drug offenses are addressed in the Expulsion section.) (See glossary for "under the influence.")
 - Sells, gives, or delivers to another person an alcoholic beverage; commits a serious act or offense while under the influence of alcohol; or possesses, uses, or is under the influence of alcohol, if the conduct is not punishable as a felony offense. (School-related felony alcohol offenses are addressed in the Expulsion section.)
 - Sells, gives, or delivers to another person or possesses or uses an e-cigarette or similar vape device.
 - Promoting and/or possessing intimate visual materials of child younger than 18 years of age. (See glossary)

- Behaves in a manner that contains the elements of an offense relating to abusable volatile chemicals.
 - Behaves in a manner that contains the elements of the offense of public lewdness or indecent exposure.
 - Engages in conduct that contains the elements of an offense of harassment against an employee under Penal Code 42.07(a)(1), (2), (3), or (7).
- Engages in expellable conduct and is between six to nine years of age.
 - Commits a federal firearms violation and is younger than six years of age.
 - Engages in conduct that contains the elements of the offense of retaliation against any school employee or volunteer on or off school property. (Committing retaliation in combination with another expellable offense is addressed in the Expulsion section of this Code.)
 - Engages in conduct punishable as aggravated robbery or a felony listed under Title 5 (see **glossary**) of the Penal Code when the conduct occurs off school property and not at a school-sponsored or school-related event and:
 1. The student receives deferred prosecution (see glossary),
 2. A court or jury finds that the student has engaged in delinquent conduct (see glossary), or
 3. The superintendent or designee has a reasonable belief (see glossary) that the student engaged in the conduct.

Sexual Assault and Campus Assignments

If a student has been convicted of continuous sexual abuse of a young child or disabled individual or convicted of or placed on deferred adjudication for sexual assault or aggravated sexual assault against another student on the same campus, and if the victim's parent or another person with the authority to act on behalf of the victim requests that the Board transfer the offending student to another campus, the offending student shall be transferred to another campus in the District. If there is no other campus in the District serving the grade level of the offending student, the offending student will be transferred to a DAEP.

Process

Removals to a DAEP will be made by the appropriate campus administrator after consulting the CBC.

Conference

When a student is removed from class for a DAEP offense, the CBC or appropriate campus administrator will schedule a conference within three school days with the student's parent, the student, and the teacher, in the case of a teacher removal.

At the conference, the CBC or an appropriate campus administrator will inform the student, orally or in writing, of the reasons for the removal and will give the student an explanation of the basis for the removal and an opportunity to respond to the reasons for the removal.

Following valid attempts to require attendance, the District may hold the conference and make a placement decision regardless of whether the student or the student's parents attend the conference.

Consideration of Mitigating Factors

In deciding whether to place a student in a DAEP, regardless of whether the action is mandatory or discretionary, the administrator shall take into consideration:

1. Self-defense (see glossary),
2. Intent or lack of intent at the time the student engaged in the conduct,
3. The student's disciplinary history,
4. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct.
5. A student's status in the conservatorship of the Department of Family and Protective Services (foster care), or
6. A student's status as homeless.

Placement Order

After the conference, if the student is placed in the DAEP, the campus behavior coordinator shall write a placement order. A copy of the DAEP placement order and information for the parent or person standing in parental relation to the student regarding the process for requesting a full individual and initial evaluation of the student for purposes of special education services shall be sent to the student and the student's parent.

Not later than the second business day after the conference, the campus principal will deliver to the juvenile court a copy of the placement order and all information required by Section 52.04 of the Family Code.

If the student is placed in the DAEP and the length of placement is inconsistent with the guidelines included in this Code of Conduct, the placement order will give notice of the inconsistency.

If a DAEP is at capacity at the time the CBC is deciding placement for conduct related to marijuana, THC, an e-cigarette, alcohol, or an abusable volatile chemical, the student shall be placed in ISS then transferred to a DAEP for the remainder of the period if space becomes available before the expiration of the period of the placement.

If a DAEP is at capacity at the time the CBC is deciding placement for a student who engaged in violent conduct, a student placed in a DAEP for conduct related to marijuana, THC, an e-cigarette, alcohol, or an abusable volatile chemical may be placed in ISS to make a position in the DAEP available for the student who engaged in violent conduct. If a position becomes available in a DAEP before the expiration of the period of the placement for the student removed, the student shall be returned to a DAEP for the remainder of the period.

Coursework Notice

The parent or guardian of a student placed in DAEP shall be given written notice of the student's opportunity to complete a foundation curriculum course in which the student was enrolled at the time of removal and which is required for graduation, at no cost to the student. The notice shall include information regarding all methods available for completing the coursework.

Length of Placement

The campus behavior coordinator shall determine the duration of a student's placement in a DAEP. The duration of a student's placement shall be determined case by case based on the seriousness of the offense, the student's age and grade level, the frequency of misconduct, the student's attitude, and statutory requirements.

Unless otherwise specified in the placement order, days absent from a DAEP shall not count toward fulfilling the total number of days required in a student's DAEP placement order.

DISCRETIONARY DAEP PLACEMENTS:

The length of discretionary (MAY PLACE) DAEP assignments will be determined by the campus behavior coordinator, however, the duration of any assignment to DAEP will be no less than fifteen (15) school days.

MANDATORY DAEP PLACEMENTS:

- First offense for Sells, gives, or delivers to another person or possesses or uses an e-cigarette or similar vape device – minimum of 15 days
- First offense of alcohol possession or under the influence - minimum of 30 days
- Second offense of alcohol possession or under the influence - not to exceed 90 days
- Sells, gives, or delivers alcohol – not to exceed 90 days
- Any other consequence involving mandatory offenses will range from 15 days DAEP to 90 days DAEP.

Consequences will be assigned based on the offense committed, location (in the building/facility or in the vehicle), use or threaten to use, possession on the person, in the locker, purse, or other types of bag including backpacks, athletic bags, etc. or sells, distributes, or attempts to sell.

The District shall administer the required pre- and post-assessments for students assigned to DAEP for a period of 90 days or longer in accordance with established District administrative procedures for administering other diagnostic or benchmark assessments.

The maximum period of DAEP placement shall be one calendar year except as provided below.

Exceeds One Year

Placement in a DAEP may exceed one year when a review by the district determines that the student is a threat to the safety of other students or to district employees.

The statutory limitations on the length of a DAEP placement do not apply to a placement resulting from the Board's decision to place a student who engaged in the sexual assault of another student in a DAEP so that the students are not assigned to the same campus.

Exceeds School Year

Students who commit offenses requiring placement in a DAEP at the end of one school year may be required to continue that placement at the start of the next school year to complete the assigned term of placement.

For placement in a DAEP to extend beyond the end of the school year, the campus behavior coordinator or the board's designee must determine that:

1. The student's presence in the regular classroom or campus presents a danger of physical harm to the student or others, or
2. The student has engaged in serious or persistent misbehavior (see glossary) that violates the District's Code.

Exceeds 60 days

For placement in a DAEP to extend beyond 60 days or the end of the next grading period, whichever is sooner, a student's parent will be given notice and the opportunity to participate in a proceeding before the board or the board's designee.

Restrictions during Placement

The district does not permit a student who is placed in a DAEP to participate in any school-sponsored or school-related extracurricular or co-curricular activity, including seeking or holding honorary positions and/or membership in school-sponsored clubs and organizations.

Transportation for DAEP

Bus ridership privileges **will be suspended** for students, grades 7 through 12, placed in the DAEP, except for a student's first placement in the DAEP for behavior that does not involve physical abuse of another individual or possession of a deadly weapon. Any disciplinary incident during the first DAEP assignment or any second assignment to the DAEP will result in loss of transportation services during the term of the placement. A student with a disability who has transportation designated as a related service in the student's IEP, under federal law will not be affected.

Graduating Seniors in DAEP/Participation and Speaking at Graduation

When a student commits an offense and receives assignment to the DAEP during the senior year, the District **may allow** that student to participate in graduation ceremonies, provided that all prerequisites for graduation are met, and provided that the student has successfully completed all of the days that the student was placed in the DAEP. If the student in question has not completed his or her days in the DAEP for any reason, such as withdrawal or transfer to another school District, the student may not be allowed to participate in graduation ceremonies. Any decision concerning participation in graduation ceremonies will be made by the high school principal.

In order to be considered as an eligible student speaker at graduation ceremonies, a student shall not have engaged in any serious misconduct in violation of the District's Code, resulting in removal to a DAEP during his or her last two semesters.

Placement Review

A student placed in a DAEP will be provided a review of his or her status, including academic status, by the campus behavior coordinator or the board's designee at intervals not to exceed 120 days. In the case of a high school student, the student's progress toward graduation and the student's graduation plan will also be reviewed. At the review, the student or the student's parent will be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of a teacher who removed the student without that teacher's consent.

Additional Misconduct

If during the term of placement in a DAEP the student engages in additional conduct for which placement in a DAEP or expulsion is required or permitted, additional proceedings may be conducted, and the campus behavior coordinator or appropriate campus administrator may enter an additional disciplinary order as a result of those proceedings.

Notice of Criminal Proceedings

When a student is placed in a DAEP for certain offenses, the office of the prosecuting attorney shall notify the district if:

1. Prosecution of a student's case was refused for lack of prosecutorial merit or insufficient evidence and no formal proceedings, deferred adjudication (see glossary), or deferred prosecution will be initiated; or
2. The court or jury found a student not guilty, or made a finding that the student did not engage in delinquent conduct or conduct indicating a need for supervision, and the case was dismissed with prejudice.

If a student was placed in a DAEP for such conduct, on receiving the notice from the prosecutor, the Superintendent or designee will review the student's placement and schedule a review with the student's parent not later than the third day after the Superintendent or designee receives notice from the prosecutor. The student may not be returned to the regular classroom pending the review.

After reviewing the notice and receiving information from the student's parent, the Superintendent or designee may continue the student's placement if there is reason to believe that the presence of the student in the regular classroom threatens the safety of other students or teachers.

The student or the student's parent may appeal the Superintendent's decision to the Board. The student may not be returned to the regular classroom pending the appeal. In the case of an appeal, the Board will, at the next scheduled meeting, review the notice from the prosecutor and receive information from the student, the student's parent, and the Superintendent or designee, and confirm or reverse the decision of the Superintendent or designee. The Board will make a record of the proceedings.

If the Board confirms the decision of the Superintendent or designee, the student and the student's parent may appeal to the Commissioner of Education. The student may not be returned to the regular classroom pending the appeal.

Withdrawal during Process

When a student violates the District's Code in a way that requires or permits the student to be placed in a DAEP and the student withdraws from the District before a placement order is completed, the campus behavior coordinator may complete the proceedings and issue a placement order. If the student then reenrolls in the District during the same or a subsequent school year, the District may enforce the order at that time, less any period of the placement that has been served by the student during enrollment in another district. If the campus behavior coordinator or the Board fails to issue a placement order after the student withdraws, the next district in which the student enrolls may complete the proceedings and issue a placement order.

Newly Enrolled Students

The district shall continue the DAEP placement of a student who enrolls in the district and was assigned to a DAEP in an open-enrollment charter school or another district.

A newly enrolled student with a DAEP placement from a district in another state shall be placed as any other newly enrolled student if the behavior committed is a reason for DAEP placement in the receiving district.

If the student was placed in a DAEP by a school district in another state for a period that exceeds one year, this district, by state law, will reduce the period of the placement so that the total placement does not exceed one year. After a review, however, the placement may be extended beyond a year if the District determines that the student is a threat to the safety of other students or employees or the extended placement is in the best interest of the student.

Emergency Placement

When an emergency placement is necessary because the student's behavior is so unruly, disruptive, or abusive that it seriously interferes with classroom or school operations, the student shall be given oral notice of the reason for the action. Not later than the tenth day after the date of the placement, the student shall be given the appropriate conference required for assignment to a DAEP.

Transition Services

In accordance with law and district procedures, campus staff shall provide transition services to a student returning to the regular classroom from an alternative education program, including a DAEP. See policy FOCA(LEGAL) for more information.

Appeal of a DAEP Placement

The student or the student's parent or guardian may appeal the campus administration's DAEP placement decision. The request for appeal must be in writing and must be received by the Superintendent or Superintendent's Designee within 5 calendar days of the date of the campus DAEP order. The Superintendent or Superintendent's Designee will schedule a conference with the student and parent to be held within 10 calendar days, after which a written decision will be issued.

At the appeal conference, before the Superintendent or Superintendent's Designee, the student is entitled to an adult representative or legal counsel who can provide guidance to the student and who is not an employee of the District. At this conference, the Superintendent or Superintendent's Designee will listen to both the student and campus administration, as well as review other pertinent information regarding the matter as he sees fit. Within seven (7) calendar days of hearing the appeal, the Superintendent or Superintendent's Designee will communicate his written conclusion to the parent and the campus administration.

For DAEP placements assigned for 45 school days or less, the Superintendent's or Superintendent's Designee's decision will be final and non-appealable.

For DAEP placements assigned for more than 45 school days, the parent may appeal the Superintendent's decision to the District Board of Trustees. The request for appeal must be in writing and be received by the Superintendent within seven (7) calendar days of the date of the Superintendent's written appeal decision. The appeal will be heard at a board meeting within 30 days of the receipt of the written request to appeal the Superintendent's decision. At the meeting, the Board will review a record of the DAEP placement appeal conference and will provide the parent and/or student, or representative with an opportunity to make a presentation to the Board. The administration will also be asked to speak. No new evidence, including witnesses or documents will be heard or considered. The Board may set reasonable time limits for oral presentations. Any decision by the Board is final and may not be appealed.

Questions or complaints from parents regarding disciplinary measures should be addressed to the campus administration in accordance with policy FNG(LOCAL). A copy of this policy is available at the Montgomery ISD website, www.misd.org.

The district shall not delay disciplinary consequences pending the outcome of an appeal. The decision to place a student in a DAEP cannot be appealed beyond the board.

Placement and/or Expulsion for Certain Offenses

This section includes two categories of offenses for which the Education Code provides unique procedures and specific consequences.

Registered Sex Offenders

Upon receiving notification in accordance with state law that a student is currently required to register as a sex offender, the district must remove the student from the regular classroom and determine appropriate placement unless the court orders JJAEP placement.

If the student is under any form of court supervision, including probation, community supervision, or parole, the placement will be in either DAEP or JJAEP for at least one semester.

If the student is not under any form of court supervision, the placement may be in DAEP or JJAEP for one semester or the placement may be in a regular classroom. The placement may not be in the regular classroom if the board or its designee determines that the student's presence:

1. Threatens the safety of other students or teachers,
2. Will be detrimental to the educational process, or
3. Is not in the best interest of the District's students.

Review Committee

At the end of the first semester of a student's placement in an alternative educational setting and before the beginning of each school year for which the student remains in an alternative placement, the District shall convene a committee, in accordance with state law, to review the student's placement. The committee will recommend whether the student should return to the regular classroom or remain in the placement. Absent a special finding, the board or its designee must follow the committee's recommendation.

The placement review of a student with a disability who receives special education services must be made by the ARD committee.

Newly Enrolled Student

If a student enrolls in the District during a mandatory placement as a registered sex offender, the District may count any time already spent by the student in a placement or may require an additional semester in an alternative placement without conducting a review of the placement.

Appeal

A student or the student's parent may appeal the placement by requesting a conference between the board or its designee, the student, and the student's parent. The conference is limited to the factual question of whether the student is required to register as a sex offender. Any decision of the board or its designee under this section is final and may not be appealed.

Certain Felonies

Regardless of whether placement or expulsion is required or permitted by one of the reasons in the DAEP Placement or Expulsion sections, in accordance with Education Code 37.0081, a student **may** be expelled and placed in either DAEP or JJAEP if the board or CBC makes certain findings and the following circumstances exist in relation to aggravated robbery or a felony offense under Title 5 (see glossary) of the Penal Code. The student must have:

- Received deferred prosecution for conduct defined as aggravated robbery or a Title 5 felony offense;
- Been found by a court or jury to have engaged in delinquent conduct for conduct defined as aggravated robbery or a Title 5 felony offense;
- Been charged with engaging in conduct defined as aggravated robbery or a Title 5 felony offense;
- Been referred to a juvenile court for allegedly engaging in delinquent conduct for conduct defined as aggravated robbery or a Title 5 felony offense;
- Received probation or deferred adjudication or have been arrested for, charged with, or convicted of aggravated robbery or a Title 5 felony offense; or
- The superintendent or designee has a reasonable belief (see glossary) that the student engaged in the conduct.

The District may expel the student and order placement under these circumstances regardless of:

1. The date on which the student's conduct occurred,
2. The location at which the conduct occurred,
3. Whether the conduct occurred while the student was enrolled in the District, or
4. Whether the student has successfully completed any court disposition requirements imposed in connection with the conduct.

Hearing and Required Findings

The student must first have a hearing before the board or its designee, who must determine that in addition to the circumstances above that allow for the expulsion, the student's presence in the regular classroom:

1. Threatens the safety of other students or teachers,
2. Will be detrimental to the educational process, or
3. Is not in the best interest of the District's students.

Any decision of the board or the board's designee under this section is final and may not be appealed.

Length of Placement

The student is subject to the placement until:

1. The student graduates from high school,
2. The charges are dismissed or reduced to a misdemeanor offense, or
3. The student completes the term of the placement or is assigned to another program.

Placement Review

A student placed in a DAEP or JJAEP under these circumstances is entitled to a review of his or her status, including academic status, by the CBC or board's designee at intervals not to exceed 120 days. In the case of a high school student, the student's progress toward graduation and the student's graduation plan shall also be reviewed. At the review, the student or the student's parent shall have the opportunity to present arguments for the student's return to the regular classroom or campus.

Newly Enrolled Students

A student who enrolls in the District before completing a placement under this section from another school district must complete the term of the placement.

Expulsion

Expulsion from school and school services is the most severe consequence provided under this Code and available under the law. Expulsion is reserved for the most intolerable student behavior. In deciding whether to order expulsion, regardless of whether the action is mandatory or discretionary, the CBC shall take into consideration:

1. Self-defense (see glossary),
2. Intent or lack of intent at the time the student engaged in the conduct,
3. The student's disciplinary history,
4. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct.
5. A student's status in the conservatorship of the Department of Family and Protective Services (foster care), or
6. A student's status as homeless.

**Discretionary Expulsion:
Misconduct That May
Result in Expulsion**

Some of the following types of misconduct may result in mandatory placement in a DAEP, whether or not a student is expelled. (See DAEP Placement)

At Any Location

A student may be expelled for:

- Engaging in bullying that encourages a student to commit or attempt to commit suicide.
- Inciting violence against a student through group bullying.

Penal Code

- Unlawfully carrying on or about the "student's" person the following, in the manner prohibited by Penal Code 46.02:

 - Engaging in retaliation against a school employee or volunteer combined with one of the above-listed mandatory expulsion offenses.

Under Age Ten

When a student under the age of ten engages in behavior that is expellable behavior, the student will not be expelled, but will be placed in a DAEP. A student under age six will not be removed from class or placed in a DAEP unless the student commits a federal firearm offense.

Expulsion Process

If a student is believed to have committed an expellable offense, the CBC will request that the Superintendent schedule an expulsion hearing within a reasonable time.

Until a hearing can be held, the CBC or other campus administrator may place the student in:

- Another appropriate classroom;
- In-school suspension;
- Out-of-school suspension; or
- DAEP.

Hearing Waiver

At the campus level, parents and students will have an opportunity to waive their right to the above-mentioned hearing.

Hearing

The Board of Trustees delegates to the District Discipline Committee, which consists of the Superintendent or a designee, one campus administrator and one other certified campus professional, authority to conduct hearings and expel students.

Before a student is expelled, the student will have an opportunity for a due process hearing that will include the following:

1. At least three days prior written notice of the charges and the proposed sanctions including a written request to the student's parent or guardian to attend the expulsion hearing. The notice will also include the date, time, and location of the hearing and the names of adult witnesses who will present evidence at the hearing;
2. Right to a full and fair hearing before a District Discipline Committee consisting of the Superintendent or a designee, one campus administrator, and one other certified campus professional;
3. Opportunity to testify and to present evidence and witnesses in his or her defense; and
4. Opportunity to examine the evidence presented by the campus administration and to question the witnesses called by the district at the hearing.

A record of this hearing will be made.

Representative

At the hearing, the student is entitled to an adult representative or legal counsel who can provide guidance to the student and who is not an employee of the District. The District may hold the hearing regardless of whether the student, the student's parent or guardian, or another adult representing the student attends, provided the District makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing.

Evidence

In an expulsion hearing, the District may rely on hearsay evidence of campus administrators who investigate disciplinary infractions. This means that the campus administration may present evidence or statements taken from students without revealing the identity of the student. The decision will be based exclusively on the evidence presented at the hearing.

Expulsion Order

Before ordering the expulsion, the board or CBC shall take into consideration:

1. Self-defense (see glossary),
2. Intent or lack of intent at the time the student engaged in the conduct,
3. The student's disciplinary history,
4. A disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct.
5. A student's status in the conservatorship of the Department of Family and Protective Services (foster care), or
6. A student's status as homeless.

If the student is expelled, the board or its designee shall deliver to the student and the student's parent a copy of the order expelling the student.

Not later than the second business day after the hearing, the Superintendent shall deliver to the juvenile court a copy of the expulsion order and the information required by Section 52.04 of the Family Code.

If the length of the expulsion is inconsistent with the guidelines included in the Student Code of Conduct, the expulsion order will give notice of the inconsistency.

Review of Expulsion

A decision by a District Discipline Committee to expel a student may be appealed to the MISD Board of Trustees. The request for appeal must be in writing and must be received by the Superintendent within 7 days of the date of the order of expulsion. At the appeal hearing, the Board will review a record of the District Discipline Committee expulsion hearing and will provide the parent and/or student, or representative with an opportunity to make a presentation to the Board. The administration may also be asked to speak. No new evidence, including witnesses or documents, will be admitted. The Board may set reasonable time limitations for presentations.

The student is expelled pending appeal. Appeal of a final District expulsion decision will be to the state judicial system.

Length of Expulsion

The length of an expulsion shall be based on the seriousness of the offense, the student's age and grade level, the frequency of misbehavior, the student's attitude, and statutory requirements.

An Expulsion Order ranges from 30 days to 180 days JJAEP.

Consequences for expellable offenses will be assigned based on the offense committed, location (in the building/facility or in the vehicle), use or threaten to use, possession on the person, in the locker, purse, or other type of bag including backpacks, athletic bags, etc., or sells, distributes or attempts to sell.

An expulsion may not exceed one year unless, after review, the District determines that:

1. The student is a threat to the safety of other students or to District employees, or
2. Extended expulsion is in the best interest of the student.

State and federal law require a student to be expelled from the regular classroom for a period of at least one calendar year for bringing a firearm, as defined by federal law, to school. However, the Superintendent may modify the length of the expulsion on a case-by-case basis.

Students who commit offenses that require expulsion at the end of one school year may be expelled into the next school year to complete the term of expulsion.

Graduating Seniors and Expulsion

When a student commits an expellable offense and receives assignment to the County JJAEP during the senior year, the District **may allow** that student to participate in graduation ceremonies, provided that all prerequisites for graduation are met, and provided that the student has successfully completed all the days that the student was placed in the JJAEP and has returned to the high school. If the student in question has not completed his or her days in the JJAEP for any reason, such as withdrawal or transfer to another school district, the student **will not** be allowed to participate in graduation ceremonies. Any decision concerning participation in graduation ceremonies will be made by the high school principal.

In order to be considered as an eligible student speaker at graduation ceremonies, a student shall not have engaged in any serious misconduct in violation of the District's Code, resulting in removal to the JJAEP during his or her last two semesters.

Withdrawal during Process	<p>When a student has violated the District's Code in a way that requires or permits expulsion from the District and the student withdraws from the District before the expulsion hearing takes place, the District may conduct the hearing after sending written notice to the parent and student.</p> <p>If the student then reenrolls in the District during the same or subsequent school year, the District may enforce the expulsion order at that time, less any expulsion period that has been served by the student during enrollment in another District.</p> <p>If the CBC or the Board fails to issue an expulsion order after the student withdraws, the next District in which the student enrolls may complete the proceedings.</p>
Additional Misconduct	<p>If during the expulsion, the student engages in additional conduct for which placement in a DAEP or expulsion is required or permitted, additional proceedings may be conducted, and the CBC or the Board may issue an additional disciplinary order as a result of those proceedings.</p>
Restrictions during Expulsion	<p>Expelled students are prohibited from being on school grounds or attending school-sponsored or school-related activities during the period of expulsion.</p> <p>No District academic credit will be earned for work missed during the period of expulsion unless the student is enrolled in a Juvenile Justice Alternative Education Program or another District-approved program.</p>
Newly Enrolled Students	<p>The District will continue the expulsion of any newly enrolled student expelled from another District or an open-enrollment charter school until the period of the expulsion is completed.</p> <p>If a student expelled in another state enrolls in the District, the District may continue the expulsion under the terms of the expulsion order, may place the student in a DAEP for the period specified in the order, or may allow the student to attend regular classes if:</p> <ol style="list-style-type: none"> 1. The out-of-state District provides the District with a copy of the expulsion order, and 2. The offense resulting in the expulsion is also an expellable offense in the District in which the student is enrolling. <p>If a student is expelled by a District in another state for a period that exceeds one year and the District continues the expulsion or places the student in a DAEP, the District will reduce the period of the expulsion or DAEP placement so that the entire period does not exceed one year, unless after a review it is determined that:</p> <ol style="list-style-type: none"> 1. The student is a threat to the safety of other students or District employees, or 2. Extended placement is in the best interest of the student.
Emergency Expulsion	<p>When an emergency expulsion is necessary to protect persons or property from imminent harm, the student will be given verbal notice of the reason for the action. Within ten days after the date of the emergency expulsion, the student will be given appropriate due process required for a student facing expulsion.</p>
DAEP Placement of Expelled Students	<p>The District may choose to provide educational services to any expelled student in a DAEP; however, educational services in the DAEP must be provided if the student is less than ten years of age.</p>
Transition Services	<p>In accordance with law and district procedures, campus staff shall provide transition services for a student returning to the regular classroom from placement in an alternative education program, including a DAEP or JJAEP. See policies FOCA(LEGAL) and FODA(LEGAL) for more information.</p>

Junior High Responsible Use Guidelines for Technology

Our staff and students use technology to learn. Technology is essential to facilitate the creative problem-solving, information fluency, communication and collaboration that we see in today's global economy. While we want our students to be active contributors in our connected world, we also want them to be safe, legal, and responsible. The Responsible Use Guidelines (RUG) support our vision of responsible technology use and promote a strong sense of digital citizenship. The RUG applies to all Montgomery Independent School District computer networks, digital resources, and all devices connected to those networks (whether they be student owned or otherwise).

With the ability to use technology comes responsibility. It is important you read and discuss the District Responsible Use Guidelines, ask questions if you need help understanding them, and sign the agreement form. It is your responsibility to follow the rules for appropriate use. Irresponsible system use will result in the loss of the privilege of using this educational and administrative tool. Please review the leveled guidelines following this document, which explain in greater detail responsible use expectations for elementary, middle school and high school students in the areas of Internet Safety & Security, Digital Citizenship, and Research & Information Literacy.

Please note that the Internet is a global computer network of many types of communication and information networks. It is possible that you may run across some material you might find objectionable. While Montgomery ISD will use Internet filtering technology to restrict access to such material, it is not possible to absolutely prevent such access. District provided resources are not private and may be viewed by district officials. The school district will provide you with third party accounts (such as Google Apps) that must also adhere to these Responsible Use Guidelines. Any other third-party accounts that are used for educational purposes, must also adhere to these Responsible Use Guidelines. Montgomery Independent School District will monitor your activity on the network and on school-issued devices.

It will be your responsibility to follow the rules for appropriate use.

Responsible Use and Digital Citizenship

Any use described below is deemed "responsible" and consistent with the Montgomery ISD Responsible Use Guidelines for Technology. The final decision regarding whether any given use of the network or technology resource is acceptable lies with the Superintendent or designee.

- Use is mainly for educational purposes or use furthers personal professional or academic development (Remember that people who receive Email from you with a District address might mistakenly infer that your message represents the District's point of view).
- Use furthers the educational and administrative purposes, goals, and objectives of Montgomery ISD.
- Use aligns with educational purposes, activities, or instructional requirements

- Use is limited to your own individual account - you and only you should use that account. You should not share your password with others.
- Use furthers research related to education and instruction.
- Use does not violate the student code of conduct or employee standards of conduct.
- Use of appropriate online names as well as use of polite and appropriate language/content on all online posts.
- Use of websites, content, and media is properly cited with respect to copyright.
- Use and student behavior while using technology is classroom appropriate and aligns with academic norms and expectations.
- Use of technologies, during remote instruction, continues to align with educational purpose and instructional intent.

Unacceptable and Irresponsible Use

Any of the following uses is deemed “unacceptable and irresponsible” and a violation of the Montgomery ISD Responsible Use Guidelines for Technology. This list does not include all possible violations, and supplements prohibited behaviors defined in the Student Code of Conduct. The final decision regarding whether any given use of the network or technology resource is acceptable lies with the Superintendent or designee.

Disciplinary action may be taken for unacceptable and irresponsible use of the network or Internet.

Academic Integrity

Montgomery ISD believes maintaining academic integrity is essential for the development of ethical behavior and the pursuit of knowledge. Academic integrity is a guiding principle in education and a choice to act in a responsible way whereby others can have trust in us as individuals. It is the foundation for ethical decision-making and behavior in the production of legitimate, authentic and honest scholarly work.

Academic Integrity and Artificial Intelligence

The use of Artificial Intelligence tools in the classroom is at the sole discretion of the instructor in the classroom. AI can be a potent tool in your learning journey. It can offer personalized learning materials, help you understand complex topics, and give you access to a wealth of knowledge. It can facilitate studying and make learning more interactive and engaging. However, while using AI, it's essential to ensure that your actions remain within the framework of academic integrity.

Plagiarism Plagiarism is claiming to be the original author of language or ideas copied from another author, creator, or composer. This behavior is not acceptable for Montgomery ISD students.

- a. AI can assist in finding information and explaining concepts, which is very much like a tutor assisting you. However, you should never use AI to complete your assignments, tests, or any form of graded work entirely on your behalf. This would be equivalent to cheating.
- b. Students must understand that submitting someone else's work as their own is strictly prohibited. Plagiarism includes copying text, ideas, utilizing Artificial Intelligence (AI) tools, or multimedia content without proper attribution.
- c. Students must acknowledge all sources used in their academic work through appropriate citations, references, and acknowledgements.
- d. Use of AI tools on assessments, major grades, and assignments is only permitted by the instructor. If permitted, students should be transparent about using AI tools and clearly differentiate their own work versus AI generated elements to maintain academic honesty and integrity.

Collaboration

- a. Collaboration is encouraged, but students must respect the boundaries set by their teachers, school policy, and district policy. Sharing of work intended to be completed independently is not allowed.
- b. Students must always give credit to their collaborators when working on group assignments or projects, even if the collaborator is virtual, i.e. an Artificial Intelligence (AI) tool.

Responsible Use of Artificial Intelligence

- a. As long as it aligns with the educational objectives and students have been given permission, students are permitted to use AI as a tool to enhance learning, research, and problem solve. Students should be transparent about using AI tools and clearly differentiate their own work versus AI generated elements to maintain academic honesty and integrity.
- b. Students must ensure that any work submitted from the use of AI tools accurately reflects their own ideas, efforts, and understanding of the subject matter. Plagiarism or manipulating AI generated content without proper citation is prohibited.
- c. Sharing of their own or other's school owned personally identifiable information when using AI tools is prohibited. Students should also be mindful of sharing their personal information outside of the school environment while using AI tools.
- d. AI systems can reflect biases present in the data and students should critically evaluate AI-generated results for potential bias and actively seek diverse perspectives or sources of information to avoid perpetuating those biases.
- e. While AI can be very helpful, it's not infallible and shouldn't be wholly relied upon for accuracy. Always cross-verify information from multiple sources and don't hesitate to ask your teachers if you're unsure about something.

Consequences for Misuse of AI

- a. The misuse of AI, such as using it to cheat on tests, plagiarize work, or misrepresent one's understanding, will be treated as a serious violation of our school's academic integrity policy. Consequences can range from grade penalties, failing the course, or even suspension or expulsion.
- b. In cases of unintentional misuse, a school administrator will help to determine an educational intervention which can be implemented to help students understand and correct their behavior.

Montgomery ISD will periodically review and update the Academic Integrity and Artificial Intelligence Use Policy as needed to ensure its effectiveness and relevance in an evolving educational landscape and to align with legal and ethical considerations.

Digital resources and Remote Learning Environment

Information contained in resources utilized by teachers and students should not be distributed, duplicated, or shared by students, including assignments, tests, quizzes, or documents, unless given permission by the instructor. Students who distribute materials without permission of the instructor will be subject to appropriate discipline procedures and policies.

Copyright

Montgomery ISD receives special permission to make copyrighted materials available to students. The reproduction or distribution of these materials without authorization is strictly prohibited.

Internet Safety and Security

Go Places Safely and Responsibly - The internet can be a great place to discover and visit far-away places to learn new things. Staying safe online is similar to staying safe in the world. Students will choose safe, age-appropriate sites with the guidance of their teachers.

Staying Safe Online - MISD has web filters in place to help steer students clear of inappropriate content; however, students may encounter some inappropriate information and/or content. Students will contact their teacher if they encounter a website that could be inappropriate.

Communicating Safely Online - Use of the internet and online collaboration is an important part of being in middle school. However, there are still risks involved when engaging in online conversation. Students will understand situations where online talk may be risky. As a reminder, email and the content and attachments included in the mail, are not private and students should use the tool with an understanding that district leaders, teachers, or parents may view email as needed. Students will recognize and report any warning signs of online predators. Students will not participate in inappropriate dialogue with others online.

Security of Information - Sharing of information online can be a great way to accomplish a task or work on a project collaboratively. However, there are certain bits of information that students should not share online or with others. Students will not share any of the following:

- Passwords
- Private and personal information about yourself
- Private and personal information about others
- Use inappropriate language including swearing or slang
- Post derogatory comments including those regarding race, gender, religion, politics, sexual orientation, physical or mental status or ability.

Internet Privacy - Many websites collect information from visitors for advertising or data collection purposes. Students will learn and use online privacy terms. Students will understand how and why companies collect their information so they can make informed decisions before providing personal information to a website.

Digital Citizenship

The internet is a powerful community of connected people. That connection requires levels of responsibilities to one another. Part of being a good digital citizen is using technology in a responsible, appropriate way. Below are some specific areas to address with middle school children:

Responsible Decision Making and Self-Management - Students will have access to digital and online resources. These should be used for instructional purposes and in accordance with the student code of conduct and district policies.

Social Media & Email – The district has issued email accounts to students enrolled in grades K-12. Students will be expected to use this account for academic purposes only and as directed by the instructor. Students will have access to a school email account after receiving basic training on email etiquette. Please know that all email can be viewed by teachers, administrators or parents. Email should be written with thought to the audience and purpose. Certain online school-approved social media sites are allowed for instructional use (based on grade of the student). Students will learn about interaction, risks, and responsible use on both school-approved and other social media sites that they may encounter. Abuse or misuse of district email may require disciplinary action.

Commenting Responsibility - As the use of social media and other age-appropriate websites becomes available to middle school students, it's important for students to understand the positive and negative aspects of their digital life. Students will be able to make comments on age-appropriate websites or school-approved social media sites. These comments, like anything else on the internet, have a certain amount of digital permanence. Students will display respect and thoughtfulness online by not posting comments that are negative, inappropriate, or personal about others or themselves.

Digital Ethics - Students will use the internet and digital tools to produce content for the classroom. Students will not present the work of others as their own work (known as plagiarism). There may be times when other students have left their own work on a computer or that students will collaborate on a digital project. Students will not delete or damage other students' work intentionally. Students will ask for permission prior to posting videos of photos of students. When working on projects or any other work with online resources, students will follow copyright and creative commons laws.

Cyberbullying (David's Law – [HB 306](#)) - Cyberbullying is the use of digital technologies or mobile devices to harass, threaten, embarrass, or torment another student. This can happen both directly and indirectly. Students will practice "think before you send" and will report any cyberbullying they become aware of to a trusted adult. The district will notify the parents or the victim and the parents of the aggressor in a timely manner after the incident has been reported.

David's law protects students on school property, at a school sponsored event/activity, on school owned buses or vehicles being used to transport students, and on property outside of the school setting if the cyberbullying interferes with a student's educational opportunities or substantially disrupts the orderly operation of a classroom, school, or school-sponsored activity/event.

Students will:

- Identify strategies for dealing with cyberbullying responsibly.
- Analyze and report any offensive online behavior or interactions to a trusted adult.
- Create positive online communities rooted in trust and respect.
- Think before you send or post.

Students will NOT:

- Publish information that is not harmful or embarrassing to others.
- Facilitate in the spreading of rumors via online platforms.
- Participate in online polls, “bash” sessions, or other communities that are harmful to others.

“Sexting” or other inappropriate online interactions - Like cyberbullying, “sexting”, or the transmission of inappropriate images or messages digitally, can result in conviction in a court of law. Students will understand the role of digital technologies in relationships. Students will not actively participate in the sharing of inappropriate photos and/or information of themselves or others.

Research and Information Literacy

Searching - Students will use a variety of search engines to search for information and content. Students will understand the functions of effective keywords and categories to find useful and relevant information online.

Research and Evaluation - Students will choose websites with high-quality information and when possible, use multiple sources to find their information. Students will properly cite online resources. Students will be able to identify online advertisements and spam on websites and understand the purpose behind those advertisements.
